**Elephant Island and Beyond** John Thomson, 2003 The aristocracy of Antarctic exploration does not include the name of Thomas Orde Lees He came away from Shackleton's 1914 expedition with the reputation of being the least popular and most criticised of the men involved in the Endurance adventure in the Weddell Sea Not only was he disliked simply for being himself but he was also expected to become the first victim of cannibalism if the 22 men of Elephant Island had run out of food Previous accounts of Shackleton's adventure have unfailingly mentioned that Orde Lees was unpopular Though they have plundered his excellent journal for much of the detail of life on board the Endurance on the pack ice and finally on Elephant Island the part he played in keeping the men alive has not been recognised His journal has surprisingly never been published and this book is a long overdue testament to a much misunderstood and probably unfairly maligned man After his rescue from Elephant Island Orde Lees campaigned vigorously for the use of parachutes in the newly formed Royal Air Force and he was publicly credited with being the primary advocate Many pilots owe their lives to his faith in this new invention He went on to perform more service for his country in Japan and spent the final period of his life in New Zealand

*Frank Hurley's Antarctica* Helen Ennis, 2010 Frank Hurley is best known for his stunning Antarctic photographs Here Helen Ennis discusses some of his most famous images and the conditions in which they were taken Uniquely Hurley's own words are sprinkled throughout as facsimiles from his diaries written during both the Mawson and Shackleton expeditions For Hurley image making and exploration went hand in hand and he sought out exalted experiences through physical struggle through relationships with the natural world and through story telling This book brings to life his passion for photography and for making art and his own spirit of survival
