Electronic Procurement Applications And Trends For The Food Service And Hospitality Industries

Jack W. Plunkett

Electronic Procurement Applications And Trends For The Food Service And Hospitality Industries:

Electronic Procurement Applications and Trends for the Food Service and Hospitality Industries Cihan

Cobanoglu,E. L. Heiberger,2003-09 This book is a two part study examining how the electronic purchasing landscape has shifted in the last eighteen months First a survey of 1 550 chain restaurant and hotel executives from the 2002 Directory of Chain Restaurant Operators was conducted Twenty one questions were posed to them including the following What types of applications do you use to purchase electronically How is your spending distributed How much time did you spend on training What features have you deployed Are you satisfied with your application Answers to these questions not only assist those looking to use purchasing applications but also those that are developing applications By seeing how much people are willing to spend in both time and money the application development industry can tune their product parameters to meet the demand In addition to the survey twenty two applications were reviewed Provided are definitions of those involved including distributors consortiums and applications developers both traditional and ASP model From there ten application developers are reviewed based upon over fifty criteria that fall into ten categories This is of great value to those that are attempting to select and purchase an e procurement application It is a comprehensive study of the strengths and weaknesses of each company as well as a complete look at every real player in the industry The application developer will also find this research of value to determine where they play in reference to their competition

Aydın, Şule,Özgül Katlav, Eda,Çamlıca, Koray,Yönet Eren, Firdevs,2023-08-25 In today s rapidly evolving world technology has permeated every aspect of our lives and the culinary world is no exception Impactful Technologies Transforming the Food Industry delves into the revolutionary role of technology in transforming the way we produce prepare and experience food From restaurant operations to the dining experience and the rise of food delivery services this book explores the profound impact of technology on the food industry Impactful Technologies Transforming the Food Industry provides an in depth exploration of the objectives motivations and consequences associated with the adoption of technology in the food industry through meticulous analysis and real world examples From advanced ordering systems and kitchen automation to virtual reality and interactive dining experiences readers gain valuable insights into how technology has revolutionized the way food businesses operate and how it has reshaped the relationship between consumers and food This book also addresses the emergence of food delivery services the ethical considerations of technology in the industry and the potential future trajectory of food tech It is an essential resource for food industry professionals students policymakers and consumers interested in the intersection of gastronomy and technology **Handbook of Technology Application in Tourism in**

Asia Azizul Hassan,2022-07-09 It is an undisputed reality that the tourism industry in Asia is getting exposed to more innovative technologies than ever before This proposed book provides the latest research in the application of innovative technology to the tourism industry covering the perspectives innovativeness theories issues complexities opportunities and challenges This book a blend of comprehensive and extensive effort by the contributors and editors is designed to cover the application and practice of technology in tourism including the relevant niches This book focuses on the importance of technology in tourism This also highlights in a comprehensive manner specific technologies that are impacting the tourism industry in Asia as well as the constraints the industry is facing The contents of this book deal with distinct topics such as mobile computing new product designs innovative technology usages in tourism promotion technology driven sustainable tourism development location based apps mobility accessibility and so on A good number of research studies have conducted outlining the contributions and importance of technologies in tourism in general However the tourism industry of Asia so far

has attracted very few researchers. Some contributions have been made but not sufficient. Considering the ongoing trend of technology application in the tourism industry in Asia, very few research attempts have been made aiming to explore diverse aspects. Tourism is expanding enormously across the world, which actually creates more demands for effective technologies. This book will be a reading companion especially for tourism students in higher academic institutions. This book will also be read by the relevant policy planners and industry professionals. Apart from them, this book will be appreciated by expatriate researchers and researchers having keen interest in the Asian tourism industry.
