Eliza's Babes, Or, The Virgin's Offering (1652) L. E. Semler, 2001 Eliza's enthusiasm literally being in the spirit is its own assurance and leads to the production of literary offspring Women and Religious Writing in Early Modern England Erica Longfellow, 2004-09-23 This study challenges critical assumptions about the role of religion in shaping women s experiences of authorship Feminist critics have frequently been uncomfortable with the fact that conservative religious beliefs created opportunities for women to write with independent agency The seventeenth century Protestant women discussed in this book range across the religio political and social spectrums and yet all display an affinity with modern feminist theologians Rather than being victims of a patriarchal gender ideology Lady Anne Southwell Anna Trapnel and Lucy Hutchinson among others were both active negotiators of gender and active participants in wider theological debates By placing women s religious writing in a broad theological and socio political context Erica Longfellow challenges traditional critical assumptions about the role of gender in shaping religion and politics and the role of women in defining gender and thus influencing religion and 'Eliza' Liam Semler, 2017-03-02 This facsimile edition reproduces the work titled Eliza's Babes which was first politics published in 1652 The volume comprises devotional and political verse and prose meditations. The poems cover a wide range of forms from verse epistles to poetic petitions religious love lyrics to poems on earthly marriage exultant poetic prayers to stern spiritual admonitions. The meditations are fine examples of the Puritan believer's plain style response to various biblical texts theological issues and political events The text is historically and aesthetically unique It reveals its anonymous author to be perhaps the first woman to publish substantial creative imitations of poems printed in George Herbert's The Temple 1633 and to rely upon and respond to Robert Herrick's Hesperides 1648 Eliza's Babes is a literary work of great originality The narrator lives out her estate of salvation as an almost literally experienced marriage of election to Christ her Saviour In a series of poems Eliza overcomes her initial shock and disappointment that her heavenly spouse has chosen an earthly partner for her though this partner's prerogative is noticeably confined to the subservient role of facilitating his wife's heavenly marriage The copy reproduced in this edition is the British Library text **Privacy in the Age of Shakespeare** Ronald Huebert, 2016-01-01 In Privacy in the Age of Shakespeare Ronald Huebert challenges these assumptions by marshalling evidence that it was in Shakespeare's time that the idea of privacy went from a marginal notion to a desirable quality The Cambridge History of Early Modern English Literature David Loewenstein, Janel M. Rhetoric, Medicine, and the Woman Writer, 1600-1700 Lyn Bennett, 2018-02-08 How did physicians come to dominate the medical profession Lyn Bennett challenges the seemingly self evident belief that scientific competence accounts for physicians dominance Instead she argues that the whole enterprise of learned medicine was in large measure facilitated by an intensely classical education that included extensive training in rhetoric and that this rhetorical training is ultimately responsible for the achievement of professional dominance Bennett examines previously unexplored connections among writers and genres as well as competing livelihoods and classes Engaging the histories of rhetoric medicine literature and culture throughout she goes on to focus specifically on the work of women who professed as well as practiced medicine Pointing to some of the ways women s writing shapes realities of body mind and spirit as it negotiates social cultural and professional ideologies of gender this book offers an important corrective to some long held beliefs about women s role in early modern discourse An Collins and the Historical Imagination W. exemplifies new and diverse approaches to the study of women s writing The book is clearly divided into three sections covering how women learnt to write and how their work was circulated or published how and what women wrote in the places and spaces in which they lived worked and worshipped and the different kinds of writing women produced from poetry and fiction to letters diaries and political prose This structure makes the volume readily adaptable to course usage The Companion is enhanced by an introduction that lays out crucial framework and critical issues and by chronologies that situate women's writings alongside political and cultural events Early Modern Englishwomen Testing Ideas Paul Salzman, 2016-05-06 Early Modern Englishwomen Testing Ideas explores how women in England participated in the considerable intellectual and cultural diversity which characterised the late early modern period from the mid seventeenth century to the early eighteenth century This collection looks particularly at early modern women philosophers playwrights and novelists and considers how they engaged with ideas and debates over philosophical and scientific ideas as well as literary innovations. This volume extends our understanding of the philosophical ideas and literary innovations of the early modern period and presents an exciting collection of women writers vigorously engaged with the intellectual debates that were occurring in the rapidly changing post Restoration society Word and Self Estranged in English Texts, 15501660 L.E. Semler, 2016-12-05 The essays in Word and Self Estranged in English Texts 1550 1660 consider diverse historical contexts for writing about strangeness They draw on current practices of reading to present contrasts and analogies within and between various social understandings In so doing they reveal an interplay of thematic and stylistic modes that tells us a great deal about how and why certain aspects of life and thinking were estranged in sixteenth and seventeenth century thinking The collection's unique strength is that it makes specific bridges between contemporary perspectives and early modern connotations of strangeness and inhibition. The subjects of these essays are strange to our ways of thinking because of their obvious distance from us in time and culture And yet curiously far from being entirely alien to these texts some of the most modern thinking about paradigms texts concepts connects with the early modern in unexpected ways Milton meets the contemporary competent reader Wittgenstein meets Robert Cawdrey Shakespeare embraces the teenager and Marvell matches wits with French mathematician Ren Thom Additionally the early modern texts posit their own others or sites of estrangement Moorishness Persian art even the human body with which they perform their own astonishing maneuvers of estrangement and alignment In reading Renaissance works from our own time and inviting them to reflect upon our own time Word and Self Estranged in English Texts 1550 1660 offers a vital reinterpretation of early modern texts
