Kaufman, Elizabeth O. Lichtenberger, 2005-08-05 The classic text now updated with a new interpretive approach to the WAIS III Assessing Adolescent and Adult Intelligence the classic text from Alan Kaufman and Elizabeth Lichtenberger has consistently provided the most comprehensive source of information on cognitive assessment of adults and adolescents The newly updated Third Edition provides important enhancements and additions that highlight the latest research and interpretive methods for the WAIS III Augmenting the traditional sequential and simultaneous WAIS III interpretive methods the authors present a new approach derived from Cattell Horn Carroll CHC theory This approach combines normative assessment performance relative to age peers with ipsative assessment performance relative to the person s own mean level Following Flanagan and Kaufman s work to develop a similar CHC approach for the WISC IV

Kaufman and Lichtenberger have applied this system to the WAIS III profile of scores along with integrating recent WAIS III literature. Four appendices present the new method in depth. In addition to a detailed description, the authors provide a blank interpretive worksheet to help examiners make the calculations and decisions needed for applying the additional steps of the new system and norms tables for the new WAIS III subtest combinations added in this approach. *Assessing Adolescent and Adult Intelligence* remains the premier resource for the field, covering not only the WAIS III but also the WJ III, the KAIT, and several brief measures of intelligence, as well as laying out a relevant up-to-date discussion of the discipline. The new theory-based interpretive approach for the WAIS III makes this a vital resource for practicing psychologists as well as a comprehensive text for graduate students.
