The Structure of Modern Standard French Maj-Britt Mosegaard Hansen, 2016 This book is an advanced student's grammar of French that integrates traditional grammar with knowledge and insights from modern linguistics. It assumes some prior knowledge of French grammar but is designed to be accessible to those with no background in linguistics.

Photography, Reconstruction and the Cultural History of the Postwar European City Tom Allbeson, 2020-11-16 Examining imagery of urban space in Britain, France and West Germany up to the early 1960s, this book reveals how photography shaped individual architectural projects and national rebuilding efforts alike. Exploring the impact of urban photography at a pivotal moment in contemporary European architecture and culture, this book addresses case studies spanning the destruction of the war to the modernizing reconfiguration of city spaces, including ruin photobooks about bombed cities, architectural photography of housing projects, and imagery of urban life from popular photomagazines, as well as internationally renowned projects like UNESCO's Paris Headquarters, Coventry Cathedral, and Berlin's Gendarmenkirche. This book reveals that the ways of seeing shaped in the postwar years by urban photography were a vital aspect of not only discourses on the postwar city but also debates central to popular culture, from commemoration and modernization to democratization and Europeanization. This book will be a fascinating read for researchers in the fields of photography and visual studies, architectural and urban history, and cultural memory and contemporary European history. **Learn French - Easy Reader**

his six wives is a well known example of the caprice and violence that dominated that king's reign. Now Derek Wilson examines a set of relationships that more vividly illustrate just how dangerous life was in the court of the Tudor lion. He tells the interlocking stories of six men, all curiously enough called Thomas, whose ambitions and principles brought them face to face with violent death as recorded in a simple mnemonic: Died, beheaded, beheaded, Self slaughtered, burned, survived. Thomas Wolsey was an accused traitor on his way to the block when a kinder death intervened. Thomas More and Thomas Cromwell, whose convictions and policies could scarcely have been more different, both perished beneath the headman's axe. Thomas Howard, Duke of Norfolk, would have met the same end had the king's own death not brought him an eleventh hour reprieve. Thomas Wriothesley, Earl of Southampton, and Thomas Cranmer, Archbishop of Canterbury, though outliving the monarch, perished as a result of that war of ambitions and ideologies which rumbled on after 1547. Wriothesley succumbed to poison of either body or mind in the aftermath of a failed coup. Cranmer went to the stake as a heretic at the insistence of Mary Tudor, who was very much the daughter of the father she hated. By showing how events shaped and were shaped by relationships and personal destinies, Derek Wilson offers a fresh approach to the political narrative of a tumultuous reign.
