disciples et amis **Murder in the Multinational State** Stewart King, 2019-05-23 As Spaniards set out to transform the political social and cultural landscape of the nation following the death of dictator Francisco Franco in 1975 its crime fiction traces challenges and celebrates these radical changes Crime Fiction from Spain Murder in the Multinational State provides a comprehensive exploration of the relationship between detective fiction and national and cultural identities in post Franco democratic Spain What sort of stories are told about the nation within the state in the crime genre How do the conventions of the crime story shape not only the production of national and cultural identities but also their disruption Combining criminological theories of crime and community with an analysis of the genre s conventions this study challenges the simple classification of Spanish crime fiction as texts written by Spaniards set in Spain and with Spanish characters Instead it develops a dramatic new reading practice which allows for a greater understanding of the role of crime fiction in the construction and articulation of different and at times competing national and cultural identities including in the Basque Country Catalonia and Galicia The book provides a stimulating introduction to the key debates on the study of crime fiction and national and cultural identities in the context of a multinational state *Investigating Identities* Marieke Krajenbrink, Kate M. Quinn, 2009 Investigating Identities Questions of Identity in Contemporary International Crime Fiction is one of the relatively few books to date which adopts a comparative approach to the study of the genre This collection of twenty essays by international scholars examining crime fiction production from over a dozen countries confirms that a comparative approach can both shed light on processes of adaptation and appropriation of the genre within specific national regional or local contexts and also uncover similarities between the works of authors from very different areas Contributors explore discourse concerning national and historical memory language race ethnicity culture and gender and examine how identity is affirmed and challenged in the crime genre today They reveal a growing tendency towards hybridization and postmodern experimentation and increasing engagement with philosophical enquiry into the epistemological dimensions of investigation Throughout the notion of stable identities is subject to scrutiny While each essay in itself is a valuable addition to existing criticism on the genre all the chapters mutually inform and complement each other in fascinating and often unexpected ways This volume makes an important contribution to the growing field of crime fiction studies and to ongoing debates on questions of identity It will therefore be of special interest to students and scholars of the crime genre identity studies and comparative literature It will also appeal to all who enjoy reading contemporary crime fiction **Contemporary Spanish cinema and genre** Jay Beck, Vicente Rodríguez Ortega, 2021-06-15 This volume is the first English language collection exclusively dedicated to the study of genre in relation to Spanish cinema Providing a variety of critical perspectives the collection gives the reader a thorough account of the relationship between Spanish cinema and genre drawing on case studies of several of the most remarkable Spanish films in recent years The book analyses the significant changes in the aesthetics production and reception of Spanish film from 1990 onwards It brings together European and North American

scholars to establish a critical dialogue on the topics under discussion while providing multiple perspectives on the concepts of national cinemas and genre theory In recent years film scholarship has attempted to negotiate the tension between the nationally specific and the internationally ubiquitous discussing how globalisation has influenced film making and surrounding cultural practice These broader social concerns have prompted scholars to emphasise a redefinition of national cinemas beyond strict national boundaries and to pay attention to the transnational character of any national site of film production and reception This collection provides a thorough investigation of contemporary Spanish cinema within a transnational framework by positing cinematic genres as the meeting spaces between a variety of diverse forces that necessarily operate within but also across territorial spaces Paying close attention to the specifics of the Spanish cinematic and social panorama the essays investigate the transnational economic cultural and aesthetic forces at play in shaping Spanish film genres today

Transatlantic Mysteries William J. Nichols, 2011 *Transatlantic Mysteries* presents a comparative study that brings together authors Paco Ignacio Taibo II and Manuel Vázquez Montalbán from two specific political contexts post 1968 Mexico and post Franco Spain who both work in one specific genre noir detective fiction In this so called age of globalization Spain and Mexico have witnessed an explosion in the production of noir detective fiction which these authors choose purposefully in order to infiltrate the market with formulaic popular literature while simultaneously critiquing the effects of the neoliberal strategies embraced by their countries By locating themselves at the crossroads where literature meets the market they not only underscore the effects of capital on literary and cultural production but also explore the possibility for their writing to resist the influences of capital and question the role of an intellectual in an era of globalization At the core of their writing Taibo and Vázquez Montalbán examine the revolutionary possibilities of literature and popular culture to offer a new kind of Marxist project that revitalizes the Left by redefining the role of socially engaged literature in a globalized landscape

Postmodern Paletos Nathan E. Richardson, 2002 When Spanish dictator Francisco Franco legalized internal immigration in 1947 he unwittingly inaugurated the greatest period of urban expansion and rural depopulation that Spain had known During the next two decades nearly four million citizens would move from Spain's traditional pueblos perdidos to overburdened urban metropolises Along with wooden trunks and baskets of chickens the immigrants or paletos as they were often called bore on their journey the weight of centuries of ideological meaning tied to the geographic regions they were traversing To abandon rural Spain had come to signify a rejection of manhood wealth Christian values and even Spanishness itself Paletos however innocent they may have appeared were not ideologically neutral In the coming decades the weight and complexity of the meanings behind immigration the country and the city would only grow as Spain advanced from economic under development social ignorance and political reaction to full fledged participation in global economics and politics activities that would reshape what it meant to be an immigrant and paleta both within and across the geographic border that had traditionally defined the Spanish nation
