Schultz, Jake Burdick**

Educating The Worker Citizen The Social Economic And Political Foundations Of Education:

Educating the Worker-citizen Joel H. Spring, 1980 *Handbook of the Sociology of Education* Maureen T.

Hallinan, 2006-11-24 The aim of the Handbook of Sociology of Education is to present the most theoretically grounded and empirically rigorous sociological analyses of schools to date The authors are distinguished researchers in the field Their contributions to the Handbook offer major theoretical perspectives on the schooling process and describe significant empirical studies of schools and their effects on individuals and society The research presented in the Handbook is built on three fundamental tenets of sociology First the authors adopt the perspective that schools are a central institution in society An understanding of the function of schooling in social life is enhanced by viewing schools as interrelated with other societal institutions The study of how the context of schooling influences education processes is critical to an understanding of school outcomes Rather than being determined solely by ascribed and achieved characteristics an individual's cognitive and social development are influenced heavily by the structures and networks in which the individual is embedded Communities families schools and social groups are critical elements in the educative process By viewing the school as a societal institution and highlighting the interaction between context and individual behavior the Handbook chapters provide a broader and deeper understanding of the determinants of learning in contemporary society The second sociological insight that guides the research in the Handbook is that the school is a social system

The Social Construction of Educational Leadership Anna Hicks McFadden, Penny Smith, 2004 Most historical and theoretical work on school administration choice has focused on the importance of race and class with increased attention to gender during the past two decades Rarely has geography been a consideration and when it appears at all it is used only to distinguish the unique conditions of urban school settings The Social Construction of Educational Leadership Southern Appalachian Ceilings addresses decisions about who is chosen to lead public schools and how they do it Using their research on senior level public school leaders in the southern mountains of North Carolina as a representative case study the authors construct an argument for a reconsideration of the role of place both in decisions about who becomes a school leader and in how those leaders behave professionally The authors describe the changes in a leadership system grounded in race class geographic and gender preferences that dating back to colonial systems of deference describing the pattern of those changes and exploring their implications for school leadership and the preparation of prospective leaders in the region and elsewhere

Black Protest Thought and Education William Henry Watkins, 2005 The modern American corporate industrial state requires a massive ideological machine to establish social order create political consensus train obedient citizen workers and dispatch marginalized groups to their place Mass public education has helped to forge the modern political state that enforces social and racial inequality Disenchanted African Americans representing dissenting viewpoints have vigorously protested this educational system which is rooted in segregation differentiated funding falsehoods alienation and exclusion This important book belongs in classrooms

devoted to achieving racial equality in public education

The Politics of Education Reforms Joseph Zajda, Macleans A. Geo-JaJa, 2010-01-26 The Politics of Education Reforms which is the ninth volume in the 12 volume book series Globalisation Comparative Education and Policy Research presents scholarly research on major discourses concerning the politics of education reforms globally It provides an easily accessible practical yet scholarly source of information about recent developments in globalisation comparative education and education reforms Above all the book offers the latest findings to the critical issues concerning major discourses surrounding education reforms in the global culture It is a sourcebook of ideas for researchers practitioners and policy makers in education and schooling around the world It offers a timely overview of current policy issues affecting research in comparative education of education reforms It provides directions in education and policy research relevant to progressive pedagogy social change and transformational educational reforms in the twenty first century The book critically examines the overall interplay between the state ideology and current discourses of education reforms in the global culture It draws upon recent studies in the areas of globalisation academic achievement standards equity and the role of the State Carnoy 1999 Zajda 2008a b It explores conceptual frameworks and methodological approaches applicable in the research covering the State globalisation and quality driven education reforms It demonstrates the neo liberal ideological imperatives of education and policy reform affecting schooling globally see also Zajda 2005 Various book chapters critique the dominant discourses and debates pertaining to comparative education discourses on reforms and neo liberal ideology in education

