Ember of War Stephan Morse, 2017-09-01

Embers of War Maria Zafar, 2021-06-23 Embers of War The Fall of an Empire and the Making of America's Vietnam is a 2012 book by the

Cornell University historian Fredrik Logevall which won the 2013 Pulitzer Prize for History It also won the inaugural American Library in Paris Book Award and the 2013 Arthur Ross Book Award and was a runner up for the Cundill Prize The book covers the Vietnam conflict right from the 1919 Versailles Peace Conference till 1959 when the first Americans soldiers are killed in an ambush near Saigon in Vietnam focusing on the Indochina War between France and the Viet Minh **Dawn of Embers** Jordan Lagana,2010-08 *Embers of War* RJJ Hall,2020-07-02 Inspired by a passion for Italy Embers of War is set in the dying days of the Second World War This well researched novel evokes the spirit and mores of the forgotten Italian campaign Vietnam Geopolitical Affairs Tùng-Phong,2021-09-08 In 1965 in the midst of the Vietnam War T ng Phong reached out to the Vietnamese leaders in the North and South He wanted to inform his contemporaries about the short term needs of Vietnam as a whole and opine on long term goals The result was the book he published in October 1965 Ch nh Vit Nam or Vietnam Geopolitical Affairs His daughter Elizabeth T Le offers the first English translation of the landmark book in this text composed of three parts Part one offers a history of Vietnam from the year 938 when Ngo Quyen reclaimed An Nam s then Vietnam independence after one thousand years of Chinese domination Part two contains what led to the general uprising the revolt in the nineteenth century communism Dien Bien Phu and the Vietnam War called the American War in Vietnam Part three is the translation of her father s book What made her father s book powerful is he explored where Vietnam stood on the world stage and the historical baggage it carried Moreover he sought to find out how Vietnam could propel itself forward for the sake of future generations Embers of War [by] Gareth L. Powell [Review] Duncan Lunan,2018 **Diplomats at War** Charles Trueheart,2024-02-13 For two Americans in Saigon in 1963 the personal and the political combine to spark the drama of a lifetime Before it spread into a tragic war that defined a generation the conflict in Vietnam smoldered as a guerrilla insurgency and a diplomatic nightmare Into this volatile country stepped Frederick Fritz Nolting the US ambassador and his second in command William Bill Trueheart immortalized in David Halberstam s landmark work *The Best and the Brightest* and accidental players in a pivotal juncture in modern US history Diplomats at War is a personal memoir by former Washington Post reporter Charles Trueheart Bill s son and Nolting s godson who grew up amid the events that traumatized two families and an entire nation The book embeds the reader at the US embassy and dissects the fateful rift between Nolting and Trueheart over their divergent assessments of the South Vietnamese regime under Ngo Dinh Diem who would ultimately be assassinated in a coup backed by the United States Charles Trueheart retells the story of the United States headlong plunge into war from an entirely new vantage point that of a son piecing together how his father and godfather participated in and were deeply damaged by this historic flashpoint Their critical rupture which also destroyed their close friendship served as a dramatic preface to the United States disastrous involvement in the Vietnam conflict Winner of the American Academy of Diplomacy Douglas Dillon Award **The Information Animal** Alicia Wanless,2025-05-22 Depending on the news you read new tools like AI will either save or destroy us But our response to

emerging technology's unprecedented threats actually follows a pattern as old as civilisation. From ancient Athens to COVID 19, social media to spam, Alicia Wanless shows how humans have always consumed information, whether accurate or not. First, a new technology changes how information is shared, broadening its availability and accelerating how fast it travels. Then, as more people engage with this new content, fresh ideas arise, often challenging prevailing beliefs. Some use the new tools to promote their views, win power, or simply profit, adding to the mounting information pollution. Competition and conflict follow. We scramble in vain to control information flows and use of the new technology. With democracies worldwide lurching from crisis to crisis, knee-jerk reactions to information conflict won't suffice. What's needed is an understanding of our nature as information animals in a millennia-long relationship with technology and of how a content-saturated world impacts the political battle for hearts and minds.

Debunking Howard Zinn Mary Grabar, 2019-08-20

Howard Zinn's *A People's History of the United States* has sold more than 2.5 million copies. It is pushed by Hollywood celebrities, defended by university professors who know better, and assigned in high school and college classrooms to teach students that American history is nothing more than a litany of oppression, slavery, and exploitation. Zinn's history is popular, but it is also massively wrong. Scholar Mary Grabar exposes just how wrong in her stunning new book *Debunking Howard Zinn*, which demolishes Zinn's Marxist talking points that now dominate American education. In *Debunking Howard Zinn*, you'll learn contra Zinn: How Columbus was not a genocidal maniac and was in fact a defender of Indians. Why the American Indians were not feminist, communist, sexual revolutionaries ahead of their time. How the United States was founded to protect liberty, not white males' ill-gotten wealth. Why Americans of the Greatest Generation were not the equivalent of Nazi war criminals. How the Viet Cong were not well-meaning community leaders advocating for local self-rule. Why the Black Panthers were not civil rights leaders. Grabar also reveals Zinn's bag of dishonest rhetorical tricks, his slavish reliance on partisan history, explicit rejection of historical balance, and selective quotation of sources to make them say the exact opposite of what their authors intended. If you care about America's past and our future, you need this book.

Secrets and Lies in Vietnam Panagiotis

Dimitrakis, 2016-05-20

The Vietnam War lasted twenty years and was the USA's greatest military failure. An attempt to stem the spread of Soviet and Chinese influence, the conflict in practice created a chaotic state torn apart by espionage, terrorism, and guerilla warfare. American troops quickly became embroiled in jungle warfare, and knowledge of the other side's troop movements, communication lines, fighting techniques, and strategy became crucial. Panagiotis Dimitrakis uncovers this battle for intelligence and tells the story of the Vietnam War through the newly available British, American, and French sources, including declassified material. In doing so, he dissects the limitations of the CIA, the NSA, the MI6, and the French intelligence, the SDECE, in gathering actionable intelligence. Dimitrakis also shows how the Vietminh, under Ho Chi Minh, established their own secret services, how their high-grade moles infiltrated the US and French military echelons, and the government of South Vietnam, and how Hanoi's intelligence apparatus eventually suffered seriously from spies, amongst us, paranoia. In doing so, he

America's Dirty Wars Russell Crandall, 2014-04-28 This book examines the long complex experience of American involvement in irregular warfare It begins with the American Revolution in 1776 and chronicles big and small irregular wars for the next two and a half centuries What is readily apparent in dirty wars is that failure is painfully tangible while success is often amorphous Successfully fighting these wars often entails striking a critical balance between military victory and politics America s status as a democracy only serves to make fighting and to a greater degree winning these irregular wars even harder Rather than futilely insisting that Americans should not or cannot fight this kind of irregular war Russell Crandall argues that we would be better served by considering how we can do so as cleanly and effectively as possible
