institutions Greenberg shows that members of all socioeconomic classes understood the triad of girls education modernity and the nationalist struggle as educated girls would become the mothers of tomorrow who would raise nationalist and modern children While this was the aim of the various schools in Palestine not all educated Muslim girls followed this path as some used their education even if it was elementary at best to become teachers nurses and activists in women s organizations

Geoffrey Walford,2005-11-24 Private schools are central to the reproduction of social inequality For example whilst in the UK providing only about seven per cent of the school population about half of the undergraduates at Oxford and Cambridge still come from the private sector Private schools have long been associated with privilege and elitism While this traditional elitist aspect to the private sector is still central the private school sector is actually far more diverse that is usually acknowledged It now includes many small schools and faith based schools that may not offer the traditional advantages of the private sector but which provide a particular environment deemed desirable by parents In spite of their educational and social importance there has been very little academic research and writing on private schools The proposed book will be the culmination of Professor Walford s research into private schools over the past twenty years India's Struggle to Universalize Elementary Education Satya Pal Ruhela,1996 Education specially at the primary level contributes to a great extent to the physical mental emotional social and spiritual growth of the child Primary education promotes the sikls knowlege attitudes and habits This book question the reasons behind non universalization of primary education in India Rampant child labour and poverty are the two most commonly cited resons in Inidia which did not deter some of the other developing countres from making primary education compulsory *Women's Education in Developing Countries* Elizabeth M. status and earnings They examine child and maternal health as well as investments in children's education Their investigation demonstrates that women with a better education enjoy greater economic growth and provide a more nurturing family life It suggests that when a country denies women an equal education the nation's welfare suffers Current strategies used to improve schooling for girls and women are examined in detail The authors suggest an ambitious agenda for educating women It seeks to close the gender gap by the next century Published for The World Bank by The Johns Hopkins University Press

Imagining Childhood, Improving Children Catriona Ellis, 2023-08-24 From as early as the 1920s state policy towards children in South India was framed through the lens of a universal ideal of modern childhood This reflected the participation of policy makers and civil society activists in global discourses of child saving and the new opportunities of governance under the constitutional reforms of 1919 Children became viewed as both objects to be saved and investments as future citizens The book considers how adults used this concept of universal childhood to conceptualise themselves as both modern and avuncular gaining authority through an appropriation of familial terms as well as the claim to modern scientific expertise Through a detailed study of education health and juvenile justice the book reveals that the implementation of policy was still informed by other markers of difference and contrasts adult intentions with the autobiographical memories of school family and peer relationships
