Emergence Of American Literary Narrative:

The Emergence of American Literary Narrative, 1820-1860 Jonathan Arac, 2005 In the mid nineteenth century writers such as Hawthorne and Melville produced works of fiction that even today help define American literature In this work of innovative literary history Jonathan Arac explains what made this remarkable creativity possible and what it accomplished

Poe and the Subversion of American Literature Robert T. Tally Jr., 2014-01-16 Choice Outstanding Academic Title 2014 In Poe and the Subversion of American Literature Robert T Tally Jr argues that Edgar Allan Poe is best understood not merely as a talented artist or canny magazinist but primarily as a practical joker who employs satire and fantasy to poke fun at an emergent nationalist discourse circulating in the United States Poe s satirical and fantastic mode on display even in his apparently serious short stories and literary criticism undermines the earnest attempts to establish a distinctively national literature in the nineteenth century In retrospect Poe s work also subtly subverts the tenets of an institutionalized American Studies in the twentieth century Tally interprets Poe s life and works in light of his own social milieu and in relation to the disciplinary field of American literary studies finding Poe to be neither the po te maudit of popular mythology nor the representative American writer revealed by recent scholarship Rather Poe is an untimely figure whose work ultimately makes a mockery of those who would seek to contain it Drawing upon Gilles Deleuze s distinction between nomad thought and state philosophy Tally argues that Poe s varied literary and critical writings represent an alternative to American literature Through his satirical critique of U S national culture and his otherworldly projection of a postnational space of the imagination Poe establishes a subterranean nomadic and altogether worldly literary practice

The Cambridge History of American Literature: Volume 2, Prose Writing 1820-1865 Sacvan Bercovitch, Cyrus R. K. Patell, 1994 This is the fullest and richest account of the American Renaissance available in any literary history The narratives in this volume made for a four fold perspective on literature social cultural intellectual and aesthetic Michael D Bell describes the social conditions of the literary vocation that shaped the growth of a professional literature in the United States Eric Sundquist draws upon broad cultural patterns his account of the writings of exploration slavery and the frontier is an interweaving of disparate voices outlooks and traditions Barbara L Packer s sources come largely from intellectual history the theological and philosophical controversies that prepared the way for transcendentalism Jonathan Arac s categories are formalist he sees the development of antebellum fiction as a dialectic of prose genres the emergence of a literary mode out of the clash of national local and personal forms Together these four narratives constitute a basic reassessment of American prose writing between 1820 and 1865 It is an achievement that will remain authoritative for our time and that will set new directions for coming decades in American literary scholarship

Nineteenth Century Prose, 2007

American Literary History and the Turn toward Modernity Melanie V. Dawson, Meredith L. Goldsmith, 2018-08-10 Approaching the period of 1880 1930 in American literature as one in which the processes of rethinking the past were as prevalent as wholly new works

of art this collection treats the century's long turn as a site that overtly staged the tension among conflicting sets of values those of past present and the imagined future As the authors of this collection demonstrate the literature from the century's turn is irreducible to the characteristics either of the nineteenth or the twentieth centuries rather it is literature of dual practices and multiple values that embodies elastic qualities of historical plurality a true literature in transition Political Liberalism and the Rise of American Romanticism Scott M. Reznick, 2024 This volume traces how American literature evolved in response to widespread conflicts over the very nature of US democracy in the early republic and antebellum eras It examines how American writers reacted to three moments of profound divisiveness in the 1790s 1830s and 1850s

Studies in Irreversibility Benjamin Schreier, 2009-10-02 The premise of Studies in Irreversibility Texts and Contexts is that there is a big difference between phenomena practices processes and events that are irreversible and those that are reversible and moreover that this difference and its manifold implications remain underappreciated so long as the analysis of culture continues to anchor itself in an emphasis on the capacities of human agency If messianic modes posit a future to justify the present and so interpret the influence of the past the papers in this collection are devoted to examining the present of experience from the perspective of its uncompromising and irreducible past finding in irreversibility a key to an interpretation of futurity Together these papers outline a method of examining experience as something more or at least other than the desire to know it and in so doing they shed light on the powerful role of normativity in the narratives we construct in and about culture Through novel analyses from the disciplines of literature art criticism history philosophy ethnic studies and ethics the contributors to this book address key questions about the nature of irreversibility What differentiates the experience of the irreversible from the experience of the reversible How is irreversibility recognized What happens when we acknowledge something to be irreversible How has society contended with irreversibility and what sorts of tools exist today to interpret its significance Wary of impetuously fixing the meaning of a still elusive concept this volume collects papers that employ a wide array of methodologies mindful that no one critical approach may yet have proved itself Irreversibility is not simply a quality of the texts examined in this volume nor is it strictly speaking a lens through which otherwise coherent or stable texts are examined rather it emerges as a model that brings together texts and the thinking of them By together outlining a method of examining culture that moves beyond reliance on tropes such as functionalism teleology and chance tropes that have dominated twentieth century cultural analysis these papers help to inaugurate a new paradigm in the study of culture

