## **Embodied Lives:**

Embodied Lives: Rosemary A. Joyce, Lynn M. Meskell, 2014-02-25 Examining a wide range of archaeological data and using it to explore issues such as the sexual body mind body dualism body modification and magical practices Lynn Meskell and Rosemary Joyce offer a new approach to the Ancient Egyptian and Mayan understanding of embodiment Drawing on insights from feminist theory art history phenomenology anthropology and psychoanalysis the book takes bodily materiality as a crucial starting point to the understanding and formation of self in any society and sheds new light on Ancient Egyptian and Maya cultures The book shows how a comparative project can open up new lines of inquiry by raising questions about accepted assumptions as the authors draw attention to the long term histories and specificities of embodiment and make the case for the importance of ancient materials for contemporary theorization of the body For students new to the subject and scholars already familiar with it this will offer fresh and exciting insights into these ancient cultures      **embodied Lives**

Sandra Reeve, 2014-06-30 Since the mid 80s Prapto's moving dancing has delighted and inspired thousands of people in the West as well as many more in his native Java who have witnessed worked with or been otherwise influenced by his Amerta Movement practice But what is this non stylised Amerta Movement practice And what is it about Prapto's work that so touches the lives of therapists artists musicians dancers teachers performers monastics and laypeople from all walks of life To answer these questions this new book collects the experiences of 30 movement practitioners from Indonesia Europe North and South America and Australasia All of them have trained and studied extensively with him and most are recognised by Prapto as movement teachers Some themes and areas covered Moving with babies Amerta Movement and Buddhism Using movement to work with autistic children Movement as a way to loosen the habit of critique and criticism Movement and film and the law and archaeology and music Movement mantra Somatic costumes and movement performance Different chapters look at contemplative vocational daily life therapeutic dance and performative applications of Amerta Movement Readership As well as all those familiar with Prapto's work the book will also be an inspiration and resource for dance movement and performance artists teachers and trainers therapists of all sorts especially those working with somatics embodiment dance and movement anyone wanting to learn more about the nature and application of Prapto's movement practice anyone interested in the value of an embodied approach to life and work current thinking about the brain and body point to the crucial importance of nonverbal embodied perception and communication and Amerta Movement offers an important path toward growth in this area      **Embodied Lives** Katya Bloom, Margit Galanter, Sandra Reeve, 2015-05-01 30 movement performers therapists artists teachers and colleagues from around the world describe the impact of Prapto's Amerta Movement on their lives and work      Devised! Doreen Dodgen-Magee, 2018-10-08 With current statistics suggesting that the average American over the age of 14 engages with screens upwards of 10 hours a day the topic of our growing dependence upon technology applies to nearly everyone While the effects differ at each point of development real changes to the brain

relationships and personal lives are well documented *Deviced* explores these alterations and offers a realistic look at how we can better use technology and break away from the bad habits we've formed Using personal stories cutting edge research and anecdotes from youth parents and professionals Dodgen Magee highlights the brain changes that result from excessive technology use and offers an approach to the digital world that enables more informed and lasting change and a healthier long term perspective Given that the reader is living within a culture of ever changing and advancing technologies *Deviced* is written in such a way that its contents can weather the constantly changing digital landscape by focusing on the concepts of honest assessment and healthy boundary setting rather than on specific technologies or platforms *Deviced* offers a mindful approach to assessing current technology use breaking bad habits setting new norms and re engaging with life with renewed richness and awareness

*Living the Body* Meenakshi Thapan, 2009-01-06 This is a book about embodiment and identity in the context of particular women's lives in an urban setting It is concerned with the development of a sociology of embodiment in the context of women's lives in contemporary urban India The focus on embodiment is mediated by gender and class two critical elements that constitute identity in relation to embodiment The study is based on material collected from interviews with working class women in an urban slum and with professional upper class women with young women in secondary schools and from material from a women's magazine

