McGill-Franzen, Richard Allington, 2010-09-17 Bringing together a wide range of research on reading disabilities this
comprehensive Handbook extends current discussion and thinking beyond a narrowly defined psychometric perspective
Emphasizing that learning to read proficiently is a long term developmental process involving many interventions of various
kinds all keyed to individual developmental needs it addresses traditional questions What is the nature or causes of reading
disabilities How are reading disabilities assessed How should reading disabilities be remediated To what extent is
remediation possible but from multiple or alternative perspectives Taking incursions into the broader research literature
represented by linguistic and anthropological paradigms as well as psychological and educational research the volume is on
the front line in exploring the relation of reading disability to learning and language to poverty and prejudice and to
instruction and schooling The editors and authors are distinguished scholars with extensive research experience and
publication records and numerous honors and awards from professional organizations representing the range of disciplines
in the field of reading disabilities Throughout their contributions are contextualized within the framework of educators
struggling to develop concrete instructional practices that meet the learning needs of the lowest achieving readers

The Future of Foreign Language Education in the United States Terry A. Osborn, 2002-01-30 At the dawning of the 21st century foreign language education in the United States is experiencing a period marked by exciting possibilities Theorists and practitioners embrace a move from a perceived position of teaching only the elite to a nationally initiated cross disciplinary and cross cultural orientation embodied in the latest standards Given the presence of non English languages in all parts of the United States a growing number of scholars are beginning to examine the sociological context in which this educational endeavor is carried out noting that the figure of professional practice is inextricably linked to issues of cultural and academic context Theory informed practice in the coming years therefore will include the challenge of examining a broad range of topics related to curricular and instructional principles and procedures The text is intended to provide a collection of perspectives related to issues of pluralism and reform as they will influence theory informed practice of foreign language education in the coming century Drawing from a variety of contributors from both inside and outside of foreign second language education this text brings the voices of scholars together focused on issues of contemporary consequence The chapters center around a focusing theme in the form of the following question How does the changing social and academic context of language education in the United States impact the future of our discipline

Reading Hebrew Joseph Shimron, 2006-08-15 Over the last two decades the study of languages and writing systems and their relationship to literacy acquisition has begun to spread beyond studies based mostly on English language learners As the worldwide demand for literacy continues to grow researchers from different countries with different language backgrounds have begun examining the connection between their language and writing system and literacy acquisition This volume is part of this new emerging field of research In addition to reviewing psychological research on reading the author's specialty the reader is introduced to the Hebrew language its structure its history its writing system and the issues involved in being fluently literate in Hebrew Chapters 1-4 introduce the reader to the Hebrew language and word structure and focuses on aspects of Hebrew that have been specifically researched by experimental cognitive psychologists The reader whose only interest is in the psychological mechanisms of reading Hebrew may be satisfied with these chapters Chapters 5-8 briefly surveys the history of the Hebrew language and its writing system the origin of literacy in Hebrew as one of the first alphabetic systems and then raises questions about the viability or possibility of having full scale literacy in Hebrew Together the two sets of chapters present the necessary background for studying the psychology of reading Hebrew and literacy in Hebrew This volume is appropriate for anyone interested in comparative reading and writing systems or in the Hebrew language in particular This includes linguists researchers and graduate students in such diverse fields as cognitive psychology psycholinguistics literacy education English as a second language and communication disorders

Explaining Individual Differences in Reading Susan A. Brady, David Braze, Carol A. Fowler, 2011-05-09 Research into reading development and reading disabilities has been dominated by phonologically

guided theories for several decades In this volume the authors of 11 chapters report on a wide array of current research topics examining the scope limits and implications of a phonological theory The chapters are organized in four sections The first concerns the nature of the relations between script and speech that make reading possible considering how different theories of phonology may illuminate the implication of these relations for reading development and skill The second set of chapters focuses on phonological factors in reading acquisition that pertain to early language development effects of dialect the role of instruction and orthographic learning The third section identifies factors beyond the phonological that may influence success in learning to read by examining cognitive limitations that are sometimes co morbid with reading disabilities contrasting the profiles of specific language impairment and dyslexia and considering the impact of particular languages and orthographies on language acquisition Finally in the fourth section behavioral genetic and neurological methods are used to further develop explanations of reading differences and early literacy development The volume is an essential resource for researchers interested in the cognitive foundations of reading and literacy language and communication disorders or psycholinguistics and those working in reading disabilities learning disabilities special education and the teaching of reading