Parrinder, A. Nash, N. Wilson, 2014-02-25 New Directions in the History of the Novel challenges received views of literary history and sets out new areas for research A re examination of the nature of prose fiction in English and its study from the Renaissance to the 21st century it will become required reading for teachers and students of the novel and its

history **REAL - Yearbook of Research in English and American Literature, Volume 38** Laura Bieger, Johannes Völz, 2024-04-29 Celebrating the 80th birthday of Winfried Fluck this volume of REAL gathers leading US American and European literary scholars from English and American Studies to engage some of his classic essays covering topics that range from the aesthetics of early American literature to the history of our digital present and from the Americanization of literary studies to the search for American democratic culture Each of the volume's twelve dialogues consists of a republished essay by Fluck and a response by one of his interlocutors written specifically for this occasion Contributors include field defining scholars long time companions and colleagues whose intellectual trajectory has been impacted by Fluck's incisive metacriticism and his reception oriented approach to literary and cultural history The twelve dialogues reassess debates that have shaped literary studies in the late twentieth century and they inquire into the paradigmatic shifts that are currently reorganizing the field Jewish American Writing and World Literature Saul Noam Zaritt, 2020 This book explores how Jewish American writers like Sholem Asch Jacob Glatstein Isaac Bashevis Singer Anna Margolin Saul Bellow and Grace Paley think of themselves as world writers and the successes and failures that come with this role **The Cambridge History of the American Novel** Leonard Cassuto, Clare Virginia Eby, Benjamin Reiss, 2011-03-24 This ambitious literary history traces the American novel from its emergence in the late eighteenth century to its diverse incarnations in the multi ethnic multi media culture of the present day In a set of original essays by renowned scholars from all over the world the volume extends important critical debates and frames new ones Offering new views of American classics it also breaks new ground to show the role of popular genres such as science fiction and mystery novels in the creation of the literary tradition One of the original features of this book is the dialogue between the essays highlighting cross currents between authors and their works as well as across historical periods While offering a narrative of the development of the genre the History reflects the multiple methodologies that have informed readings of the American novel and will change the way scholars and readers think about American literary history Repetition and Race Amy C. Tang, 2016-05-02 Repetition and Race shows how texts by Theresa Cha Susan Choi Karen Tei Yamashita Chang rae Lee and Maxine Hong Kingston use structures of repetition to register and respond to the widespread institutionalization of liberal multiculturalism *National Identities and Post-Americanist Narratives* Donald E. Pease, 1994 National narratives create imaginary relations within imagined communities called national peoples But in the American narrative alongside the nexus of belonging established for the national community the national narrative has represented other peoples women blacks foreigners the homeless from whom the property of nationness has been removed altogether and upon whose differences from them the national people depended for the construction of their norms Dismantling this opposition has become the task of post national Post Americanist narratives bent on changing the assumptions that found the national identity This volume originally published as a special issue of *boundary 2* focuses on the process of assembling and dismantling the American national narrative

Narratives of Low Countries History and Culture Jane Fenoulhet, Lesley Gilbert, Ulrich Tiedau, 2016-11-07

This edited collection explores the ways in which our understanding of the past in Dutch history and culture can be rethought to consider not only how it forms part of the present but how it can relate also to the future Divided into three parts The Uses of Myth and History The Past as Illumination of Cultural Context and Historiography in Focus this book seeks to demonstrate the importance of the past by investigating the transmission of culture and its transformations It reflects on the history of historiography and looks critically at the products of the historiographic process such as Dutch and Afrikaans literary history The chapters cover a range of disciplines and approaches some authors offer a broad view of a particular period such as Jonathan Israel's contribution on myth and history in the ideological politics of the Dutch Golden Age while others zoom in on specific genres texts or historical moments such as Benjamin Schmidt's study of the doolhof a word that today means labyrinth but once described a 17th century educational amusement park This volume enlightening and home to multiple paths of enquiry leading in different directions is an excellent example of what a past present doolhof might look like

