Weiss, 2019-04-11 This book is concerned with social change in Pakistan particularly the relationship between indigenous sociocultural orientations the development process and the rise of a new middle level entrepreneurial class in the Punjab      **A Brief History of Pakistan** James Wynbrandt, 2009 From the Publisher A Brief History of Pakistan attempts to answer these questions in a concise yet thorough account By illuminating the nation s past this book offers readers a detailed perspective of Pakistan today and enables them to consider soundly how the country once a birthplace of civilization might change in the future      **The The Living History of Pakistan (2015-2016)** Inam R Sehri, 2022-06-09 The history of Pakistan from 2015 2016 Sixth book in the series      The Emergence of Pakistan Abdus Sadeque, 1954      **Pakistan** Husain Haqqani, 2010-03-10 Among U S allies in the war against terrorism Pakistan cannot be easily characterized as either friend or foe Nuclear armed Pakistan is an important center of radical Islamic ideas and groups Since 9 11 the selective cooperation of president General Pervez Musharraf in sharing intelligence with the United States and apprehending al Qaeda members has led to the assumption that Pakistan might be ready to give up its longstanding ties with radical Islam But Pakistan s status as an Islamic ideological state is closely linked with the Pakistani elite s worldview and the praetorian ambitions of its military This book analyzes the origins of the relationships between Islamist groups and Pakistan s military and explores the nation s quest for identity and security Tracing how the military has sought U S support by making itself useful for concerns of the moment while continuing to strengthen the mosque military alliance within Pakistan Haqqani offers an alternative view of political developments since the country s independence in 1947      **The Living History of Pakistan (2016-2017)** Inam R Sehri, 2022-06-09 The history of Pakistan from 2016 2017 Seventh book in the series      Pakistan and a World in Disorder Javid Husain, 2016-05-20 This book delineates the role that Pakistan should play in the largely anarchic world of the twenty first century in order to best serve the country s long term national interests Its main aim is to lay down the parameters within which Pakistan s grand strategy should be formulated taking into account the evolving global and regional security environment and Pakistan s historical experience Provided here is an in depth analysis and critical evaluation of the past record of Pakistan s foreign policy within this context bringing out its successes and failures strengths and weaknesses Based on these analyses a comprehensive approach is recommended for safeguarding Pakistan s national security and promoting its prosperity utilizing a strategy that is a marked departure from the military dominated uni dimensional policies the country has followed thus far Besides providing guidelines to Pakistan s policy makers and intelligentsia this book will be of interest to academics foreign observers and general readers in understanding the constraints and parameters within which Pakistan a de facto nuclear weapon state of 190 million people at the cross

Pakistan Lawrence Ziring,2003 In this probing book a leading defense expert gives the inside story of Pakistan telling of a country torn apart by catastrophic civil wars dominated by the bullish military dictatorship of General Musarraf and struggling against the growth of extremist Islam *Contemporary Pakistan* Veena Kukreja,2003-02-24 Veena Kukreja provides a rare reasoned analysis of the political processes at work in contemporary Pakistan and an objective understanding of the problems and crises confronting the country The author points out that for 25 out of the 53 years of its existence the military has been the arbiter of Pakistan s destiny The military she maintains regards its dominance of Pakistani politics not only as a right but as a duty As a result state security has taken precedence over the need to create participatory political processes and institutions The book points out that the terrorist attacks of 11 September 2001 and the resulting US offensive in Afghanistan has put the military regime in Islamabad in a tight spot Caught between unyielding ulemas a faltering economy and American pressure to demolish militant networks in Pakistan these recent developments combined with the dangerous cleavage within Pakistani society could well push that country into another bout of instability and even anarchy The situation is made more complex by the nexus between terrorism and drugs *1967 Annual Supplement* John B.
