African American Males and Education T. Elon Dancy II, M. Christopher Brown, 2012-10-01 African American Males in Education Researching the Convergence of Race and Identity addresses a number of research gaps This book emerges at a time when new social dynamics of race and other identities are shaping but also shaped by education Educational settings consistently perpetuate racial and other forms of privilege among students personnel and other participants in education For instance differential access to social networks

still visibly cluster by race continuing the work of systemic privilege by promoting outcome inequalities in education and society The issues defining the relationship between African American males and education remain complex Although there has been substantial discussion about the plight of African American male participants and personnel in education only modest attempts have been made to center analysis of identity and identity intersections in the discourse Additionally more attention to African American male teachers and faculty is needed in light of their unique cultural experiences in educational settings and expectations to mentor and or socialize other African Americans particularly males

Bonner II, 2010-01-22 The first ever study of African American giftedness at the collegiate level focusing on two extraordinary case studies At a time when so many studies of African American students focus on the factors of failure *Academically Gifted African American Male College Students* fills a conspicuous void in the research literature on post secondary education by focusing on success Like no other work before it this remarkable study goes deep inside the experiences of academically gifted African American men who successfully navigate their way through rigorous college level programs At the heart of the unique and long overdue work are two real life stories of African American male students one at a Historically Black College and University HBCU and the other at a Traditionally White Institution TWI In presenting comparing and contrasting these two cases the book identifies a number of personal characteristics and institutional approaches driving their notable achievements The result is a guidebook both for gifted African American male students and for the institutions looking to strengthen their support for them particularly in science technology engineering and mathematics STEM disciplines

Culturally Affirming Literacy Practices for Urban Elementary Students Lakia M. Scott, Barbara Purdum-Cassidy, 2016-08-17 The nation s demographic of public schools are more ethnically racially and linguistically diverse than ever before Strauss 2014 However there are still educational policies and practices that call to question whether traditionally marginalized students receive an equitable education This is demonstrated in national achievement trends which highlight disproportionality ratings among minoritized student groups Also when examining school discipline policies expulsion ratings special education services and school choice movements all seem to handicap educational opportunity for low income Black and Brown students As American schools become more and more diverse it is imperative that the literacy practices used to teach young students of color reflect the nation s changing demographic This book provides practical insights guided by conceptual and contextual knowledge in understanding how to teach urban African American and Hispanic Latino students by discussing issues associated with critical pedagogies literacy and culturally appropriate instructional strategies that have demonstrated success for traditionally marginalized student populations This book examines culturally affirming literacy practices from three main components 1 scholarship 2 the field of practice and 3 teacher education models Each of these three are significant in understanding how to teach minoritized populations As such chapters have been organized into three main sections that address scholarship and

research trends in the field and implications for teacher education models all in order to advance the literacy achievement of African American and Hispanic Latino students
