## **Education For Democratic Citizenship Decision Making In The Social Studies:**

Education for Democratic Citizenship Shirley H. Engle, Anna S. Ochoa-Becker, 1988 *Democratic Education for Social Studies* Anna S. Ochoa-Becker, 2006-12-01 In the first edition of this book published in 1988 Shirley Engle and I offered a broader and more democratic curriculum as an alternative to the persistent back to the basics rhetoric of the 70s and 80s This curriculum urged attention to democratic practices and curricula in the school if we wanted to improve the quality of citizen participation and strengthen this democracy School practices during that period reflected a much lower priority for social studies Fewer social studies offerings fewer credits required for graduation and in many cases the job descriptions of social studies curriculum coordinators were transformed by changing their roles to general curriculum consultants The mentality that prevailed in the nation's schools was back to the basics and the basics never included or even considered the importance of heightening the education of citizens We certainly agree that citizens must be able to read write and calculate but these abilities are not sufficient for effective citizenship in a democracy This version of the original work appears at a time when young citizens teachers and schools find themselves deluged by a proliferation of curriculum standards and concomitant mandatory testing In the 90s virtually all subject areas including United States history geography economic and civics developed curriculum standards many funded by the federal government Subsequently the National Council for the Social Studies issued the Social Studies Curriculum Standards that received no federal support Accountability captured in the No Child Left Behind Act passed by Congress has become a powerful political imperative that has a substantial and disturbing influence on the curriculum teaching and learning in the first decade of the 21st century **The Social Studies Curriculum** E. **Thematic Teaching of Women's Rights Issues with Social Studies Trade Books** Jeremiah Clabough, Natalie Keefer, 2023-09-29. This edited volume presents a distinctive approach for exploring pedagogical frameworks, methods and strategies for teaching thematically about women's rights using social studies trade books. After an introductory chapter by Jeremiah Clabough that provides a compelling rationale for thematic teaching of women's rights issues and controversial topics, Natalie Keefer and Tori Flint situate the remaining chapters within the context of theory and research on women's rights issues and include a discussion of implications and considerations for the role multiple literacies have in advancing women's rights in North America and beyond. In subsequent chapters, a diverse assemblage of respected scholars within the field of social studies education introduce important women who advanced women's human rights in the United States, paired with a notable trade book about their life challenges and achievements. Then chapter authors describe student-centered pedagogies with inquiry-based pedagogies aligned with the
