**Education at the Crossroads** Jacques Maritain, 1943-01-01 The author a modern Catholic writer philosopher sets forth his views on Christian education **Education at the Crossroads....** Jacques Maritain, 1957 *Education at a Crossroads* United States. Congress. House. Committee on Education and the Workforce. Subcommittee on Oversight and Investigations, 1998 This document reports on a congressional subcommittee's review of the federal role in education The review included visits to 15 states and testimony from more than 225 principals teachers and other education stakeholders The committee's purpose was to identify the steps that lead in the direction of either excellence or failure The subcommittee found that successful schools and school systems were not the product of federal funding but instead were characterized by parents involved in the education of their children local control emphasis on basic academics and dollars spent on the classroom The central theme of the findings is that the federal government cannot consistently replicate success stories in the form of federal programs Rather the government should empower parents by reducing the family federal tax burden encourage parental choice in education return federal elementary and secondary education funds to states and local school districts through flexible grants use federally funded education programs only for methods backed by reliable replicable research streamline and consolidate federal education programs and reform or eliminate ineffective and inefficient programs In short the federal government should serve education as a research and statistics gathering agency disseminating findings and enabling states to share best practices with each other The report was adopted by the subcommittee by a vote along Republican Democrat party lines of 5-2 The 17 page minority report Crossroads Hearings A Republican Assault on Public Education is printed as an appendix RJM International Education at the Crossroads Deborah N.
