Understanding, educating, and supporting children with specific learning disabilities: 50 years of science and practice.

Elena L. Grigorenko¹, Donald L. Compton², Lynn S. Fuchs³ [et al.](#)

Abstract: Specific learning disabilities (SLD) are highly relevant to the science and practice of psychology, both historically and currently, exemplifying the integration of interdisciplinary approaches to human conditions. They can be manifested as primary conditions—as difficulties in acquiring specific academic skills—or as secondary conditions, comorbid to other developmental disorders such as Attention Deficit Hyperactivity Disorder. In this synthesis of historical and contemporary trends in research and practice... [Show more](#)

Research in Education ,1974 *Educating Children with Autism* National Research Council, Division of Behavioral and Social Sciences and Education, Committee on Educational Interventions for Children with Autism, 2001-11-11 Autism is a word most of us are familiar with But do we really know what it means Children with autism are challenged by the most essential human behaviors They have difficulty interacting with other

people often failing to see people as people rather than simply objects in their environment They cannot easily communicate ideas and feelings have great trouble imagining what others think or feel and in some cases spend their lives speechless They frequently find it hard to make friends or even bond with family members Their behavior can seem bizarre Education is the primary form of treatment for this mysterious condition This means that we place important responsibilities on schools teachers and children s parents as well as the other professionals who work with children with autism With the passage of the Individuals with Disabilities Education Act of 1975 we accepted responsibility for educating children who face special challenges like autism While we have since amassed a substantial body of research researchers have not adequately communicated with one another and their findings have not been integrated into a proven curriculum Educating Children with Autism outlines an interdisciplinary approach to education for children with autism The committee explores what makes education effective for the child with autism and identifies specific characteristics of programs that work Recommendations are offered for choosing educational content and strategies introducing interaction with other children and other key areas This book examines some fundamental issues including How children s specific diagnoses should affect educational assessment and planning How we can support the families of children with autism Features of effective instructional and comprehensive programs and strategies How we can better prepare teachers school staffs professionals and parents to educate children with autism What policies at the federal state and local levels will best ensure appropriate education examining strategies and resources needed to address the rights of children with autism to appropriate education Children with autism present educators with one of their most difficult challenges Through a comprehensive examination of the scientific knowledge underlying educational practices programs and strategies Educating Children with Autism presents valuable information for parents administrators advocates researchers and policy makers