**The Ascetic Ideal** Stephen Mulhall, 2021-08-12 In *The Ascetic Ideal* Stephen Mulhall shows how areas of cultural life that seem to be either essentially unconnected to evaluative commitments science and philosophy or to involve non moral values aesthetics are in fact deeply informed by ethico religious commitments for better and for worse The book develops a reading of Nietzsche's concept of the ascetic ideal which he used to track the evolution mutation and expansion of the system of slave moral values associated primarily with Judaeo Christian religious belief through diverse fields of Western European culture not just religion and morality but aesthetics science and philosophy Mulhall also offers an interpretation of Nietzsche's genealogical method that aims to rebut standard criticisms of its nature and to emphasize its potential for enhancing philosophical understanding more generally The focus throughout is on developments in those fields which occurred after the end of Nietzsche's intellectual career and in particular on influential modes of thought and practice that have a contemporary significance The goal is not simply to argue that Nietzsche's diagnosis and critique retains considerable merit but also to show that Nietzsche is himself significantly indebted to the ideals he criticizes and that this opens up a possibility of synthesizing elements of his approach with those drawn from its target Hence the book also tracks various ways in which the object of Nietzsche's criticism has undergone further mutations just as his genealogical method would suggest and in doing so has generated ways of pursuing the values central to asceticism that avoid Nietzsche's criticisms and might even further his own goals

**Black Bodies, Black Rights** Elizabeth Farfán-Santos, 2016-05-24 Under a provision in the Brazilian constitution rural black communities identified as the modern descendants of quilombos runaway slave communities are promised land rights as a form of reparations for the historic

exclusion of blacks from land ownership The quilombo provision has been hailed as a success for black rights however rights for quilombolas are highly controversial and in many cases have led to violent land conflicts Although thousands of rural black communities have been legally recognized only a handful have received the rights they were promised Conflict over quilombola rights is widespread and carries important consequences for race relations and political representations of blackness in twenty first century Brazil Drawing on a year of field research in a quilombola community Elizabeth Farf n Santos explores how quilombo recognition has significantly affected the everyday lives of those who experience the often complicated political process Questions of identity race and entitlement play out against a community s struggle to prove its historical authenticity and to gain the land and rights they need to survive This work not only demonstrates the lived experience of a new particular form of blackness in Brazil but also shows how blackness is being mobilized and reimagined to gain social rights and political recognition **Black Bodies Black Rights** thus represents an important contribution to the rapidly growing interdisciplinary field of Afro Latino studies

**The Oxford Handbook of the History of Ethics** Roger Crisp,2013-01-31 This original and comprehensive volume explores the history of philosophical ethics in the western tradition from Homer until the present day Leading experts in the field use their expertise and specialist knowledge to illuminate key subjects and ideas in contemporary ethics and survey the history of the discipline

*Resisting Theologies and the Everyday* Wren Radford,2025-06-26 This powerful volume provides dynamic ways of constructing theologies of resistance and liberation by engaging with the everyday practices of marginalised communities In doing so this collection of theological experts reject abstracted concepts of bodes and taxonomies of race gender sexuality and disability Readers will find this a dynamic book with a variety of approaches that provide ways of constructing theologies of resistance and liberation Experiences of marginalisation have provided a powerful reference point for developing theologies of justice and liberation however theological and political frameworks often reduce the complexity of lived experiences into categories and themes Daily practices of resisting and surviving are frequently considered too fleshy domestic or banal to be of theological meaning Therefore Radford and their coterie of academics draw on understandings of the everyday in feminist womanist Latinx and decolonial theologies as well as in cultural theory This allows critical reflection on how theological approaches can shape alternative relations to self society and the sacred In recognising the lived and felt realities of struggling against oppressive colonial and racialised systems contributors engage with academic and activist debates about the possibilities of remaking social relations and creating other ways of knowing and being From Black theology to disabled activists on social media to queer clergy in South Africa this volume holds together differences in contributors approaches modelling the view that there is not just one form of resistance nor a single approach to constructing theology

