Elie Kedourie Cbe Fba 1926 1992 History Philosophy Politics:

Elie Kedourie, CBE, FBA 1926-1992 Sylvie Kedourie, 2014-06-03 This title is a collection of essays evaluating Elie Kedourie's work and his legacy to scholarship. Of his own work three pieces are included and one of his essays 'The Jews of Babylon and Baghdad' is published here for the first time. [Elie Kedourie's Approaches to History and Political Theory](#)

Sylvia Kedourie, 2013-10-18 Elie Kedourie was one of the twentieth century's most important and controversial historians of the Middle East. He redefined the landscape of the field by challenging the notion that the West's imperial domination of the region spawned nationalism in Arab countries. In a long career lecturing in politics at the London School of Economics, Kedourie inspired a generation of political scientists and politicians. A dedicated scholar and meticulous teacher, he founded *Middle Eastern Studies*, a journal which forty years after its launch remains one of the leading publications in the field and a monument to his work. Bringing together some of the most distinguished figures in Middle Eastern studies, this collection evaluates Kedourie's contribution to Middle Eastern history and political thought and assesses the impact of his scholarly legacy. The volume contains a complete bibliography of his writing and was previously published as a special issue of *Middle Eastern Studies*. [Index Islamicus](#), 2002 [Concise Biographical Companion to Index Islamicus](#) Wolfgang Behn, 2006-03-01 This second of the three volumes *Who's Who in Islamic Studies* presents the scholarly world at long last with its own biographical encyclopaedia. Taking as a starting point the inventory of authors from the renowned *Index Islamicus*, the author Wolfgang Behn, Berlin, has systematically collected numerous data on the lives and works of the tens of thousands of authors listed in the *Index Islamicus* from 1665 to 1980. This *Biographical Companion* will be an indispensable reference tool for the serious student and scholar of Islamic Studies. It enables the user to quickly gain knowledge on the life work and professional background of almost every major and minor author and thus to place each author in his/her proper perspective. A tremendous achievement and a true must for every library. [The War on Error](#) Martin Kramer, 2017-09-08 In *The War on Error*, historian and political analyst Martin Kramer presents a series of case studies, some based on pathfinding research and others on provocative analysis, that correct misinformation clouding the public's understanding of the Middle East. He also offers a forensic exploration of how misinformation arises and becomes fact. The book is divided into five themes: Orientalism and Middle Eastern studies, a prime casualty of the culture wars; Islamism, massively misrepresented by apologists; Arab politics, a generator of disappointing surprises; Israeli history, manipulated by reckless revisionists; and American Jews and Israel, the subject of irrational fantasies. Kramer shows how error permeates the debate over each of these themes, creating distorted images that cause policy failures. Kramer approaches questions in the spirit of a relentless fact checker: Did Israeli troops massacre Palestinian Arabs in Lydda in July 1948? Was the bestseller *Exodus* hatched by an advertising executive? Did Martin Luther King Jr. describe anti-Zionism as antisemitism? Did a major post-9/11 documentary film deliberately distort the history of Islam? Did Israel push the United States into the Iraq War? Kramer also questions paradigms: the Arab Spring, the

map of the Middle East and linkage Along the way he amasses new evidence exposes carelessness and provides definitive answers

Nation and Ethnicity Julia C. Schneider, 2017-03-13 Winner of the Foundation Council Award of the Georg August University of Göttingen Public Law Foundation in the category of Outstanding Publications of Young Scientists 2017. In *Nation and Ethnicity: Chinese Discourses on History, Historiography and Nationalism, 1900s-1920s* Julia C. Schneider gives an analysis of nationalist and historiographical discourses among late imperial and early republican Chinese thinkers. In particular, she researches their approaches towards non-Chinese people within the Qing Empire and the question on how to integrate them into a Chinese nation state. Non-Chinese people, mainly Manchus, Mongols, Tibetans and Turkic Muslims, Uyghurs, have not been considered as important factors in the history of early Chinese nationalism so far. But Chinese nationalist and historiographical discourses tell not only a lot about the Chinese image of the Other but also shed new light on the images of the Chinese Self and its assumed ability to assimilate and integrate other ethnicities. **2006 Lectures P J**

Marshall, 2007-12-27 Volume 151 of the Proceedings of the British Academy contains 15 Lectures delivered at the British Academy in 2006. From consideration of Einstein to discussions of coercion and consent in Nazi Germany and judicial independence. *Sites of Jewish Memory* Glenda Abramson, 2018-10-24 This book brings together a collection of 16 essays first published in the Journal of Modern Jewish Studies that explore Jewish communities in North Africa, Turkey and Iraq. The discussions are located primarily in the 20th century but essays also examine the Jewish community in 16th century Istanbul and in early modern Morocco. Topics include traumatic departures of communities from countries of centuries-old Jewish residence and relocations, pilgrimages to holy sites by Mizrahi Jews in Israel, resonances of Shabbetai Zevi in Turkey and Morocco, otherness and the nature of homeland, the Sephardi culinary heritage as realised in the cookbooks of Claudia Roden, sites of memory such as Kuzguncuk in Turkey and a controversial view of the exclusions and erasures that Arabized Jews have undergone. In this unique collection a major but not exclusive theme is that of the instability of memory and the attempt to understand the interactions between memory and history as Jews recount their experiences of living in and often leaving their past homelands. This book was originally published as a special issue of the Journal of Modern Jewish Studies.

