**Exploring Intimacy** Suzann Panel Robins, 2023-06-14 Building off the idea that when we are happier we tend to be healthier Robins explains the phenomenon of how our intuitive knowing fosters healthy relationships that contribute to our physical mental and emotional health Readers learn to utilize a variety of pathways that will change their responses to others and will produce lasting more rewarding and closer relationships in all areas of their lives This book is designed to aid readers in looking inward and experiencing how their intuitive sixth sense informs their ability to be intimate without the negative triggers of past experiences Through a considered and thoughtful approach Robins offers insight into cultivating a truly integrated self so that one may lead a more fulfilling and healthful life *The Energetic Performer* Amanda Brennan, 2016-08-18 New anatomical and physiological knowledge is combined with eastern energy techniques and traditional actor training methods as the basis for this pioneering approach to actor training Practical exercises extend understanding of the somatic systems and how to create flexible bodies for truthful performances *Traumatic Experiences of Normal Development* Carl H. Shubs, 2020-02-24 Traditionally trauma has been defined as negatively impacting external events with resulting damage This book puts forth an entirely different thesis trauma is universal occurring under even the best of circumstances and unavoidably sculpting the very building blocks of character structure In *Traumatic Experiences of Normal Development* Dr Carl Shubs depathologizes the experience of trauma by presenting a listening perspective which helps recognize the presence and effects of traumatic experiences of normal development TEND by using a reconstruction of object relations theory This outlook redefines trauma as the breach in intrapsychic organization of Self Affect and Other SAO the three components of object relations units which combine to form intricate and changeable constellations that are no less than the total experience of living in any given moment Bridging the gap between the trauma and analytic communities as well as integrating intrapsychic and relational frameworks the SAO TEND perspective provides a trauma based band of attunement for attending to all relational encounters including those occurring in therapy Though targeted to mental health professionals this book will help enable therapists and sophisticated lay readers alike to recognize the impact of relational encounters providing new tools to understand the traumas we have experienced and to minimize the hold they have on us

**The Bloomsbury Handbook of the Anthropology of Sound** Holger Schulze, 2020-12-10 The Bloomsbury Handbook of the Anthropology of Sound presents the key subjects and approaches of anthropological research into sound cultures What are the common characteristics as well as the inconsistencies of living with and around sound in everyday life This question drives research in this interdisciplinary area of sound studies it propels each main chapter of this handbook into a thoroughly different world of listening experiencing receiving sensing dreaming naming desiring and crafting sound This handbook is composed of six sections sonic artifacts sounds and the body habitat and sound sonic desires sounds and machines and overarching sensologies The individual chapters explore exemplary research objects and put them in the context of

methodological approaches historical predecessors research practices and contemporary research gaps This volume offers therefore one of the broadest most detailed and instructive overviews on current research in this area of sensory anthropology

**The Dialogical Challenge of Leadership Development** Rob Koonce, Rens van Loon, 2019-03-01 In the Foreword to The Dialogical Challenge of Leadership Development eminent scholar Ken Gergen shrewdly points to dialogue as an optimal tool for organizational communication in the 21st Century Gergen's comment serves as a quintessential backdrop of the book you are about to read Dialogical practice is no longer a distant option for organizational leaders to passively consider Instead it has become an indispensable tool for leaders who understand the critical significance of relational influence and sustainability for navigating today's increasingly complex and wicked organizational and societal challenges Thanks to the wide ranging talent and varied perspectives of leading scholars and seasoned practitioners from around the globe who graciously contributed to this volume The Dialogical Challenge of Leadership Development offers compelling evidence that whether they arise from Brazilian favelas or the world's largest corporate boardrooms the challenges which leaders face on a daily basis can be effectively addressed through dialogical practice

**Performing Consciousness** Per Brask, Daniel Meyer-Dinkgrafe, 2010-02-19 Since its inaugural issue in April 2000 the journal Consciousness Literature and the Arts has regularly published essays on the intersection of theatre and consciousness Often these essays have seen theatre as a spiritual practice that for both the performer and her audience can bring about experiences that help heal the world a shift in consciousness This practice though spiritual is not ethereal but is rooted in doing in actions in breathing That is theatre is seen as an art form understood as part of a whole as taking place in total Consciousness as well as expressing consciousness es making both breathing a source of meaning and shamanic journeying part of the creative process that brings into being imaginative resources for the actor that undermines traditional understandings of character self ego All the pieces collected here then reveal a concern with consciousness and the theatre the ways that performance can be a spiritual practice a means a reaching higher levels of consciousness as well as the ways the theatre may have healing effects on audiences by engaging them in wider and deeper levels of imagination the levels where dualities disappear