**Asian Religious Responses to Darwinism** C. Mackenzie Brown, 2020-12-17 This volume brings together diverse Asian religious perspectives to address critical issues in the encounter between tradition and modern western evolutionary thought Such thought encompasses the biological theories of Charles Darwin Jean Baptiste Lamarck Earnest Haeckel Thomas Huxley and later neo Darwinians as well as the more sociological evolutionary theories of thinkers such as Herbert Spencer Pyotr Kropotkin and Henri Bergson The essays in this volume cover responses from Hindu Jain Buddhist Chinese Japanese and Indo Tibetan Confucian Daoist and Muslim traditions These responses come from the decades immediately after publication of The Origin of Species up to the present with attention being paid to earlier perspectives and teachings within a tradition that have affected responses to Darwinism and western evolutionary thought in general The book focuses on three critical issues the struggle for survival and the moral implications read into it genetic variation and its seeming randomness as related to the problems of meaning and purpose and the nature of humankind and human exceptionalism Each essay deals with one or more of the three issues within the context of a specific tradition

**Journeys of Embodiment at the Intersection of Body and Culture** Niva

Piran,2017-09-15 *Journeys of Embodiment at the Intersection of Body and Culture* The Developmental Theory of Embodiment describes an innovative developmental and feminist theory understanding embodiment to provide a new perspective on the interactions between the social environment of girls and young women of different social locations and their embodied experience of engagement with the world around them The book proposes that the multitude of social experiences described by girls and women shape their body experiences via three core pathways experiences in the physical domain experiences in the mental domain and experiences related directly to social power The book is structured around each developmental stage in the body journey of girls and young women as influenced by their experience of embodiment The theory builds on the emergent constructs of embodiment and body journey and the key social experiences which shape embodiment throughout development and adolescence from agency functionality and passion during early childhood to restriction shame and varied expressions of self harm during and following puberty By addressing not only adverse experiences at the intersection of gender social class ethnocultural grouping resilience and facilitative social factors the theory outlines constructive pathways toward transformation It contends that both protective and risk factors are organized along these three pathways with the positive and negative aspects conceptualized as Physical Freedom vs Corseting Mental Freedom vs Corseting and Social Power vs Disempowerment and Disconnection Examines the construct of embodiment and its theoretical development Explores the social experiences that shape girls throughout development Recognizes the importance of the body and sexuality Includes narratives by girls and young women on how they inhabit their bodies Invites scholars and health professionals to critically reflect on the body journeys of diverse girls and women Addresses the advancement of feminist social critical and psychological theory as well as implications to practice both therapy and health promotion

Epistemology: The Key Thinkers Stephen Hetherington,Stephen Cade Hetherington,2012-04-26 From Plato through Descartes to W V Quine and Edmund Gettier this concise introduction and reference guide explores the history of thinking about knowledge *Longing and Letting Go* Holly Hillgardner,2017 Can we love God and others without our desires eclipsing the very beauty integrity and diversity toward which we are drawn that is can we love without trying to possess Spanning centuries continents and religious traditions *Longing and Letting Go* looks to Christian writer Hadewijch and Hindu songstress Mirabai to explore their inextricable practices of longing and letting go and more particularly the interreligious possibilities of passionate non attachment for an interconnected pluralistic world Living Faithfully in a Fragmented World, Second Edition Jonathan R. Wilson,2010-01-01 The first edition of *Living Faithfully in a Fragmented World* became one of the founding and guiding texts for new monastic communities In this revised edition Jonathan Wilson focuses more directly on lessons for these communities from Alasdair MacIntyre's *After Virtue* In the midst of the unsettling cultural shifts from modernity to postmodernity a new monastic movement is arising that strives to be a faithful witness to the gospel These new monastic communities seek to participate in Christ's life in the world and bear witness by learning to live intentionally as

the church in Western culture This movement is about finding the church's center in Christ in the midst of a fragmented world overcoming the failure of the Enlightenment project and our complicity with it resisting the temptation to Nietzschean power and building communities of disciples This new edition is greatly enlarged from the original volume It includes responses to critics of the new monasticism such as D A Carson an entirely new chapter on the Nietzschean temptation an afterword on properly understanding the new monastic movement the dangers it faces and the work yet to be done as well as an appendix on the supposed post modern agenda of Jonathan Wilson and Brian McLaren For those striving to understand the path the church should take in this fragmented world this book is essential reading

