## **Elite Connection:**

**Starting the Twenty-first Century** Gitta Tulea, 2018-04-17 Jürgen Habermas speaking of postmodern society remarked that extension of the means of communication not only allows a wide range of information but it also encourages permanent connections between different peoples cultures and social discourses It thus facilitates better general understanding a clarifying of real or apparent contradictions But this process becomes truly positive only when it is performed between equal members Globalization of information does not minimize the possibility of conflict or terrorism if fundamental social problems are not resolved or at least approached in an active way This volume examines the major upheavals of the twentieth century and views within the framework of these events and challenges implications for the future Values and Cultural Changes in the Postmodern World by Zygmunt Bauman explores the changing meaning of space in the globalizing environment S N Eisenstadt analyzes the destructive components of modernity and Irving Louis Horowitz draws attention to the classical values of the common universal culture Social Development and Policies in Contemporary Society by Michael M Cernea examines the importance of the applied and policy orientated research especially in the developing countries and David Marsland stresses the positive role of sociology in pointing to the possibilities of improving healthcare in modern society Societies in Transition Eastern Europe emphasizes transitions that have occurred in Eastern Europe Rozalina Rjyvkina and Leonid Kosals provide an incisive study of the situation in Russia while Jerzy J Wiatr presents a comparative analysis of postcommunist societies with special reference to Poland The Jewish World Pre and Post Holocaust by Regina Azria discusses the identity problems in the Diaspora confronting modernity Eva Etzioni Halevi considers the newly developed Israeli society from the point of view of the exercise and distribution of power and a most interesting contribution by Annette Wieviorka concerns the material and spiritual effects of the Holocaust on the Jews of France Social historians and students of Judaica as well as a general public interested in cultural pluralism will find this well developed volume essential reading

**Identity, Culture and Globalization** Yitzhak Sternberg, 2021-10-01 This book is about contemporary sociological analysis its discussions contradictions and controversies Authors from various backgrounds discuss developments on all continents The 34 contributions are centered on six themes The first is multiple modernities showing us that there is no single road to the modernization of societies The second theme is globalization with new concepts like spatialization world languages and new social movements In part three multiculturalism and diaspora movements are viewed as the pivotal factors for change in many societies The fourth theme is the decline of the accountability of the state concentrating on the shortcomings of traditional states and the emergence of new resources In part five the concept of postmodernity is discussed from the angles of identity social reality detachment and legacy Finally the sixth part Toward a New Agenda looks into the future and lets sociology or rather social knowledge play a major part in today s society This volume is a rich collection of practical examples and solid arguments by some of the best sociologists in the world Also

available in paperback ISBN 9789004128736      **Jewish Survival** Ernest Krausz, 2023-04-14 These essays address Jewish identity Jewish survival and Jewish continuity The authors account for and analyze trends in Jewish identification and the reciprocal effects of the relationship between the Diaspora and Israel at the end of the twentieth century Jewish identification in contemporary society is a complex phenomenon Since the emancipation of Jews in Europe and the major historic events of the Holocaust and the establishment of the State of Israel there have been substantial changes in the collective Jewish identity As a result Jewish identity and the Jewish process of identification had to confront the new realities of an open society its economic globalization and the impacts of cultural pluralism The trends in Jewish identification are toward fewer and weaker points of attachment fewer Jews who hold religious beliefs with such beliefs held less strongly less religious ritual observance attachment to Zionism and Israel becoming diluted and ethnic communal bonds weakening Jews are also more involved in the wider society in the Diaspora due to fewer barriers and less overt anti-Semitism This opens up possibilities for cultural integration and assimilation In Israel too there are signs of greater interest in the modern world culture The major questions addressed by this volume is whether Jewish civilization will continue to provide the basic social framework and values that will lead Jews into the twenty first century and ensure their survival as a specific social entity The book contains special contributions by Professor Julius Gould and Professor Irving Louis Horowitz and chapters on Sociological Analysis of Jewish Identity Jewish Community Boundaries and Factual Accounts from the Diaspora and Israel

