Children and the European Union Helen Stalford, 2012-08-14 This book examines in detail the status of children in the EU. Drawing on a range of disciplinary perspectives including the sociology of childhood and human rights discourse, it offers a critical analysis of the legal and policy framework underpinning EU children's rights across a range of areas including family law, education, immigration and child protection. Traditionally, children's rights at this level have been articulated primarily in the context of the free movement of persons provisions, inevitably restricting entitlement to migrant children of EU nationality. In the past decade, however, innovative interpretations of EU law by the Court of Justice, coupled with important constitutional developments, have prompted the development of a much more robust children's rights agenda. This culminated in the incorporation of a more explicit reference to children's rights in the Lisbon Treaty, followed by the Commission's launch in February 2011 of a dedicated EU Agenda to promote and safeguard the rights of the child. The analysis presented in this book therefore comes at a pivotal point in the history of EU children's rights, providing a detailed and critical overview of a range of substantive areas and making an important contribution to international children's rights studies.

Education, Asylum and the 'Non-Citizen' Child Halleli Pinson, Madeleine Arnot, Mano Candappa, 2010-04-29 Refugees are physically and symbolically out of place, their position forcing receiving states to address issues of rights and moral obligations. This book is concerned with asylum seeking and refugee children in the UK, whose presence represents a litmus test of state commitment to human rights equality and justice for all children.

Immigration Susan Sterett, 2017-05-15 Whilst immigration policy is a highly controversial topic in the West, states continue to receive people who settle whether as asylum seekers or refugees or as family members of existing migrants or labour migrants. Many who move violate the immigration rules, either in entering a country or staying beyond the time allowed. The problems of illegality entail for migrants shape much of the law and society scholarship in this area, and this volume brings together the key articles which shape current thinking. The main topics covered include illegality, mercy and the language of deservingness, transnationality, family and identity, refugees and asylum seekers.

BMJ, 2007 *Permanent Exclusion from School and Institutional Prejudice* Anna Carlile, 2013-02-11 Permanent exclusion from school and institutional prejudice Creating change through critical bureaucracy Anna Carlile This book tells the story of permanent exclusion from school from within an urban children's services department It focuses on two areas what contributes to instances of permanent exclusion from school and what the effects are of its existence as a disciplinary option The book questions how and why local government officers make

particular decisions about children and young people Rather than focussing on what children and young people did behaviourally to get excluded the book adopts a Foucauldian analysis to concentrate on their place within a larger policy community which includes professionals and policy makers It adopts a critical bureaucratic exercise in studying up on powerful organisations an informed approach to ameliorating social inequity The findings described here suggest a broad deep and opaque seam of institutional prejudice permanent exclusion from school can be understood to be both caused by this and to intensify its effects This has implications for the voices of young people subject to or at risk of permanent exclusion from school and the final chapter outlines a Foucauldian Freirian student voice project offering ideas about how schools might tackle this