Current Controversies in Philosophy of Religion Paul Draper, 2019-04-17 While orthodox religion by its very nature is conservative philosophy at its best is inherently radical It challenges authority tradition and the whole idea of dogma For this reason philosophy of religion can be explosively controversial It is bound to disturb those who peddle incontrovertible truth and fascinate those who seek spiritual truth and are willing to follow the argument wherever it leads This volume is designed for such seekers It brings together an international team of leading philosophers of religion to explore and debate radical new ideas about religion God and ultimate reality Four related questions are addressed How might religion make progress Is life after death a real possibility Must a perfect God be motivated by our well being What alternatives are there to traditional theism and materialist atheism The book begins with a vision for the field of philosophy of religion and ends with a capstone chapter that touches on all of the topics debated in the other chapters The addition of chapter overviews annotated suggestions for further reading and annotated guides to three additional controversies make it an ideal textbook in addition to being an important source for scholars and seekers of all kinds

Race, Ethnicity and Social Theory John Solomos, 2022-07-01 Race Ethnicity and Social Theory provides a critical analysis of the main areas of scholarly research and debate about racial and ethnic relations over the past few decades The book covers substantive areas of scholarly debate in this fast changing field including race and social relations identities and the construction of the racial other feminism and race the relationship between race and nationalism antisemitism the evolution of new forms of racism race and political representation and more generally the changing debates about race and ethnicity in our global environment The book argues that there is a need for more dialogue across national and conceptual boundaries about how to develop the theoretical tools needed to understand both the historical roots of contemporary forms of racialised social and political relations and the contemporary forms through which race is made and re made A key argument that runs through the book is the need to develop conceptual frameworks that can help us to make sense of the changing forms of racial and ethnic relations in contemporary societies This means developing more dialogue across national research cultures as well as empirical research that seeks to engage with the key issues raised by contemporary theoretical debates The book will be of interest to both students wanting to develop a deeper understanding of this area of scholarship and to researchers of race ethnicity and migration working in

various national and disciplinary environments      *J.M.E. McTaggart* Ramesh K. Sharma,2015-12-03 J M E McTaggart seeks to critically expound and appraise the British philosopher's thought with respect to three principal themes of his philosophy: substance, self, and immortality. Ramesh Kumar Sharma guides the reader through the labyrinths of McTaggart's intricate arguments and defends many of McTaggart's highly unorthodox doctrines and conclusions. While doing this, Sharma draws on the works of, among others, Berkeley, Hegel, and Leibniz, and at the same time attacks numerous modern-day physicalist theories that propound mind-brain identity as against the presumed reality of the self and consciousness. This work is thus recommended both for philosophers and researchers interested in 1 such perennial metaphysical subjects as reality, existence, possibility, the basic ontological categories of substance, qualities, and relations, universals, 2 the question of the reality of the self, 3 McTaggart's overall vision of the universe or Absolute and his rejection of the more or less predominant view that the Absolute is God, 4 McTaggart's unique doctrine after Plato of the immortality of the self combined with the self's pre-existence, post-existence, and plurality of lives, and 5 his extraordinary but important views on perception.      *The Humanist Imperative in South Africa* John W. De Gruchy,2011-08-01 This book is an outcome of the conversation that occurred during the five days of intense discussion at two symposia initiated by the New Humanism Project. The struggle for a more humane society is both local and universal and increasingly these are connected in our time. So while the conversation focused specifically on South Africa, the discussion was neither parochial nor insular in its scope and character. Hopefully then, people beyond South Africa will find the contents of this book of value for them in terms of their own contexts.