**Lightning Gods and Feathered Serpents** Rex Koontz, 2010-01-01 El Tajín an ancient Mesoamerican capital in Veracruz Mexico has long been admired for its stunning pyramids and ballcourts decorated with extensive sculptural programs Yet the city's singularity as the only center in the region with such a wealth of sculpture and fine architecture has hindered attempts to place it more firmly in the context of Mesoamerican history In *Lightning Gods and Feathered Serpents* Rex Koontz undertakes the first extensive treatment of El Tajín's iconography in over thirty years allowing us to view its imagery in the broader Mesoamerican context of rising capitals and new elites during a period of fundamental historical transformations Koontz focuses on three major architectural features the Pyramid of the Niches Central Plaza ensemble the South Ballcourt and the Mound of the Building Columns complex and investigates the meanings of their sculpture and how these meanings would have been experienced by specific audiences Koontz finds that the iconography of El Tajín reveals much about how motifs and elite rites growing out of the Classic period were transmitted to later Mesoamerican peoples as the cultures centered on Teotihuacan and the Maya became the myriad city states of the Early Postclassic period By reexamining the iconography of sculptures long in the record as well as introducing important new monuments and contexts *Lightning Gods and Feathered Serpents* clearly demonstrates El Tajín's numerous iconographic connections with other areas of Mesoamerica while also exploring its roots in an indigenous Gulf lowlands culture whose outlines are only now emerging At the same time it begins to uncover a largely ignored regional artistic culture of which Tajín is the crowning achievement      *Skull and*

North, John Joseph Wallis, Barry R. Weingast, 2009-02-26 All societies must deal with the possibility of violence and they do so in different ways This book integrates the problem of violence into a larger social science and historical framework showing how economic and political behavior are closely linked Most societies which we call natural states limit violence by political manipulation of the economy to create privileged interests These privileges limit the use of violence by powerful individuals but doing so hinders both economic and political development In contrast modern societies create open access to economic and political organizations fostering political and economic competition The book provides a framework for understanding the two types of social orders why open access societies are both politically and economically more developed and how some 25 countries have made the transition between the two types **Elites and Leadership in Russian Politics** Graeme Gill, 2016-07-27 The fall of the Communist regime in the USSR and Russia's search for a democratic and prosperous market based future is one of the most compelling episodes of the end of the twentieth century A central part in this drama is being played by political elites These essays written by some of the leading scholars in the field analyse various aspects of the role being played by elites and leaders in Russian politics Among the issues dealt with are the origins of the Russian elites including the issue of continuity with the Soviet past the relationship between political and economic elites the means taken by elites to structure politics and their relations the dynamic of elite politics and the nature of post communism These essays deal with many of the crucial questions facing Russia today **Perceptions of the European Union in New Member States** Gabriella Ilonszki, 2013-10-31 The book explores the views of elites alongside those of the wider population in the European Union The chapters place the new member states and the potential candidate Serbia on the map of Europe in this context for the first time The volume's comparative method goes beyond the standard old member states versus new member states divide It assesses regional differences within Central Europe and evaluates the problem of European and national

identity formation perception of external threats to the EU including Russia differences between economic and political elite views about the integration process and the connection between national performance and public opinion about Europe Even though in each country positive views are dominant about the integration process heterogeneous views prevail behind the image of a unifying Europe The book s major contribution is that it makes the new member states more visible and provides hard evidence while remaining theoretically driven Furthermore it covers the most important topics that emerge in studies concerning European integration The book is intended for those interested in European integration in general but Central and Eastern European comparativists will find it particularly useful This book was published as a special issue of Europe Asia Studies

*Literate Education in the Hellenistic and Roman Worlds* Teresa Morgan,1998 This book offers an assessment of the content structures and significance of education in Greek and Roman society Drawing on a wide range of evidence including the first systematic comparison of literary sources with the papyri from Graeco Roman Egypt Teresa Morgan shows how education developed from a loose repertoire of practices in classical Greece into a coherent system spanning the Hellenistic and Roman worlds She examines the teaching of literature grammar and rhetoric across a range of social groups and proposes a model of how the system was able both to maintain its coherence and to accommodate pupils widely different backgrounds needs and expectations In addition Dr Morgan explores Hellenistic and Roman theories of cognitive development showing how educationalists claimed to turn the raw material of humanity into good citizens and leaders of society

**Beyond the Alamo** Raúl A. Ramos,2009-11-30 Introducing a new model for the transnational history of the United States Raul Ramos places Mexican Americans at the center of the Texas creation story He focuses on Mexican Texan or Tejano society in a period of political transition beginning with the year of Mexican independence Ramos explores the factors that helped shape the ethnic identity of the Tejano population including cross cultural contacts between Bexarenos indigenous groups and Anglo Americans as they negotiated the contingencies and pressures on the frontier of competing empires

