The Stasi Files Unveiled Barbara Miller, In 1992 the massive files of East Germany's infamous Ministry for State Security the Stasi were made publicly available and thousands of former East Germans began to confront their contents Finally it was possible for ordinary citizens to ascertain who had worked for the Stasi either on a full time basis or as an unofficial employee the Stasi's term for an informer The revelations from these documents sparked feuds old and new among a population already struggling through enormous social and political upheaval Drawing upon the Stasi files and upon interviews with one time informers this book examines the impact of the Stasi legacy in united Germany Barbara Miller examines such aspects of the informer's experience as the recruitment procedure daily life and work motivation and justification She goes on to consider the dealings of politicians and the courts with the Stasi and its employees Her analysis then turns to the way in which this aspect of recent German history has been remembered and the phenomenal impact of the opening of the files on such perceptions of the past

The Stasi Files Unveiled Guilt and Compliance in a Unified Germany offers important new perspectives on the nature of individual and collective memory and is a fascinating investigation of modern German society Barbara Miller graduated from the University of Glasgow in 1991 with a degree in German and psychology She taught and researched in Germany and Austria before completing her doctoral thesis in Glasgow in 1997 She is now based in Sydney Australia

Distorted Reflections Stuart Taberner, 2023-11-27 This volume presents a new approach to the political engagement of three major West German authors Uwe Johnson G nther Grass and Martin Walser Whereas analysis of intellectuals participation in the political upheaval of the late 1960s has tended to focus on speeches written in response to contemporary events this book examines works of fiction for the way in which authors reflected upon their engagement in a more contemplative medium Examination of these literary reflections reveals a mismatch between writers confidence as public intellectuals and their private anxiety Beginning with a survey of intellectual engagement until the late 1960s the present volume moves onto a theoretical discussion of the legitimacy of authors public interventions Three chapters are devoted to the fiction of Uwe Johnson G nther Grass and Martin Walser Uwe Johnson's fiction embodies retreat an acknowledgment of political impotence G nther Grass's novels present the failings of the engaged intellectual as exemplary to an audience which is expected to learn from this inadequacy Finally Martin Walser's intellectual characters stylise private weakness to appeal to a middle brow audience titillated by the public figure's confession of impotence In Walser's work political engagement degenerates into pure form into a Camp gesture of authors obsession with their private selves

linguistic description this book will be of interest to scholars in various adjacent fields of research such as applied linguistics intercultural communication studies media studies political science and the sociology of globalisation as well as to relevant higher education programmes around the world The discipline of translation studies has made its mark by conceptualising translation as a form of cross cultural communication that transcends asymmetrical relations of power foregrounding issues such as colonial domination cultural hegemony and ideology To date however there has been no compelling evidence of the linguistic implications of transnational political communication and little research has been done to help us to understand how political discourse at the international level presupposes translation Featuring a wealth of examples from political text and talk each article here links contextual features to the linguistic choices of political actors By moving beyond national and cultural boundaries these analyses help the reader to get to grips with the discursive implications of power politics and to open up a new debate for a novel area of studies that might be termed cross cultural political discourse analysis