Handbook of Public Pedagogy Jennifer A. Sandlin, Brian D. Schultz, Jake Burdick, 2010-07-29 Bringing together scholars public intellectuals and activists from across the field of education the Handbook of Public Pedagogy explores and maps the terrain of this burgeoning field For the first time in one comprehensive volume readers will be able to learn about the history and scope of the concept and practices of public pedagogy What is public pedagogy What theories research aims and values inform it What does it look like in practice Offering a wide range of differing even diverging perspectives on how the public might operate as a pedagogical agent this Handbook provides new ways of understanding educational practice both within and without schools It implores teachers researchers and theorists to reconsider their foundational understanding of what counts as pedagogy and of how and where the process of education occurs The questions it raises and the critical analyses they require provide curriculum and educational workers and scholars at large with new ways of understanding educational practice both within and without schools

Race, Ethnicity and Gender in Education Joseph Zajda, Kassie Freeman, 2010-03-23 Race Ethnicity and Gender in Education Cross cultural which is the sixth volume in the 12 volume book series Globalisation Comparative Education and Policy Research presents scholarly research on major discourses of race ethnicity and gender in education It provides an easily accessible practical yet scholarly source of information about the international concern in the field of globalisation and comparative education Above all the book offers the latest findings to the critical issues concerning major discourses on race ethnicity and gender in the global

culture It is a sourcebook of ideas for researchers practitioners and policymakers in education globalisation social justice equity and access in schooling around the world It offers a timely overview of current issues affecting research in comparative education of race ethnicity and gender It provides directions in education and policy research relevant to progressive pedagogy social change and transformational educational reforms in the twenty first century The book critically examines the overall interplay between the state ideology and current discourses of race ethnicity and gender in the global culture It draws upon recent studies in the areas of globalisation equity social justice and the role of the State Zajda et al 2006 2008 It explores conceptual frameworks and methodological approaches applicable in the research covering the State globalisation race ethnicity and gender

Entrepreneurial Education Kristiina Erkkilä, 2000 The study finds that arguments supporting or opposing entrepreneurial education are highly contextual According to the literature studied entrepreneurship education is more directly focused upon small business and entrepreneurship whereas enterprise education is aimed at the development of enterprising behavior skills and attributes not only for business use Furthermore debates on entrepreneurial education are more complex than shown in previous studies The debate in the United States is more diverse and practice driven than those are in the United Kingdom and Finland In addition the discourse of each country has unique categories The book includes suggestions for future research and gives recommendations particularly for Finnish practice which could also benefit other societies just starting their path in entrepreneurial education The study serves as a comprehensive literature source for future interests and research

BOOK JACKET **Handbook of Local Government Administration** John J. Gargan, 2019-09-17 This theoretically and experientially grounded reference provides a complete overview of the principles and applications of government administration and management practices in the local public sector Written by over 25 distinguished academics and professionals with substantial experience as practitioners and consultants of administrative operations to local governments the book covers the effects of environmental conditions on local administrators and management techniques to administration in different types of local government It helps readers reduce research time by presenting advanced materials on local government administration and management in a single source

Hoosier Schools William J. Reese, 1998 This anthology is important for historians of education but it has a larger purpose Public schools have remained a faithful barometer of the major economic political and social changes that swept across the nation Social historians can learn much from this well written anthology Journal of American History a fine contribution to the history of public policy studies The Public Historian School reform activists sometimes forget that schools are a product of history that many proposed reforms were tried before with mixed results That understanding of the past is critical to our understanding of current efforts to improve schools These original studies of school reform in Indiana from before the Civil War to the most recent efforts offer a much needed perspective on the reoccurring struggle to remake the public schools in a new image

The Strength of a People Richard D. Brown, 1996 Thomas Jefferson's conviction that the

health of the nation's democracy would depend on the existence of an informed citizenry has been a cornerstone of our political culture since the inception of the American republic. Even today's debates over education

Handbook of Local Government Administration Gargan, 1996-10-11 This theoretically and experientially grounded reference provides a complete overview of the principles and applications of government administration and management practices in the local public sector. Written by over 25 distinguished academics and professionals with substantial experience as practitioners and consultants of administrative operations to local governments, the book covers the effects of environmental conditions on local administrators and management techniques to administration in different types of local government. It helps readers reduce research time by presenting advanced materials on local government administration and management in a single source.