**Care Through Touch** Mary Ann Finch, 1999-01-10 Most statements about embodied spirituality have been cerebral and abstract presented from a theological or philosophical point of view This massage manual seeks to give the reader an experience of embodied spirituality The introduction situates massage the art of anointing within the framework of Christian spirituality and then proceeds to enliven that through the meditative quality of the massage sequences through the graphic and sensitive portrayal of vulnerability among the various men and women who volunteered to be the models in the sequences and last but not least through the visible devotion of the massage therapists

***Charge and the Energy Body*** Anodea Judith, Ph.D., 2018-04-10 Use the power of life force to live your highest potential with this landmark book that addresses the role of the chakras in personality and our intimate relationships and opens the door to the inner experience of the authentic self Peter Levine author of *Waking the Tiger* We all know what it's like to have a charge about something It's a feeling of excitement fear sexual arousal or irritation But what we don't currently know is how to use charge for the behaviors we want to create Charge is a word for the basic life force running through us This force is crucial if we are to meet the challenges of difficult situations heal past wounds and traumas and manage the stress of modern life Even more it is essential for understanding how to master your own life force and become all you can be This book makes an important contribution to the growing field of Energy Medicine by looking at charge as the interface between mind and body and the missing ingredient in Mind Body healing It brings the reader into a deep intimacy with their own life force as well as an understanding of how charge runs their relationships their children their clients and patients It examines how we can become overcharged or undercharged and how to bring about balance through practices of charging and discharging Each chapter gives simple exercises to put these principles into practice World renowned teacher somatic therapist best selling author and advanced yoga teacher Anodea Judith Ph D addresses all this and

more in her groundbreaking book on mastering the life force Taken from her decades of teaching on the subject and her doctoral work in Mind Body medicine this book contributes something entirely new to the literature on healing self and others Private Fleming at Chancellorsville Perry Lentz,2006 What intelligent person has never pondered the meaning of life For Yuval Lurie this is more than a puzzling philosophical question it is a journey and in this book he takes readers on a search that ranges from ancient quests for the purpose of life to the ruminations of postmodern thinkers on meaning He shows that the question about the meaning of life expresses philosophical puzzlement regarding life in general as well as personal concern about one s own life in particular Lurie traces the emergence of this question as a modern philosophical quandary riddled with shifts and turns that have arisen over the years in response to it Tracking the Meaning of Life is written as a critical philosophical investigation stretching over several traditions such as analytic philosophy phenomenology and existentialism It maps out a journey that explores pivotal responses to this question drawing especially on the thought of Tolstoy Wittgenstein Sartre and Camus and exploring in depth the insights these thinkers offer regarding their own difficulties concerning the meaning of life In the book s four sections Lurie discusses Tolstoy s challenge to experience the religious and transcendental meaning of life by choosing a simple hardworking existence Wittgenstein s focus on ethics and discovering the sense of the world his conclusion that the question of the meaning of life makes no sense and his turning to experience the mystical aspect of the world Sartre s positing of freedom as the basis of human life stipulating a personal answer to the question of the meaning of life and Camus view of the absurdity of life unalleviated by any personal meaning Guided by these views Lurie imparts new insight to ideas that underlie our concern with life s meaning such as the difference between attitudes toward life and beliefs and opinions about life the meaning of words versus the meaning of events shared meanings versus personal meanings and the link between ethics and personal identity Tracking the Meaning of Life is no mere dry philosophical study but a journey that dramatically illustrates the poignancy of the quest for meaning showing that along the way it gradually becomes more obvious how personal meaning may be found in the pulsations of everyday life The book offers stimulating reading not only for scholars in philosophy but also for general readers who wish to see how their personal concerns are echoed in modern philosophical thought More than a description of a journey it is a map to anxieties and puzzlements we all face pointing to ideas that can guide readers on their own search for meaning **Getting in Touch** Christine Caldwell,1997-11-01 Covering such techniques as Hakomi Dreambodywork and The Moving Cycle the founders of body centered psychotherapy explain how they developed their methods what happens during a therapy session and who can best benefit from them Original Tour IP **What is Consciousness** Vipin Gupta,2021-05-28 What Is Consciousness The Factor Creating the Law of Limitation is an eye opening investigation of how what we know limits our power to know the unknown Have you ever wondered why some people know what you do not Why you have to read books research an issue practice a project or scientifically study a subject to know something that some can explain spontaneously using intuitive

