The Political Economy of Global Citizenship Education Vanessa De Oliveira Andreotti, 2016-03-16 This edited collection offers analyses of global citizenship education within and across different national contexts This book illustrates the contingency of definitions the complexities of juxtaposing demands and priorities in different educational contexts and the difficulties and tensions of asking a question

that is arguably one of the most pressing of our time how should we live together in interdependent ecologies in a finite planet In the discipline of education where market imperatives and the dictatorship of effective replicable results have laid siege to independent debates this book aims to emphasize the importance of raising our intellectual game as educators to interrupt new and old problematic patterns of engagements representations uncomplicated solutions and conceptual straightjackets Contributors to this volume address the tensions between homogenizing universalisms and parochial specificisms ethnocentrism and relativism deficit theorizations and romanticizations of difference fantasies of supremacy and paralysis in guilt the global and the local The chapters take different approaches to map the origins meanings workings ethics politics and implications of initiatives approaches and conceptual frameworks related to the ideas of globalization citizenship and education in different sites of knowledge production This book was originally published as a special issue of *Globalisation Societies and Education* **Research in Global Citizenship Education** Jason Harshman,Tami Augustine,Merry M. Merryfield,2015-06-01 Globalization is changing what citizens need to know and be able to do by interrupting the assumption that the actions of citizens only take place within national borders If our neighborhoods and nations are affecting and being affected by the world then our political consciousness must be worldminded The outcomes of globalization have led educators to rethink what students need to learn and be able to do as citizens in a globally connected world This volume focuses on research that examines how K 12 teachers and students are currently addressing the challenge of becoming citizens in a globally interconnected world Although there is an extensive body of literature on citizenship education within national contexts and a growing literature on global education this volume offers research on the work educators are doing across multiple countries to bring the two fields together to develop global citizens *Educational Research and Innovation Languages in a Global World Learning for Better Cultural Understanding* OECD,2012-04-24 This book examines the links between globalisation and the way we teach and learn languages *International Handbook on Education Development in the Asia-Pacific* Wing On Lee,Phillip Brown,A. Lin Goodwin,Andy Green,2023-11-20 The Springer International Handbook of Educational Development in Asia Pacific breaks new ground with a comprehensive fine grained and diverse perspective on research and education development throughout the Asia Pacific region In 13 sections and 127 chapters the Handbook delves into a wide spectrum of contemporary topics including educational equity and quality language education learning and human development workplace learning teacher education and professionalization higher education organisations citizenship and moral education and high performing education systems The Handbook is grounded in specific Asia Pacific contexts and scholarly traditions using unique country specific narratives for example Vietnam and Melanesia and socio cultural investigations through lenses such as language identity or colonisation while offering parallel academic discourse and analyses framed by broader policy commentary from around the world *Geography Education for Global Understanding* Ali Demirci,Rafael de Miguel González,Sarah Witham Bednarz,2018-04-26 This book presents the core

concepts of geographical education as a means of understanding global issues from a spatial perspective It treats education supported by high standards approaches methodologies and resources as essential in exploring the interactions of the world's human and environmental systems at local regional and global scales embedded in the nature of the discipline of geography It covers topics such as climate change sustainable development goals geopolitics in an uncertain world global crisis and population flows which are of great interest to geography researchers and social sciences educators who want to explore the complexity of contemporary societies Highly respected scholars in geography education answer questions on key topics and explain how global understanding is considered in K 12 education in significant countries around the globe The book discusses factors such as the Internet social media virtual globes and other technological developments that provide insights into and visualization in real time of the intensity of relationships between different countries and regions of the earth It also examines how this does not always lead to empathy with other political cultural social and religious values terrorism threats and armed conflicts are also essential features of the global world This book opens the dialogue for global understanding as a great opportunity for teachers educators scholars and policy makers to better equip students and future citizens to deal with global issues