The Life and Death of a Rural American High School (1995) Deyoung Alan, 2017-12-22 Published in 1995, this book provides an account of a detailed research project focusing on a rural school in West Virginia. Researched from several social science perspectives, the book strives to capture intersections between biography and history in a particular public school, Burnsville High and Middle School in Braxton County, that has been influenced by social, political, and economic forces eventually leading to its closure. The author also discusses how the example of this school can be applied within the framework of American public education and Western culture itself. Based on research from unstructured interviews, oral histories, historical records, and intermittent fieldwork that took place between 1989 and 1992, the book provides an in-depth look at a specific school, offering a basis for discussing rural schools in general. It challenges the idea that bigger schools are better and more efficient, schools in terms of the individual, the social life of the school, and the surrounding community, and considers the lack of scholarly accounts available on the issues, controversies, and social dynamics that surround these vital community matters.

Dependent on D.C. Charlotte A. Twight, 2015-11-03 *Dependent on D.C.* raises serious concerns about the future of liberty in America and proves beyond a doubt that the growth of dependence on government in the past seventy years has not been accidental; that its creation has been bipartisan and that it is accelerating. Twight shows how growing federal power, driven by legislation validated by Supreme Court decisions and accelerated by presidential ambition, has eroded the rule of law in our nation, leaving almost no activity that the central government cannot, at its discretion, regulate, manipulate, or prohibit. *Dependent on D.C.* shows why Americans have not resisted this expansion of federal power. In these uncertain times, *Dependent on D.C.* is the book Americans need to read when thinking about the future of their individual liberty.

Inside Stories Kathleen B. deMarrais, 2012-12-06 Although articles reporting research studies are helpful in acquainting students with methodological approaches, they often make the process look so straightforward, clean, and effortless. It is rare to find an article that tells the real story behind the finished product. By having real researchers tell their own stories of mucking around with methodological and ethical issues in qualitative research, we get a more realistic human story of the process. This is a collection of such stories. Authors were asked to describe their own experiences with

methodological and ethical struggles as they engaged in their work Each of the essays offers insight into the research approach used as well as particular issues which became apparent during the research process Key issues raised by the authors include early learnings gaining entry overlapping conflicting roles and the boundaries of these roles differential power relationships who tells the story and whose story is told ethical concerns related to confidentiality and the influence of a researcher's particular philosophy or theoretical framework on his or her research Throughout the book we see scholars whose personal stories or autobiographies intersect closely with their research projects deMarrais introduces a unique framework to help students gain an overview of qualitative research methods and the underpinnings and processes in these approaches This framework is centered on the ways we understand phenomena using qualitative research approaches that engage archival knowledge narrative knowledge or observational knowledge *Grand Plans* Judith Sealander, 2021-12-14

Scholars may have widely differing views of the Progressive Era but all see business as holding the key to the reforms of that period In this new book Judith Sealander amplifies our understanding of the relationship between business leaders and reform through a detailed examination of Dayton and the Miami Valley of Ohio She focuses specifically on four progressive projects that made this nine county region nationally known as a center for reform activism The four projects include an extensive program of employee benefits instituted at the National Cash Register Company the creation in the Miami Conservancy District of a massive flood prevention system the institution of a new businesslike city manager government in Dayton and a new experimental approach to education in the region's public and private schools Well grounded in the scholarly literature on progressivism and drawing from a rich trove of local manuscript sources Judith Sealander has provided an integrated analysis of the role of business leadership in these four reform areas that corrects the exaggerated treatment business has often received She shows how this one group of businessmen functioned as reformers the grand plans they had for changing society their merger of scientific engineering business management and moral fervor and the benefits and costs of their kind of progressivism *Grand Plans* contributes new insights into the Progressive Era and will interest scholars of that period as well as historians of American business urban affairs and reform *Making Sense of Modernity* Paul Edward Gottfried, *Making Sense of Modernity* *The Foundations of Contemporary American Education* Erwin V. Johanningmeier, 1987 **A London Bibliography of the Social Sciences**, 1931 Vols 1-4 include material to June 1 1929 *Education for Sustainable Democracy*, 2004

Educating The Worker Citizen The Social Economic And Political Foundations Of Education Book Review: Unveiling the Power of Words
