Elephants The Last Of The Land Giants:

National Geographic Kids Mission: Elephant Rescue Ashlee Brown Blewett, Daniel Raven-Ellison, 2014 Stories and facts that reveal the real life survival challenges that have caused elephants to become endangered and information about what kids can do to support conservation efforts

The Last Giants Levison Wood, 2020-11-03 From the award winning explorer an entertaining summary of what we know about the elephant and a call to change our behavior to ensure its survival Daily Mail The Last Giants satisfies British explorer Levison Wood's lifelong desire to learn more about the majestic African elephant These giants trek through some of Africa's most magnificent landscapes as they go in search of life giving waters and pastures El Nino's droughts and an insatiable ivory trade have cut African elephant numbers by a third in the last decade alone and if elephants disappear entirely Africa's entire ecosystem could collapse But Botswana has become a safe haven where one sixth of the world's elephants now reside Each year their numbers grow and an incredible migration takes place which Wood witnesses and records He teams up with local trackers to gain insight into how this iconic species survives camps out in the wild meets the people and tribes living on the migration's path and joins the park rangers whose job it is to protect these land goliaths equipped with his good eye for detail and better ear for dialogue The Wall Street Journal Adventurer Wood followed elephants on a 650 mile migration across Botswana for a British television program This fascinating companion volume to that series examines the past present and future of the African elephant Library Journal starred review A smart inviting portrait of elephants from a keen eyed observer Kirkus Reviews A rewarding look at the habits and habitats of the African elephant Comprehensively yet accessibly conveying Wood's lifelong fascination with African elephants his discussion will appeal to anyone keen on learning more about them Publishers Weekly

Ostriches and Other Flightless Birds Caroline Arnold, 1990-01-01 An introduction to the physical characteristics habits and natural environment of ostriches and a variety of other birds that do not fly including the rhea emu cassowary kiwi and tinamou

Elephants vs Whales Sophia Curie, AI, 2025-01-31 Elephants vs Whales presents a fascinating exploration of two mammalian giants comparing how evolution has uniquely equipped them for survival in their respective domains This comprehensive analysis delves into the remarkable anatomical differences between Earth's largest land animal the African elephant weighing up to 13 000 pounds and the magnificent blue whale reaching up to 400 000 pounds demonstrating how environmental pressures have shaped their physical characteristics over millions of years The book progresses systematically through detailed comparisons of their anatomical systems from the elephant's versatile trunk with its 40 000 muscles to the whale's specialized baleen feeding system Through a combination of modern imaging techniques and recent scientific research readers discover intriguing adaptations such as the whale's ability to hold its breath for 90 minutes and the elephant's highly efficient respiratory system Each chapter builds upon this foundation examining how physics environmental factors and evolutionary pressures have influenced their development What sets this work apart is its accessible approach to

complex scientific concepts making it valuable for both academic and general audiences interested in natural sciences The book draws from multiple disciplines including physics evolutionary biology and environmental science while maintaining clear explanations through practical examples and illustrations This systematic comparison offers readers a deep understanding of how similar biological challenges are addressed differently in terrestrial and marine environments showcasing the remarkable versatility of mammalian evolution

Giant Steps Richard Peirce, 2016-02-23 Elephants have long been targeted by humans not only are they killed for their ivory but their extraordinary strength intelligence and charisma have seen some of them captured chained and effectively jailed for life Bully and Induna are two African elephants both orphaned in organised culling operations and destined for lives in captivity Growing up far apart and quite differently Bully a former animal film star and the less fortunate Induna were both driven to react to their circumstances Induna even killed one of his carers Their individual situations reached a point where both were considered to be dangerous animals and were under threat of being put down This is the true story of their lives Conservationist Richard Peirce presents their individual narratives and the twists and turns of their fortunes the exploitation of these majestic but sensitive animals how they each came to be trapped in unsuitable employment and shunted about from one venue to the next before finding one another free at last on a farm in southern Africa

The Wonderful Elephants of the World Pasquale De Marco, 2025-08-10 Embark on an extraordinary journey into the captivating world of elephants the majestic giants that have roamed our planet for centuries This comprehensive guide offers a captivating exploration of their physical characteristics behavior habitat social structure and intelligence From the vast African savannas to the lush Asian forests elephants navigate diverse landscapes adapting their survival strategies to each unique environment We delve into their intricate social dynamics where matriarchs lead complex family units and individuals communicate through a sophisticated array of vocalizations and body language Elephants play a vital role in shaping their ecosystems their feeding habits influencing vegetation patterns and their movements creating pathways for other species However they face numerous threats including habitat loss poaching and human elephant conflict This book highlights the urgent need for conservation efforts and celebrates the initiatives working to protect these gentle giants Beyond their physical and behavioral attributes elephants possess remarkable cognitive abilities Their intelligence problem solving skills and capacity for empathy have been extensively studied revealing their emotional depth and complex social interactions We explore the cultural significance of elephants throughout history from their depiction in mythology and folklore to their contributions to our understanding of the natural world As we conclude our journey we reflect on the challenges facing elephants and the importance of coexistence between humans and these magnificent creatures This book not only provides a wealth of knowledge but also fosters a deep appreciation for the fragility and interconnectedness of our planet's biodiversity Join us on this captivating exploration of the wonderful elephants of the world and discover the beauty intelligence and resilience of these awe inspiring animals Their story is a testament to

It assesses the appropriation of Machiavelli in didactic works in management, social psychology and primatology, scholarly texts in leaderships studies as well as novels, plays, commercial enterprises, television dramas, operas, rap music, Mach IV scales, children's books and more. The book audits, surveys, examines and evaluates this Machiavelliana against wider claims about Machiavelli. It explains the origins of Machiavelli's reputation and the spread of his fame as the foundation for the many uses and misuses of his name. They conclude by redressing the most persistent distortions of Machiavelli. North American Cranes Lesley A. DuTemple, 1999-01-01.