reasoning For instance you may have waited to watch others experiences before deciding to take precautions to protect your kin and kith from COVID 19 Until those became martyrs you were willing to put your wellness to the hands of a tiny virus you thought had virtually no existence Why did we not know that a virus has the potential to cause an infectious morbid and deadly global pandemic in a globally connected world bringing even the wealthiest of nations to a standstill Was it because such an eventuality was not knowable through the systems of knowing we had such as the scientific knowledge Or did we create the uncertainty due to the certainty we felt in our supernatural intellectual and physical endowments India has become a classic case study India was an early mover in creating mass awareness about the need for diligence and had one of the lowest infectivity and mortality in 2020 It led to a theory that people of India have an innate immunity because of the impoverished conditions In 2021 this theoretical consciousness became the cause for falsifying the theory that made people lax to the self evident risk in their backyard Review Quotes A unique introspective analysis of the nature of the human mind and our ability to perceive the world around us make decisions and engage in critical thinking and overall an investigation into what truly makes us aware In essence how do humans use their conscious minds and thoughts to fill the void Megan Weiss ReaderViews One thing I especially enjoyed about Gupta s What is Consciousness was how he envisioned multiple different types of consciousness Throughout the book he brushes upon para consciousness absolute consciousness cultural consciousness scientific consciousness metaphysical consciousness immanent consciousness and many more realms of the human psyche Megan Weiss ReaderViews What is Consciousness is definitely not a light quick read I would find myself reading along getting sucked into Gupta s almost fantastical story teller like tone while at the same time having to constantly think about the words I was taking in because I wanted to make sure that I was getting the main message of the book and understanding the words correctly Megan Weiss ReaderViews I have not read many books on the subject that are up to this caliber of research and detail It is clear that What is Consciousness includes material that was heavily researched and analyzed prior to the author putting pen to paper Therefore the slightly tedious air of the book actually seems fitting Megan Weiss ReaderViews What Is Consciousness is a great read for anyone who wants to learn about the capabilities of the human mind and how there is so much we do not know about what it can do partly due to unconscious limitations placed upon ourselves by our own thoughts and ideas and partly due to the fact that science simply hasn t advanced quite that far yet Megan Weiss ReaderViews This series presents an astounding amount of information on complex topics that help condition us as sentient beings Readers especially those with an interest in science cultural wisdom and metaphysics will quickly find themselves immersed in this engrossing series Paige Lovitt ReaderViews This work explores the different aspects that go into creating our consciousness The discourse points to the benefit of the readers focusing their energy on channeling their consciousness into being their individual self rather than exchanging their consciousness with either animate or inanimate entities Paige Lovitt ReaderViews There are some fascinating discussions that involve comparing how animate and inanimate

entities can influence our consciousness When we are alive we are animate entities and after death we become inanimate ones yet either way we still have roles and still seek to fulfill them Paige Lovitt ReaderViews I enjoyed being able to receive information about consciousness that comes from multiple sources including ancient wisdom I find it fascinating and refreshing to be able to read about different topics that might touch scientific theories such as those derived from quantum mechanics such as the Boson particle or those derived from ancient eastern religions Paige Lovitt ReaderViews I realized that I do need to focus my energy on what I allow to come into my consciousness because this has a direct impact on my reality I will be working on setting stronger boundaries around what I will accept I also found it interesting to read about the idea that our consciousness doesn't end when we die It changes but it doesn't end Paige Lovitt ReaderViews What is Consciousness would make a fascinating selection for some type of reader's group such as a college STEM club or for an organization like IONS Institute of Noetic Sciences I would love to sit in on one of these discussions because it would be fascinating to hear the impact that this book has had on others Paige Lovitt ReaderViews **The Outlook**, 1896

Narrative Concepts and Techniques in International Literary Fiction Ken Ireland, 2025-04-15 The omnipresence of narrative in our real life experience and in the media world makes it a vital and relevant factor for study This book presents an easily accessible guide to a series of key narrative topics with concise entries in a transparent format of compact paragraphs allowing quick reference and omitting footnotes and endnotes to aid fluency It uses throughout a wide range of illustrative examples from Western and non Western literature stressing the universal relevance and application of narrative concepts and techniques These examples are intended to stimulate interest in less familiar non mainstream but important texts and to highlight unsuspected features in more familiar texts Engaging with texts from Africa and Asia the Americas and Australasia as well as from Britain and Europe it will appeal to students of comparative literature to creative writers whose awareness of available techniques and devices can prompt fresh ideas and approaches and will introduce general readers can be introduced to new areas of literary experience