Encyclopaedia of Nationalism Athena Leoussi, 2018-02-06 Since the end of the internationalist Soviet experiment in 1989, nationalism is now recognized as a positive vital force in modern political, cultural and social life if kept in check from excess. As a result of the explosion of nationalism, there has been a veritable resurgence of nationalism studies. This

proliferation calls for a survey of instruments which have been developed by scholars for the study of nationalism The Encyclopaedia of Nationalism brings together leading scholars in nationalism studies to survey this complex phenomenon With over one hundred entries the Encyclopaedia of Nationalism offers a complete and concise set of tools for the study of nationalism in a single volume The focus throughout is theoretical and for this reason particular nationalist movements and individual leaders are treated only as illustrative historical and contemporary cases in numerous entries The Encyclopaedia is organized in an alphabetical sequence of entries each of which includes a short bibliography for further reading The reader will find in depth discussions of the work of modern theoreticians of nationalism The defining figures of the eighteenth and nineteenth centuries including Herder Rousseau Fichte Marx and Renan Conceptual entries are treated historically and sociologically Crucial influential ideas and phenomena that continually redefine themselves with changing historical circumstances among them anti-Semitism art and nationalism assimilation class and nation decolonization ethnic competition genocide language and nation multiculturalism religion and nation state and nation and xenophobia are treated in depth A special attraction of this volume is its essay long entries many of which have been written by the scholars who developed them The Encyclopaedia of Nationalism discusses in lucid terms from an interdisciplinary perspective the central issues debates concepts and theories available to students and scholars of nationalism As such it is the most comprehensive and authoritative guide to the subject in all its varied manifestations and implications It will be an essential tool for historians political scientists sociologists and scholars of the history of ideas Michael Leifer Kin Wah Chin, Leo Suryadinata, 2005 Presents selected works of Michael Leifer the doyen of Southeast Asian Studies who died in 2001 This book includes works on the Southeast Asian region ASEAN regional order and conflict great power policies towards the region maritime security in Southeast Asia and studies of the domestic policies of individual Southeast Asian countries **Iraq** Heather Bleaney, Roper, Peter Sluglett, 2004-06-01 Well considered answers to the many questions raised by the situation in Iraq past and present are rare This first comprehensive thematically organised bibliography devoted to Iraq is based on the full Index Islamicus database and is drawn from a wide variety of European language journals and books Featuring an extensive introduction to the subject and its literature by Peter Sluglett this bibliography will help readers to find their way through the massive secondary literature now available Following the pattern established by the Index Islamicus both journal articles and book publications are included as well as important internet resources The editors have taken care to add much new material to bring its coverage up to date and supplement the previously published volumes while the most important and or influential publications are conveniently highlighted in the introduction An indispensable gateway for all those with a more than superficial interest in what is and what has been happening in this nation so much the focus of attention today **Political Thought and Political History** Moshe Gammer, 2004-08-02 This volume is limited to contributions by Professor Kedourie s previous students It reveals the far reaching range of his interests and the immense expanse of his horizons The first part

 Prof Anthony D Smith, Anthony Smith, 2013-04-15 The first major study in over three decades to explore the essential arguments of all the major theoretical interpretations of nationalism from the modernist approaches of Gellner Nairn Breuilly Giddens and Hobsbawm to the alternative paradigms of van den Bergh and Geertz Armstrong and Smith himself In a style accessible to the student and the general reader Smith traces the changing view of this hotly discussed topic within the current political cultural and socioeconomic arena He also analyses the contributions of such historians sociologists and political scientists as Seton Watson Reynolds Hastings Horowitz and Brass The survey concludes with an analysis of post modern approaches to national identity gender and nation making it indispensable reading to all those interested in gaining full and authoritative knowledge of nationalism **The Nation in History** Anthony D. Smith, 2014-01-23 In this thought provoking new book Anthony Smith analyses key debates between historians and social scientists on the role of nations and nationalism in history In a wide ranging analysis of the work of historians sociologists political scientists and others he argues that there are three key issues which have shaped debates in this field first the nature and origin of nations and nationalism second the antiquity or modernity of nations and nationalism and third the role of nations and nationalism in historical and especially recent social change Anthony Smith provides an incisive critique of the debate between modernists perennialists and primordialists over the origins development and contemporary significance of nations and nationalism Drawing on a wide range of examples from antiquity and the medieval epoch as well as the modern world he develops a distinctive ethnosymbolic account of nations and nationalism This important book by one of the world's leading authorities on nationalism and ethnicity will be of particular interest to students and scholars in history sociology and politics
