Educational Systems For Disruptive Adolescents:

Educational Systems for Disruptive Adolescents Keith J. Topping, 2022-12-29 In the early 1980s concern about disruptive behaviour in secondary schools had grown being variously regarded as a symptom of a decaying society or as a failure on the teachers part One response was to throw money at the problem and various different kinds of special schools and units had been devised to deal with disruptive adolescent pupils Yet there was little systematic evaluation of the different options particularly in terms of cost effectiveness Originally published in 1983 this book reviews all the available research on 21 alternative systems for the education of disruptive adolescents at the time These range from the highly expensive residential special schools to on site adaptations which involve no extra cost Most are based on developments in Britain and the United States and the author concludes in favour of many of the less sophisticated systems This book will be interesting historical reading for workers and students in educational psychology special education and educational policy

Effective Schools for Disaffected Students Paul Cooper, 2002-03-11 Disaffected pupils respond well in circumstances where they feel secure where they have a sense of being valued and respected and where they perceive there to be opportunities for them to succeed *Effective Schools for Disaffected Students* offers insights into how these outcomes might be achieved in both mainstream and segregated settings The investigation is based on the views of pupils who have been excluded from mainstream schools for pupils with emotional and behavioural difficulties The author relates the pupils experiences of the different types of school to research in the area of school effectiveness He offers some practical guidelines on ways in which teachers and managers can work towards reducing disaffection in schools within the real life contexts in which they occur The book will appeal to anybody whose concerns are with the everyday realities of schooling

New Directions in Educational Psychology Nigel Hastings, Josh Schwieso, 2013-10-18 First published in 1987 Teachers throughout the Western world identify motivating pupils and coping with classroom disruption as being among their main concerns The close links between these two crucial aspects of classroom life are only now beginning to be fully understood This book provides a selection of papers nearly all of which have been specially commissioned for this volume on these two closely related topics Whilst many factors both inside and outside of the school contribute to pupils behaviour and motivation in the classroom the articles included in this collection are concerned exclusively with in school factors over which classroom teachers and schools have potentially the greatest influence In this way the volume presents in a form accessible to teachers on initial or in service training courses some of the most useful and interesting recent developments in educational psychology for today s classroom

Disaffection From School (RLE Edu M) David Hargreaves, Stephen Hester, Frank Mellor, 2012-05-04 A large number of pupils are or are liable to become disaffected with their schooling In this comprehensive account of the problem Ken Reid suggests that school can and should do much more to prevent and overcome disaffected behaviour as manifested by such factors as absenteeism disruption and underachievement The book covers

disruptive behaviour in its broader context and examines the search for an explanation within schools themselves Formal and multidisciplinary approaches to the problem are also fully treated The author has drawn on his considerable school and research experience and the book is well illustrated with examples and case histories Ken Reid argues that questions about attitudes and approaches in teaching and in pastoral care provoke a continued challenge and stresses that if such questions are not faced squarely the long term prognosis for secondary education in Britain may be bleak Teachers in training and all those involved in the education and welfare of difficult or disadvantaged children especially teachers heads and social workers will find *Disaffection from School* both challenging in its analysis and helpful in its suggestions *The Routledge*

Policies for Diversity in Education Tony Booth, Mary Masterson, Patricia Potts, Will Swann, 2013-09-27 The emphasis in this book shifts to the coordination of practice into schools regional and national policies and the power and interest groups concerned with educational difficulties and disability In the opening section the authors review the location of power in the systems the impact of Local Management of Schools case studies of Union policy the National Curriculum Council and voluntary societies They then look at one threatened element of the power structure the local education authorities They examine the features of local authority policy and attempt to systematise local policy The experience of families is examined in their relationships with professionals particularly during the preparation of Statements of Special Educational Need This is followed by sections on services for under fives integrating education and the authors provide examples of changing school policies and the practices that have arisen from them supporting the learning of all pupils in primary and secondary schools changing the role of special schools ensuring that girls and boys are provided with equal opportunities writing a development plan and the experience of a teacher with a disability They then examine policies and practices in education after school and finish with theories of integration and disability

Changing Theories And Practices Of Discipline Roger Slee, 2020-04-03 Behaviour problems in our schools occupy a considerable part of the education agenda and media attention The major thrust of the literature has been on the provision of new classroom management approaches Too often these packages are inappropriate to the specific context of the school and its pupils There are no quick fix solutions In this book Slee proposes a critical re examination of the school discipline issue In doing so he provides an overview of policy change an examination of the major schools of thought on student discipline a reconsideration of the context in which young people teachers and schools now find themselves and practical responses for addressing all levels of discipline policy making

Special Kids for Special Treatment? Helen Phtiaka, 2018-09-03 First published in 1997 This book compares and contrasts the experiences of deviant pupils in a mainstream school with that of those in a special unit for pupils with behavioural problems The author s aims are to i evaluate the differences between the behaviour of deviant boys and girls within the mainstream education system with those without and ii justify the criteria for transferring deviant pupils to special units Her research shows that there is no uniformity in the deviant behaviour of pupils in either situation In fact there are more similarities in the behaviour of pupils across the dividing line than pupils in the same institution Such findings raise questions about the apparent arbitrary nature if some transferral decisions and in the longer term the whole logic of separate schooling for pupils who are considered by some to be a problem At a time when market forces and competition have distracted the schools attention away from the needs of the individual pupil this book stresses the need for changes at all levels which will make school relevant to the lives of all pupils
