Schwall,Jan Opsomer,2018-06-25 While the field of classics has informed and influenced the early developments of the field of psychology these two disciplines presently enjoy fewer fruitful cross fertilizations than one would expect This book shows how the study of classics can help psychologists anchor their scientific findings in a historical literary and philosophical framework while insights of contemporary psychology offer new hermeneutic methods and explanations to classicists This book is the first to date to offer a wide ranging overview of the possibilities of marrying contemporary trends in psychology and classical studies Advocating a critical dialogue between both disciplines it offers novel reflections on psychotherapy ancient philosophy social psychology literature and its theory historiography psychoanalysis tragedy the philosophy of mind linguistics and reception With twenty contributions by specialists in different fields it promotes the combination of classical and psychological perspectives and demonstrates the methods and rewards of such an endeavour through concrete case studies This pioneering book is thus intended for all readers who seek inspiration for their readings research or therapeutic practice Joseph Smith, Jesus, and Satanic Opposition Professor Douglas J. Davies,2013-06-28 This book explores Mormon

theology in new ways from a scholarly non Mormon perspective Bringing Jesus and Satan into relationship with Joseph Smith the founding prophet Douglas Davies shows how the Mormon Plan of Salvation can be equated with mainstream Christianity s doctrine of the Trinity as a driving force of the faith Exploring how Jesus has been understood by Mormons his many Mormon identities are described in this book he is the Jehovah of the Bible our Elder Brother and Father probably also a husband he visited the dead and is also the antagonist of Satan Lucifer This book offers a way into the Mormon problem of evil understood as apostasy from pre mortal times to today Three images reveal the wider problem of evil in Mormonism

Jesus pre mortal encounter with Lucifer in a heavenly council deciding on the Plan of Salvation Jesus Christ s great suffering engagement with evil in Gethsemane and Joseph Smith s First Vision of the divine when he was almost destroyed by an evil force Douglas Davies well known for his previous accounts of Mormon life and thought shows how renewed Mormon interest in theological questions of belief can be understood against the background of Mormon church organization and its growing presence on the world stage of Christianity

Psychoprosthetics Pamela Gallagher,Deirdre Desmond,Malcolm Maclachlan,2007-11-29 Psychoprosthetics is defined as the study of psychological aspects of prosthetic use and of rehabilitative processes in those conditions that require the use of prosthetic devices Psychoprosthetics State of the Knowledge brings together into one easily accessible volume the most recent and exciting research and knowledge in this new field

The Theology of Death Douglas Davies,2008-07-31 The first part of the book is grounded in biblical issues and in historical and philosophical theology It seeks to establish several schemes of death theology related for example to early Christianity s Jewish cultural milieu to belief in Christ s resurrection and to Christology to issues of millennial belief and to an emergent liturgical practice The rise of notions of the soul in relation to medieval thought and practice and the place of death in reformation theology are both covered as is the role of the nineteenth and twentieth century Finally the rise of biblical theology is considered especially in the twentieth century The second part of the book takes up several contemporary models of the theology of death The first pursues a traditional acceptance of an other worldly afterlife the second explores worldly analysis of eternal life as a quality of contemporary existence devoid of any future state The third develops the worldly model and considers a wider sense of self as a part of an ecological view of the world as a divine creation and explores the meaning of birth life and death amidst a divine environment The Theology of Death aims to offer some sharply defined schemes to focus thought in a Christian environment in which death hell and heaven have almost lost their place The topic of hope is a key element and the book explores the birth and fostering of hope within Christian traditions

Mors Britannica Douglas J. Davies,2015-11-12 A people s lifestyle is one thing their death style another The proximity or distance between such styles says much about a society not least in Britain today *Mors Britannica* takes up this style issue in a society where cultural changes involve distinctions between traditional religion secularisation and emergent forms of spirituality all of which involve emotions where fear longing and a sense of loss rise in waves when death marks the root embodiment of our humanity These world orientations evident in older and newer ritual practices engage death in the hope and desire that love relationships community and human identity be not rendered meaningless Yet both emotions and ritual have an uneasiness to them because death is a slippery topic as the twenty first century gets under way in Britain In this work Douglas J Davies draws from a largely anthropological sociological perspective with consideration of history literature philosophy psychology and theology to provide a window into British life and insights into the foundation links between individuals and society across the spectrum of traditionally religious views through to humanist and secular alternatives He considers memorial sites from

churchyards to roadside memorials forms of corporeal disposal from cremation to composting and death rites in a range of religious and secular traditions