Postapocalyptic Fantasies in Antebellum American Literature John Hay, 2017-10-05 Even before the Civil War American writers were imagining life after a massive global catastrophe For many the blank slate of the American continent was instead a wreckage strewn wasteland a new world in ruins Bringing together epic and lyric poems fictional tales travel narratives and scientific texts *Postapocalyptic Fantasies in Antebellum American Literature* reveals that US authors who enthusiastically celebrated the myths of primeval wilderness and virgin land also frequently resorted to speculations about the annihilation of civilizations past and future By examining such postapocalyptic fantasies this study recovers an antebellum rhetoric untethered to claims for historical exceptionalism a patriotic rhetoric that celebrates America while denying the United States a unique position outside of world history As the scientific field of natural history produced new theories regarding biological extinction geological transformation and environmental collapse American writers responded with wild visions of the ancient past and the distant future

The Rise and Fall of Jewish American Literature Benjamin Schreier, 2020-09-18 Benjamin Schreier argues that Jewish American literature's dominant cliché of breakthrough that is the irruption into the heart of the American cultural scene during the 1950s of Jewish American writers like Bernard Malamud Philip Roth Saul Bellow and Grace Paley must also be seen as the critically originary moment of Jewish American literary study According to Schreier this is the primal scene of the Jewish American literary field the point that the field cannot avoid

repeating and replaying in instantiating itself as the more or less formalized academic study of Jewish American literature. More than sixty years later the field's legibility, the very condition of its possibility, remains overwhelmingly grounded in a reliance on this single ethnological narrative. In a polemic against what he sees as the unexamined foundations and stagnant state of the field, Schreier interrogates a series of professionally powerful assumptions about Jewish American literary history: how they came into being and how they hardened into cliché. He offers a critical genealogy of breakthrough and other narratives through which Jewish Studies has asserted its compelling self-evidence, not simply under the banner of the historical realities Jewish Studies claims to represent but more fundamentally for the intellectual and institutional structures through which it produces these representations. He shows how a historicist scholarly narrative quickly consolidated and became hegemonic in part because of its double articulation of a particular American subject and of a transnational historiography that categorically identified that subject as Jewish. The ethnological grounding of the Jewish American literary field is no longer tenable, Schreier asserts in an argument with broad implications for the reconceptualization of Jewish and other identity-based ethnic studies.

Women and Authorship in Revolutionary America Angela Vietto, 2005. In distinct contrast to earlier studies on early US women's authorship, this book argues that women writers in Revolutionary America viewed civic participation as a key component of the social role of authorship and that they used authorship as a means to contribute publicly to the evolving creation of the new nation's political and social identities. Angela Vietto here analyzes poetry, letters, religious texts, essays, and plays by early American writers: Mercy Otis Warren, Sarah Osborn, and Susanna Anthony Hannah Adams, Eunice Smith, Jenny Fenno, Sarah Pogson Smith, Judith Sargent Murray, and Hannah Griffiths, among others.

Cultural History of Reading Sara E. Quay, Gabrielle R. Watling, 2008-11-30. What is it about some books that makes them timeless? *Cultural History of Reading* looks at books from their earliest beginnings through the present day in both the US and regions all over the world. Not only fiction and literature but religious works, dictionaries, scientific works, and home guides such as Mrs. Beeton's all have had an impact on not only their own time and place but continue to capture the attention of readers today. Volume 1 examines the history of books in regions throughout the world, identifying both literature and nonfiction that was influenced by cultural events of its time. Volume 2 identifies books from the pre-colonial era to the present day that have had lasting significance in the United States. History students and book lovers alike will enjoy discovering the books that have impacted our world.

The Colonizing Trick David Kazanjian, 2003. An illuminating look at the concepts of race, nation, and equality in eighteenth and nineteenth-century America. The idea that all men are created equal is as close to a universal tenet as exists in American history. In this hard-hitting book, David Kazanjian interrogates this tenet, exploring transformative flash points in early America when the belief in equality came into contact with seemingly contrary ideas about race and nation. *The Colonizing Trick* depicts early America as a white settler colony in the process of becoming an empire, one deeply integrated with Euro-American political economy, imperial ventures in North America, and

Africa and pan American racial formations Kazanjian traces tensions between universal equality and racial or national particularity through theoretically informed critical readings of a wide range of texts the political writings of David Walker and Maria Stewart the narratives of black mariners economic treatises the personal letters of Thomas Jefferson and Phillis Wheatley Charles Brockden Brown s fiction congressional tariff debates international treaties and popular novelettes about the U S Mexico War and the Yucatan s Caste War Kazanjian shows how emergent racial and national formations do not contradict universalist egalitarianism rather they rearticulate it making equality at once restricted formal abstract and materially embodied
