Failure Vicki E. Alger, 2016-07-01 A comprehensive account and frank assessment of federal involvement in education is long overdue Education policy expert Vicki E Alger remedies this deficiency with her book *Failure The Federal Miseducation of America's Children* As its title indicates *Failure* makes no effort to sugar coat its findings Created in 1979 after a lobbying campaign that spanned generations the Department of Education has failed to live up to its promises Federal involvement whether related to testing funding or academic curricula has failed to abide by the Constitution's implication that education must remain the domain only of state and local governments and private institutions Most of all the central government's pervasive meddling in education has failed America's school children and their parents Education policy has long been mired in controversies often with opposing sides missing the mark *Failure* helps us step back from the skirmish du jour and redirects our focus to the big picture showing us what's gone wrong over the decades and the institutional causes of these failures It also offers a bold blueprint for returning the federal government to its constitutional role and for cultivating an educational system that meets the needs of students and parents rather than bureaucrats Concerned citizens of every stripe will benefit from *Failure's* history of federal education policy its brutally honest report card for the Department of Education its look at education systems across the globe and its ambitious policy recommendations *Failure* might even succeed in reframing the way the federal education establishment thinks about education policy **Urban Issues, 6th Edition**

Housing the Homeless Jon Erickson, Charles Wilhelm, 2017-07-12 Homelessness has become a lasting issue of vital social concern As the number of the homeless has grown the complexity of the issue has become increasingly clear to researchers and private and public service providers The plight of the homeless raises many ethical anthropological political sociological and public health questions The most serious and perplexing of these questions is what steps private charitable and public organizations can take to alleviate and eventually solve the problem The concept of homelessness is difficult to define and measure Generally persons are thought to be homeless if they have no permanent residence and seek security rest and protection from the elements The homeless typically live in areas that are not designed to be shelters e g parks bus terminals under bridges in cars occupy structures without permission e g squatters or are provided emergency shelter by a public or private agency Some definitions of homelessness include persons living on a short term basis in single room occupancy hotels or motels or temporarily residing in social or health service facilities without a permanent address

Housing the Homeless is a collection of case studies that bring together a variety of perspectives to help develop a clear understanding of the homelessness problem The editors include information on the background and politics of the problem and descriptions of the current homeless population The book concludes with a resource section which highlights governmental policies and programs established to deal with the problem of homelessness
