CD-ROMs in Print ,2003 **Intermediality** Ladislaus Semali,2018-02-02 With the ever growing proliferation of electronic and other popular media the complexity of relationship between what students see and hear what they believe and how they interact with one another underscores now more than ever the need for across the curriculum teaching of critical thinking critical reading and critical viewing skills The emerging

consensus is that teaching critical viewing skills bolsters students abilities in traditional disciplines combats problems of youth apathy violence and substance abuse and improves students parents and teachers attitudes toward school Intermediality Teachers Handbook of Critical Media Literacy challenges the practice of teaching the classics and the canon of acceptable literary works far removed from students experiences with emphasis on learning environment over the presentation of any specific or specified content The authors Ladislaus Semali and Ann Watts Pailliotet present literacy education as intermedial in nature it entails constructing connections among varying conceptions and sign systems Reading printed texts requires more than simply decoding letters into words or sounds it involves finding meaning motive structure and affect The same goes for reading the electronic text The authors argue for the discourse of literacy to take up a critical stance by examining a whole wide array of texts that form the meaning making process of the looming information age Intermediality examines extends and synthesizes the existing literary definitions texts theories processes research and contexts It brings into focus the possibilities of working with media texts to address questions adapted from linguists and literary educators Thus in this book critical media literacy becomes a competency to read interpret and understand how meaning is made and derived from print photographs and other electronic and graphic visuals **United Nations**
