Developing Learning Environments Ora Kwo, Tim Moore, John Jones, 2004-04-01 This book addresses critical challenges for university renewal and sketches critical issues in Hong Kong s higher education that have global implications Contributors to the book were originally gathered for a conference funded by the University Grants Committee UGC of Hong Kong and took as their starting point the work of the Carnegie Foundation on The Scholarship of Teaching and Learning With the worldwide move towards public accountability academics live in a climate of assessment and must constantly adapt to new pressures This book presents a focus on leadership in learning on the basis of which academics can reconcile pressures and paradoxes transcend the system and move on to a public domain where teaching and research can be integrated in scholarly discourse and practice The shared professional insights as

articulated by the contributors to this book will be most helpful to academics who are navigating through these turbulent waters Emerging from the major thrusts of the selected papers are three thematic divisions Critical and Creative Thinking Motivation in Learning and Collaboration in Teaching and Learning The targeted readers include academics administrators and policy makers in higher education The primary focus is on academics as teachers to whom the contributors can communicate authentically as frontline practitioners in an optimistic tone without being naive Together the chapters transcend local concerns and contribute to a developing international discourse on the impact of scholarship of teaching on learning Rather than advocating certain approaches from successful experiences the book generates ideas for research into teaching making transparent the dynamics of learning

Handbook of Research on Learning and Instruction Richard E. Mayer, Patricia A. Alexander, 2016-10-04 During the past 30 years researchers have made exciting progress in the science of learning i e how people learn and the science of instruction i e how to help people learn This second edition of the Handbook of Research on Learning and Instruction is intended to provide an overview of these research advances With chapters written by leading researchers from around the world this volume examines learning and instruction in a variety of learning environments including in classrooms and out of classrooms and with a variety of learners including K 16 students and adult learners Contributors to this volume demonstrate how and why educational practice should be guided by research evidence concerning what works in instruction The Handbook is written at a level that is appropriate for graduate students researchers and practitioners interested in an evidence based approach to learning and instruction The book is divided into two sections learning and instruction The learning section consists of chapters on how people learn in reading writing mathematics science history second language and physical education as well as how people acquire the knowledge and processes required for critical thinking studying self regulation and motivation The instruction section consists of chapters on effective instructional methods feedback examples questioning tutoring visualizations simulations inquiry discussion collaboration peer modeling and adaptive instruction Each chapter in this second edition of the Handbook has been thoroughly revised to integrate recent advances in the field of educational psychology Two chapters have been added to reflect advances in both helping students develop learning strategies and using technology to individualize instruction As with the first edition this updated volume showcases the best research being done on learning and instruction by traversing a broad array of academic domains learning constructs and instructional methods

Helping College Students Succeed Glenn Hirsch, 2013-06-17 Glenn Hirsch offers professionals a user friendly comprehensive resource book of theories and specific techniques that can be used to enhance college student success Dr Hirsch offers readers an integrated model for change that includes both holistic assessments of academic difficulty and suggestions for three different levels of intervention based on the student s readiness and motivation for change He also provides specific interview and testing strategies for determining the causes of academic difficulty

NACADA Journal , 1998 Educating for a New Future:
