The Emergence of British Parliamentary Democracy in the Nineteenth Century J. B. Conacher, 1971 The Emergence of British Parliamentary Democracy in the Nineteenth Century J. B. Conacher, 1971 The Emergence of British Parliamentary Democracy J. B. Conacher, 1971 **Evolution of the British Party System** Robert C. Self, 2014-07-30 By the end of the nineteenth century reform and development of the British electoral system had inaugurated a new style of mass politics which fundamentally transformed the face of the British party system This book traces the evolution of recognisably modern parties from their roots in the 1880s through half a century of dramatic change in organisational structure electoral competition and constitutional thought In the House of Commons the Labour Party replaced the Liberals as the radical answer to the Conservative Party In the country at large the complex web of Victorian social regional and religious allegiances gave way to a cruder but more dynamic model of modern political loyalties The transformation at Westminster and in the constituencies is surveyed in relation to changes to the franchise including the vote for women class consciousness political organisation and doctrine The comprehensive account explains the varying fortunes of the parties in the face of mass democracy collectivism the First World War and economic uncertainty It also provides a critical insight into the debates and conflicts of interpretation which surround this pivotal period in British political history **Radical Ideas in Britain** R. Constitutional Democracy in a Multicultural and Globalised World Thomas Fleiner,Lidija Basta Fleiner,2009-01-31 After World War II states transformed into collective fortresses in order to protect competing ideological systems The debate on post modern statehood heavily built on ideological disputes between liberalism and communism over the nature of the economic and social system and the state and government that could sustain such a system What is an ideologically acceptable state concept which tasks and functions should the state fulfil and how to legitimate not only democratic but also authoritarian and even totalitarian regimes These questions were at the very centre of state theory However after the fall of communism in Europe and the former Soviet Union the discourse of state and government scholarship radically changed The need for a profound shift in the state paradigm was emerging The time after 1989 seemed to proclaim that the nation state had lost its raison d'être as an island of undisputed and unlimited sovereignty A globalised world order broke open the fortress state that developed within the tradition of European constitutionalism Given the simultaneous structural changes to the nation state's foundations socio economic and political reforms going hand in hand with new constitutional designs the state in transition started paving the way towards a new state paradigm and not only with regard to the states in the process of democratic transformation from socialist into liberal constitutional democracies [Preview Indian Polity and Governance Part-4 2025 \(25118-C\) \(E-Book\)](#) SSGCP GROUP,2025-04-29 Preview Indian Polity and Governance Part 4 2025 25118 C E Book