**Authority, Gender and Space in the Anglo-Norman World, 900-1200** Katherine Weikert,2020

*Targeting social assistance in fragile settings: An experiment on community-based targeting* Abay, Kibrom A.,Berhane, Guush,Gilligan, Daniel O.,Tafere, Kibrom,Taffesse, Alemayehu Seyoum,2024-11-13

Targeting is an important but challenging process in the design and delivery of social and humanitarian assistance programs Community based targeting CBT approaches are often preferred for their local information advantages especially when data driven methods are not feasible However how different variants of CBT approaches fare under various constraints and environments remains unclear For example it is not obvious whether agents involved in CBT maximize the number of beneficiaries or the intensity of transfers when given different levels of discretion or they face budget constraints We implemented a clustered randomized control trial among community leaders in 180 villages

in Ethiopia to evaluate how community leaders target and allocate resources when they face budget constraints and are in the presence absence of discretion We find that under resource constraints community leaders prefer to maximize the number of beneficiaries even at the expense of thinly spreading budgets reducing average transfers to beneficiaries Community leaders are keen to minimize exclusion errors even at the expense of increased inclusion errors suggesting that community leaders may be sensitive to potential communal repercussions and hence prefer to accommodate beneficiaries who would otherwise be excluded based on survey based measures and indicators of poverty Consistent with this we find that offering community leaders some level of discretion helps them reduce exclusion errors and include those most deprived or those affected by armed conflicts Finally we find that community leaders are more vulnerable to favoritism when real stakes rather than hypothetical are involved budgets are relatively larger and they lack discretion We offer nuanced evidence about the implications of implementing CBT designs in the absence of incentives for community leaders to reveal how they use local information

*National Political Elites, European Integration and the Eurozone Crisis* Nicolò Conti, Borbála Göncz, José Real-Dato, 2018-06-18 The global financial economic and sovereign debt crisis since 2008 has led to increases in political disaffection among citizens a loss of legitimacy of political institutions the discredit of mainstream parties and the rise of extremist or anti system political alternatives This comparative volume sheds greater light on this critical juncture in the recent history of the European Union EU by focusing on the evolution of attitudes of national political elites It examines whether the crisis has affected the legitimacy of the EU integration project as perceived by national political elites and consequently if the elite consensus that constituted one of the most solid fundamentals supporting that project has been eroded Analysing these changes across the different dimensions in which support for the EU is organized and its relationship with the evolution of support towards European integration among citizens in member states the book addresses a basic question How have these events affected the perceptions of the EU of national political elites Ultimately it sheds light on the evolution of the relationship between the perception of the EU and the national contexts as well as the likely evolution of the project of European integration in the near future This book will be of key interest to scholars and students of political elites EU politics European integration political parties and more broadly to comparative politics European studies and sociology

**Legal Culture in the Age of Globalization** Lawrence Friedman, Rogelio Perez-Perdomo, 2003-09-09 This volume of essays examines how the legal systems of the chief countries of Latin America and Mediterranean Europe Argentina Brazil Chile Colombia Mexico Puerto Rico Venezuela France Italy and Spain changed in the last quarter of the 20th century Through essays that provide a wealth of data on the courts and the legal profession in these countries the book attempts to relate changes in the operation of the legal systems to changes in the political and social history of the societies in which they are embedded The details vary in accordance with the particular history and structure of the countries but there are also key commonalities that run through all of the stories democratization globalization and changes in the legal order that

seem to be worldwide more power to courts a growing legal profession and the entry of women into what was once a masculine club

**Tomb Robberies at the End of the New Kingdom** Valentina Gasperini, 2018-06-21 At the end of the 19th century W M F Petrie excavated a series of assemblages at the New Kingdom Fayum site of Gurob These deposits known in the Egyptological literature as Burnt Groups were composed by several and varied materials mainly Egyptian and imported pottery faience stone and wood vessels jewellery all deliberately burnt and buried in the harem palace area of the settlement Since their discovery these deposits have been considered peculiar and unparalleled Many scholars were challenged by them and different theories were formulated to explain these enigmatic Burnt Groups The materials excavated from these assemblages are now curated at several Museum collections across England Ashmolean Museum British Museum Manchester Museum and Petrie Museum For the first time since their discovery this book presents these materials all together Gasperini has studied and visually analysed all the items This research sheds new light on the chronology of deposition of these assemblages additionally a new interpretation of their nature primary deposition and function is presented in the conclusive chapter The current study also gives new information on the abandonment of the Gurob settlement and adds new social perspective on a crucial phase of the ancient Egyptian history the transition between the late New Kingdom and the early Third Intermediate Period Beside the traditional archaeological sources literary evidence The Great Tomb Robberies Papyri is taken into account to formulate a new theory on the deposition of these assemblages

