Cumulative List of Organizations Described in Section 170 (c) of the Internal Revenue Code of 1954 ,2004 **The Quest for a New Education** Merethe Roos,2024-02-19 This book thematizes the tension between education politics and religion in Norway after the Second World War with an emphasis on the years between 1945 and 1970 and throws a new light on Norwegian school and education in the post war period The Norwegian educational landscape in the years after the Second World War must be seen against the development of the welfare state and it appears as a part of the social democracy project typical for Norway at that time The Labour Party which held a prominent position in the educational landscape in the post war decades is normally regarded to have been an important driving force behind secularization of schools in Norway not least because the total number of weekly lessons in religious education gradually was reduced This book problematizes this thesis and enlightens how important politicians and policymakers within the Labour Party defended religious education A central point is that this defense must be seen within the frames of a liberally oriented protestant theology Thus the study highlights the diversity of ideas in Norwegian politics in the post war period and demonstrates how important impulses in Norwegian politics can be viewed against a wider international background

Emancipated Education Azhar Ibrahim, 2022-12-06 The obsession with world rankings and vocational training has turned universities into factories for the production of students and publications Teaching plays second fiddle to research output normally circulated within a small circle of experts to be validated or condemned to the abyss leading to the justifiable charge that universities are ivory towers In *Emancipated Education* Dr Azhar Ibrahim s call to reclaim the space of what he calls the educative front as a site for emancipation is timely and urgent Channelling the thoughts of giants like Paulo Freire and N F S Grundtvig the book articulates the higher purpose of higher education It serves to re humanise the human process of learning that we may have harmed Dr Nazry Bahrawi Literary and cultural critic Co founder of the Bras Basah Open School for Theory and Philosophy Dr Azhar s book is a detour around the current climate of global education which tends to celebrate rankings at the expense of empowerment and humanisation He clearly shows that education should be a combative front against any establishment without having to succumb to dogmatic power through a combination of reason ethics conscience and spirituality For him education is not just a ladder for immediate gains but is also supposed to be a part of
