Education In Urban Areas Cross National Dimensions:

International Handbook of Urban Education William T. Pink, George W. Noblit, 2008-09-03 It is evident that urban education has become the central focus of educators at the present time In the U S for example almost one third of all school age children attend schools in large urban school districts It is in these urban schools where the diversity of cultures and languages is highest and where student learning is most problematic What has emerged from recent work to improve urban schools is the insight that there is no one size fits all panacea Rather we have discovered that the local context shapes in critically important ways what will be effective at the school level The universality of the problematics with urban education together with the importance of understanding the local or situated context of improvement interventions brings into sharp focus the importance and timeliness of an undertaking like the *International Handbook of Urban Education* An important focus of the *International Handbook of Urban Education* will be the interrogation of both the social and political factors that lead to different problem posing and subsequent solutions within each region An important question to be answered for example is what it takes in terms of resources political will and policy actions to improve urban education Education in Urban Areas Nelly P Stromquist, 1994 Dimensions peculiar to urban life such as high population density proximity to power centers heterogeneity of residents in terms of class and ethnicity susceptibility to political action and tensions between rich and poor have considerable impact on educational policies Important studies have been conducted on urban conditions in the developed world but few studies on education in Third World cities have appeared This volume looks at urban problems related to education cross nationally beginning with a careful definition of what is distinctly urban in educational settings Chapters on trends and issues bureaucratic dynamics disparities and inequities goals neighborhood movements politics and the experience of women and marginal students round out this internationally contributed volume **Implementing Sustainable Development** Phillip J. Cooper, Claudia Maria Vargas, 2004 The authors focus on the challenge of turning international commitments policy promises into action Using examples case studies they examine the successful failed efforts designed to address the social environmental economic dimensions of sustainable development Sacred Spaces and Public Quarrels Paul Tiyambe Zeleza, Ezekiel Kalipeni, 1999 How do Africans conceive space How are places constructed and imagined How do the conceptions constructions imaginings of spaces and places affect and in turn are affected by social economic and political change These are some of the questions answered in this the first book of its kind to address systematically the themes of of space and spatiality *Gender, Equity, and Schooling* Barbara J. Bank, Peter M. Hall, 1997 First Published in 1997 Routledge is an imprint of Taylor Francis an informa company **City Kids, City Schools** William Ayers, 2010-10-08 Of the approximately 50 million public school students in the United States more than half are in urban schools A contemporary companion to *City Kids* *City Teachers Reports from the Front Row* this new and timely collection has been compiled by Contemplative Pedagogies for Transformative Teaching, Learning, and Being Jing Lin, Tom E.

Culham, Sachi Edwards, 2019-11-01 In our current systems of education there is a trend toward compartmentalizing knowledge standardizing assessments of learning and focusing primarily on quantifiable and positivist forms of inquiry. Contemplative inquiry on the other hand takes us on a transformative pathway toward wisdom morality integrity equanimity and joy Zajonc 2009 These holistic learning practices are needed as a counterbalance to the over emphasis on positivism that we see today. In addition to learning quantifiable information we also need to learn to be calmer wiser kinder and happier. This book aims to find and share various pathways leading to these ends. This book will describe educational endeavors in various settings that use contemplative pedagogies to enable students to achieve deep learning peace tranquility equanimity and wisdom to gain new understanding about self and life and to grow holistically. Embodiment is a central concept in this book. We hope to highlight strategies for exploring internal wisdoms through engaging ourselves beyond simply the rational mind. Contemplative pedagogies such as meditation yoga tai chi dance arts poetry reflective writing and movements can help students embody what they learn by integrating their body heart mind and spirit. *The Impact of Institutional Culture on Women Students in Hawaii* Carol A. Parker, 2010-07-12 **Social and Political Development in Post-reform China** K. Mok, 1999-10-11 This book is a sociological study of how economic reforms started in the late 1970s have affected people's life in China. The book is based upon the author's recent research projects conducted in mainland China. The unique feature of the book is not only based upon qualitative analysis but also quantitative data the integration of which can enhance readers understanding of current social and political developments in post Mao China. In particular the book aims to depict a context and sociological framework for the analysis of the dynamic and interactive processes between economic social and political fronts. **Reservoirs of Hope** Alan Flintheam, 2010-08-11 This book is about hope and how it is sustained by the personal spirituality of school leaders. Defining this not only in religious terms but using a concept of secular spirituality it shows that leadership actions must rest on the foundation of a personal value system demonstrated as a lived faith in action. Drawing on interviews with 150 headteachers and capturing their authentic voices it uses the metaphor of reservoirs of hope to promote practitioner reflection on the value systems leadership styles and sustainability strategies of headteachers as they act as the external reservoir of hope for their schools whilst ensuring that their own internal reservoir of hope never runs dry. It also offers a theological reflection on the spiritual and moral leadership of headteachers providing a connecting bridge between educational leadership and theology. *Anthropology and Child Labour* D. C. Nanjunda, 2009 Study conducted in Bangalore City of Karnataka India **Food, Culture, and Survival in an African City** K. Flynn, 2016-09-27 A rich ethnographic portrait of food provisioning processes in a contemporary African city offering valuable lessons about the powerful roles of gender migration exchange sex and charity in food acquisition. Drama and Theatre in Urban Contexts Kathleen Gallagher,Jonathan Neelands,2014-03-05 Urban theatre can be described as theatre made with or by those whose lives are marked by the urban landscape and its social limits and possibilities At the heart of this text lies the question of how theatre can illuminate the urban and how theatre is illuminated by the urban The city like a play is a space where everything adopts multiple meanings It is an objective thought and a subjective experience a charged and symbolic thing as well as a real material lived reality The chapters in this book illustrate the theatre s uncanny ability to narrate and symbolize the physical and psychic space of the city Running through all of the pieces presented are the themes of power and of young people s sense of agency within the structures they dwell in and are shaped by Through drama education and applied theatre practices the affinity between the urban and its theatres is radically replaced by marginal spaces boulevards and schools As Guillermo G mez Pe a suggests the theatre has gone to the people to serve their local and immediate need for a means of holding the urban and the self so that both can be interrogated and re imagined so that the various dystopias of urban existence can be envisaged as places of urban solidarity and as utopias at least of the mind This book was originally published as a special issue of Research in Drama Education The Journal of Applied Theatre and Performance *Education in West Africa* Emefa Takyi-Amoako,2015-05-21 Education in West Africa is a comprehensive critical reference guide to education in the region Written by regional experts the book explores the
