History and Educational Philosophy for Social Justice and Human Rights Chowdhury, Jahid Siraz, Vadevelu, Kumarashwaran, Zakaria, A.F.M., Al-Mamun, Abdullah, Ahmed,

Sajib,2024-03-22 In the complex landscape of educational philosophy and policy a difficult challenge arises the entwined issues of racism and other demographic differences and evolving education policies Traditional historical accounts fall short of addressing the broader historical patterns that underscore these challenges particularly their colonial legacy The need for a fresh perspective becomes evident one that transcends chronology and delves into the intricate dynamics shaping contemporary educational thought History and Educational Philosophy for Social Justice and Human Rights emerges as a groundbreaking solution to this conundrum Through a broad developmental and historical lens the book provides a fresh perspective on the role of differences as the core content and subject of education It advocates for cultural resistance and a permanent political struggle by political cultural minorities and social movements while also challenging public institutions especially schools to actively embrace and utilize differences in their foundational work By engaging with the tensions and struggles around differences the book contends that institutions can transform becoming agents of positive change and contributing to the foundation of an inclusive and participatory democracy This book invites scholars and educators to not only understand the challenges but to actively participate in shaping a future where differences are not merely acknowledged but celebrated within the realms of education and society at large *Social Justice Education in European Multi-ethnic Schools* Cinzia Pica-Smith,Rina Manuela Contini,Carmen N. development in relation to others. It is this tension between personal development and advancement of humanization that is creating the opportunities for the personal development of every world citizen. Humanism is about personal autonomy, moral responsibility, and about solidarity with humanity. The tension between autonomy and social involvement is the core of humanism. Education can support persons in their moral and personal identity development. The authors brought together in this book all address issues of developing autonomy and humanity in educational practices. All the chapters try to link theory and practice. They either make theoretical ideas more practical or they use practical experiences and concerns to rethink theoretical notions. Together the chapters in the book give a broad overview of theoretical foundations, concrete research, and practices in education. The book shows a diversity that can inspire scholars and practitioners in further developing their perspectives. Creating meaning is an essential part of all education. Focusing on the linking of autonomy and humanity is the humanist perspective in it.

Boaventura and Education Inês Barbosa de Oliveira, 2017-06-09 This book examines the work of the leading critical and decolonial intellectual Boaventura de Sousa Santos and its impact on education in general and curriculum in particular. The volume brings to the table crucial itinerant theoretical rivers of thought in order to examine and understand the crises of modernity and their consequences. The author insightfully articulates Sousa Santos' major arguments: prudent knowledge, decent life, sociology of absences, and epistemicide among others to unpack some of the major issues facing the contemporary critical terrain. In so doing, she examines how Sousa Santos retools the critical emancipatory educational project towards a more just and participatory democratic society. Boaventura de Sousa Santos' groundbreaking theories on epistemology, politics, and society are weaved into brilliant focus against the backdrop of educational practice. What emerges is a powerful exposé of political tensions, contestations, and ruptures inherent to the struggle against the persistent colonizing forces in the lives of oppressed populations. Central to this decolonizing treatise are the paradigmatic transformations essential to an education truly in the service of democratic life. Antonia Darder, Leavay Endowed Chair of Ethics that is more just, democratic, and united. Jurjo Torres Santomé, Professor, Universidade de A Coruña, Spain. In her work of art, precision, and clarity on the work of Boaventura, Inês Barbosa de Oliveira offers us a new framework with which to analyze and critically understand education. Oliveira's *Boaventura and Education* is a fundamental tool for thinking critically for all those who oppose the mental paralysis that harasses us. Jos Félix Angulo Rasco, Professor of Education, University of Cadiz, Spain. Professor of Education, Universidad Católica de Valparaíso, Chile. **EDUCATION AND SOCIAL EMANCIPATION : SOME IMPLICATIONS FOR GENERAL SECONDARY EDUCATION TOWARDS THE YEAR 2000** Barry J.
