Tax Court,1947-07 Final issue of each volume includes table of cases reported in the volume From Radicals to Survivors John D. Derksen,2021-10-18 This is the first extensive study of Strasbourg s diverse religious nonconformists beyond 1543 and the first to explore their continuities and discontinuities over two generations Based on vast archival records in Strasbourg and secondary sources it moves beyond the political and theological emphases of earlier works to include social history portraits of village life and the second generation to 1570

Derksen finds that second generation nonconformists were substantially different from the first Their social profile changed from an urban mix of leaders intellectuals and artisans they became largely rural folk composed of lower class artisans Further in outlook their view narrowed from radicals who sought to change church and society at its root to dissenters concerned mainly to survive At the same time there were continuities When the revolts of the 1525 Peasants War were crushed dissident ideals found new expression in spiritualist sectarian and apocalyptic streams In these streams into the 1560s and beyond nonconformists continued their call for social and economic justice and meaningful participation in religion The book will be of interest to historians of the Early Modern period the Reformation's radicals popular religion sixteenth century society and Strasbourg and to those interested in the free church tradition A History of the Faculty of Arts at the University of Adelaide 1876-2012 Nick Harvey, Jean Fornasiero, Greg McCarthy, Clem Macintyre, Carl Crossin, 2012 The Bachelor of Arts BA was the first recognised degree at the University of Adelaide Although informal classes for some subjects were held at the University between 1873 and 1875 the first official University lecture was a Latin lecture at 10 am on Monday 28 March 1876 This was followed by lectures in Greek English and Mental Philosophy By 1878 the first BA student Thomas Ainslie Caterer completed his studies for the BA degree and in 1879 became the first graduate of the University of Adelaide Even though the BA was the first degree it was not until eight years later in 1887 that the Faculty of Arts was inaugurated after the Faculty of Law in 1884 a Board of Studies in Music in 1885 and the Faculty of Medicine in 1885 Following the creation of a separate science degree in 1882 many scientific subjects were removed from the BA For the next five years the subjects were Latin Greek Mathematics Natural Philosophy Logic English History and Comparative Philology Later other subjects such as French German and Political Economy were added toward the end of the nineteenth century In 1897 the Elder Conservatorium of Music was created as the first music school of its type in Australia although at that time it was not part of the Faculty of Arts In the first 50 years of the Universitys existence less than ten BA students graduated each year At the start of the 21st century this figure had climbed to over 300 BA graduates per year but what is interesting is that by 2010 the number of BA graduates was equalled by the number of graduates from separate named degrees within the Faculty plus 70 Music graduates In addition during the first decade of the twenty first century there were over 60 coursework postgraduates plus more than 40 research postgraduates graduating each year
