Some Monster Toby Cox, 2025-02-12 A small eternity I did spend in near solitude with naught but a madman as company In consequence I find it did leave me ill prepared to approach some circumstances Sam 773 AF Lieutenant Thomas Walker's mission was successful but he will not be thanked for it His rediscovery of the colony's now repentant ancient enemy is not the salvation they hoped for and may have arrived too late The increasing threat of the monstrous alien Others coupled with fear fueled unrest over a supposed alliance with the beings who forced the colony to rebuild from nothing could all too easily spell their doom Worse yet it seems that Earth has not forgotten about the colony after all and their intentions are at best unclear

Feeding the Monster Rick Tobin, 2005 The book is divided into three parts Using Mary Shelley's classic tale of horror Frankenstein or the Modern Prometheus as a metaphor I explain why too many Americans are turning into monsters Too many Americans are becoming self alienated and their children are not succeeding in our schools I also explain what educators have mistakenly emphasized and tried in order to solve the problem Part I Making the Monster builds a definition of personal addiction I argue that addicts teach addiction to others and that a vast population of Americans is deeply involved in an education in addiction Part I deals with human needs desires and current cultural trends that give birth to addictive personality traits the monster habits that I talk about when I show the Pet Monster to my pupils These traits breed self doubt and low self esteem They undermine our relationships and hinder our ability to love and care for ourselves and others When we can't love ourselves our children learn not to love themselves They have difficulty adjusting to the demands and responsibilities they face in school Addiction has become an entrenched cultural phenomenon I argue that certain cultural trends are creating personal isolation family dysfunction and personal self doubt We are witnessing a withering of character and moral value We are seeing a failure of commitment to personal growth Part II Feeding the Monster shows why more and more American families are becoming codependent to addictive cultural values and how this trend leads to the birth of the monster habits that keep our children from succeeding in school I also discuss the ways our schools themselves support and nourish addictive tendencies in

families and students I look at the debate surrounding school reform and show how although it is well intentioned it is also misplaced In Part II we learn why we don't see our mistakes and why both parents and educators have developed blind spots in their vision of education We're so accustomed to the supermonster of addiction that we just don't see it anymore This is the true failure of education We're not admitting that cultural codependency to addiction to the monster even exists Part III Taming the Monster explains what we can do to save ourselves from slipping farther into monsterhood I suggest what schools families and communities must do to foster academic success and breathe value and character back into the lives of children and society I also provide an outline for educational recovery Only when we take steps to kill the supermonster and free ourselves from monstrous habits will we be able to stop the destruction that the monsters bring the destruction that can end our world

The Morals of Monster Stories Leslie Ormandy, 2017-08-14 The simplicity of children's picture books stories told with illustrations and a few well chosen words or none at all makes them powerful tools for teaching morals and personal integrity Children follow the story and see the characters behaviors on the page and interpret them in the context of their own lives But unlike many picture books most children's lives don't feature monsters This collection of new essays explores the societally sanctioned behaviors imparted to children through the use of monsters and supernatural characters Topics include monsters as instructors the normalization of strangers or the other fostering gender norms and therapeutic monsters among others
