Directory of Repositories of Family History in New Hampshire Scott E. Green, 2009-06 Professor Wertenbaker here explains how the headright system tobacco cultivation and the importation of slave labor transformed the colony of Virginia from largely a society of yeoman farmers to a planter aristocracy *The Emergence of Provincial New Hampshire, 1623-1741* David E. Van Deventer, 1976 Laws of New Hampshire: Province period, 1679-1702 New Hampshire, 1904

Morison, 1976-08-17 On New Hampshire's thin cold soil strewn with rocks generations of resourceful tough independent men and women created a landscape of meadows and pastures of stone walls and weathered barns and clapboard houses that has affected the American imagination This is the story of a historically small and relatively poor state which seems in our own time increasingly attractive to those who seek what the authors call a simple kind of life lost elsewhere Posing questions about land use and balanced growth that are important to all Americans the Morisons account of New Hampshire and its fluctuating fortunes will fascinate both residents and those who only visit or dream of doing so **History of Bedford, New-Hampshire** Bedford (N.H. : Town), 1851 **Colony, Province, State, 1623-1888** John Norris McClintock, 1888 *A History of Dartmouth College and the Town of Hanover, New Hampshire* Frederick Chase, 1891 Collection consists of research materials for Chase's work A history of Dartmouth College and the town of

Hanover New Hampshire published as A history of Dartmouth College and the town of Hanover New Hampshire Cambridge John Wilson and Son c1891 Also includes research materials for the second volume of the work which was completed by John King Lord entitled A history of Dartmouth College 1815 1909 published as A history of Dartmouth College 1815 1909 Concord N H Rumford Press c1913 and A History of the Town of Hanover N H by John King Lord edited by Arthur Fairbanks published as A History of the Town of Hanover N H Hanover N H The Dartmouth Press c 1928 The American Constitutional Tradition H. Lowell Brown, 2017-05-24 The book is a work of non fiction The book is a historical analysis of the evolution of a uniquely American constitutionalism that began with the original English royal charters for the exploration and exploitation of North America When the U S Constitution was written in 1787 the accepted conception of a constitution was that of the British constitution upon which the colonists had relied in asserting their rights with respect to the imperium comprised of ancient documents parliamentary enactments administrative regulations judicial pronouncements and established custom Of equal significance the laws comprising the constitution did not differ from other statutes and as a consequence there was no law endowed with greater sanctity than other legislative enactments In framing the revolutionary state constitutions following the retreat of the crown governments in the colonies as well as the later federal Constitution the Revolutionaries fundamentally reconceived a constitution as being the single authoritative source of fundamental law that was superior to all other statutes regulations and judicial decisions that was ratified by the states and that was subject to revision only through a formal amendment process This new constitutional conception has been hailed as the great innovation of the revolutionary period and deservedly so This American constitutionalism had its origins in the now largely overlooked royal charters for the exploration of North America beginning with the charter granted to Sir Humphrey Gilbert by Elizabeth I in 1578 The book follows the development of this constitutional tradition from the early charters of the Virginia Companies and the covenants entered of the New England colonies through the proprietary charters of the Middle Atlantic colonies On the basis of those foundational documents the colonists fashioned governments that came to be comprised not only of an executive but an elected legislature and a judiciary In those foundational documents and in the acts of the colonial legislatures the settlers sought to harmonize their aspirations for just institutions and individual rights with the exigencies and imperatives of an alien and often hostile environment When the colonies faced the withdrawal of the crown governments in 1775 they drew on their experience which they formalized in written constitutions This uniquely American constitutional tradition of the charters covenants and state constitutions was the foundation of the federal Constitution and of the process by which the Constitution was written and ratified a decade later *History of Rockingham and Strafford Counties, New Hampshire, with Biographical Sketches of many of its Pioneers and Prominent Men* Duane Hamilton Hurd, 2025-07-14 Reprint of the original first published in 1882 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their