**Bridling Dictators** Graeme Gill, 2021-11-20 Galtieri Lukashenka and Putin are some of the dictators whose untrammelled personal power has been seen as typical of the dog eat dog nature of leadership in authoritarian political systems This book provides an innovative argument that rather than being characterised by permanent insecurity fear and arbitrariness the leadership of dictatorships is actually governed by a series of rules The rules are identified and their operation is shown in a range of different types of authoritarian regime The operation of the rules is explained in ten different countries across five different regime types the Soviet Union and China as communist single party regimes Argentina Brazil and Chile as military regimes electoral authoritarian Malaysia and Mexico personalist dictatorships in Belarus and Russia and the Gulf monarchies Through close analysis of the way leadership functions in these different countries the book shows how the rules have worked in different institutional settings It also shows how the power distribution in authoritarian oligarchies is related to the rules The book transforms our understanding of how authoritarian systems work

**Colonial South Africa:Origins Racial Order** Tim Keegan, 1997-01-01 It is a story that is strong in notable events slave emancipation the arrival of the 1820 British settlers a series of frontier wars the Great Trek of Boer emigrants as well as in striking personalities among them Dr John Philip Andries Stockenström John Fairbairn Moshoeshoe and Sir Harry Smith In Keegan's pages these familiar historical landmarks and characters emerge in entirely novel ways the subject of fresh interpretations and original insights

*Immigration and Politics in the New Europe* Gallya Lahav, 2004-04-22 With almost a quarter of the world's migrants

Europe has been attempting to regulate migration and harmonize immigration policy at the European level. The central dilemma exposed is how liberal democracies can reconcile the need to control the movement of people with the desire to promote open borders, free markets and liberal standards. Gallya Lahav's book traces ten years of public opinion and elite attitudes toward immigration cross nationally to show how and why increasing EU integration may not necessarily lead to more open immigration outcomes. Empirical evidence reveals that support from both elite and public opinion has led to the adoption of restrictive immigration policies despite the requirements of open borders. Unique in bringing together original data on European legislators and national elites, longitudinal data on public opinion and institutional and policy analyses, this 2004 study provides an important insight into the processes of European integration and globalization more broadly.

**The Emergence of Organizations and Markets** John F. Padgett, Walter W. Powell, 2012-10-14. A dynamic framework for studying social emergence. The social sciences have sophisticated models of choice and equilibrium but little understanding of the emergence of novelty. Where do new alternatives, new organizational forms and new types of people come from? Combining biochemical insights about the origin of life with innovative and historically oriented social network analyses, John Padgett and Walter Powell develop a theory about the emergence of organizational market and biographical novelty from the coevolution of multiple social networks. They demonstrate that novelty arises from spillovers across intertwined networks in different domains. In the short run, actors make relations; but in the long run, relations make actors. This theory of novelty, emerging from intersecting production and biographical flows, is developed through formal deductive modeling and through a wide range of original historical case studies. Padgett and Powell build on the biochemical concept of autocatalysis, the chemical definition of life, and then extend this autocatalytic reasoning to social processes of production and communication. Padgett and Powell, along with other colleagues, analyze a very wide range of cases of emergence. They look at the emergence of organizational novelty in early capitalism and state formation; they examine the transformation of communism; and they analyze, with detailed network data, contemporary science-based capitalism, the biotechnology industry, regional high-tech clusters, and the open source community.

[The Politics of Nuclear Power in Finland](#) Lotta I. Lounasmeri, 2023-05-03. Through a case study based on original interviews, this book offers an analysis of the invisible bonds of trust that hold a community together, extending the local and national perspective. The case of Finland and nuclear company Fennovoima, first working with the German energy company E.ON and later with the Russian state-owned company Rosatom, opens a window onto the Finnish culture of trust: what kind of collective belief system lies at the foundation of public life and decision making in the energy sector? This story can help us look at our own roots and the stories we have grown up with, allowing us to understand ourselves and others as connected to the land in the current era of a seemingly victorious new world order. Those interested in an in-depth analysis of a Northern political culture and its historical roots should read this book. In fact, anyone interested in current world politics should read this book; it is an eye opener to what happens in deeper levels of decision.
