Todeschi, Henry Reed, 2014-10 Two Edgar Cayce experts with decades of experience studying and teaching the philosophies of his psychic readings bring his timeless wisdom into the 21st century With comparisons and writings based on living in today's world the Cayce concepts come alive for a whole new generation of spiritual and holistic seekers Topics include Karma Meditation Dreams Reincarnation The Purposefulness of Life Earth Changes Prosperity The Akashic Records and so much more      **Venture Inward** Hugh Lynn Cayce, 1985 The son of the clairvoyant Edgar Cayce examines the role of the unconscious in developing an understanding of man's nature      The Mystical Crystal Geoffrey Keyte, 2012-05-31 Awareness of and interest in the therapeutic properties of crystals have grown enormously in the last few years as users have discovered the wide range of their beneficial effects From his experience as Founder of The Crystal Research Foundation and Director of Crystal 2000 Geoffrey Keyte is able to explain electrocrystal therapy and to detail healing methods massage and relaxation There are also insights into the origins of crystal therapy and its application to yoga and the chakras With none of the obscurity which so often accompanies works on crystal healing this book will be of immediate interest and benefit to New Age discoverers and all concerned with a balanced natural therapy for a healthy self      *A Critical Investigation into Precognitive Dreams* Paul Kiritsis, 2020-02-18 The precognitive dream is a compelling real world phenomenon that still stands outside the purview of orthodox science It is spoken about anecdotally and has been alluded to time and time again by renowned psychiatrists psychologists neurologists and other clinicians expounding upon the nature of their patients' narratives However it receives no empirical airtime because it is incommensurable with conventional explanations of human consciousness like the embodied mind hypothesis and with unconscious philosophical attitudes espoused by disciples of an ostensibly irrevocable Cartesian Kantian account of the cosmos This volume examines precognitive dream experiences offering a comprehensive source of integrated information pertaining to their history and overarching features their potential neural underpinnings and the implications for consciousness and competing philosophical theories of determinism and non-determinism It will serve as a useful reference for both researchers and clinicians hoping to gain insight into an age-old sublime phenomenon      Meditation and the Evolution of Cosmic Consciousness Don Ayre, B.A., B.S.W., M.S.W., 2011-03-11 This book is about the little-known fact that there are four different kinds of meditation Witness Meditation Transformative Meditation Discursive Meditation and Transcendental Meditation More often each kind of meditation is promoted and practiced apart from the others But combined as a process they lead to cosmic consciousness and more loving attitude toward one's self and planet Earth Instead of the violence of interpersonal competition and environmental exploitation so prevalent today the ideals of peace justice and harmony can become the new reality given a more integrated approach to life's material intellectual emotional and spiritual realms of experience But in spite of the enormous advances in technology we are still caught up in unwinnable wars that cost

lives and resources of all the participants we are still confronted by the injustices of social and economic controls that have most recently resulted in meltdowns and we are still faced with that seemingly unsolvable environmental problems that are plaguing our planet today Seemingly the leadership of our global community is failing us So it s up to us as individuals Meditation and the Evolution of Cosmic Consciousness is not a how to book however It is an attempt to identify the process in a way that can be imitated To do so Don Ayre has reviewed his private practice as a family and child therapist and the writings of a number of historical figures that he recognizes as great minds for evidences of cosmic consciousness that can be used to build a living model Ayre invites his readers to examine their uses of meditation and the writings of their favorite authors to contribute their thoughts and ideas that will assist with the evolution of cosmic consciousness **The Hidden**

*Prevention, Addiction And Anxiety* William Pryatel, 2019-08-11 The author has been a psychiatrist for thirty nine years and has worked with thousands of patients His impression is that many of their problems have to do with the way they process or deal with information Often maladaptive pathways of thinking are employed to the person s detriment When this occurs it tends to be repeated again and again and becomes habitual Eventually symptoms such as anxiety depression suicidal feelings and addiction are generated and become more and more problematic In the author s experience this can be interrupted by mentally training oneself to only travel down adaptive pathways of thinking With this approach old pathways of thinking are abandoned There are a number of techniques that can be employed to establish and reinforce newer adaptive pathways of thinking It s not for everybody and should not be used exclusively but first and foremost among techniques is mindfulness The author has seen it work again and again Introduced to the world by Buddha for the purpose of enlightenment nowadays it is used for mental health issues The mindfulness here is different from the type taught in DBT The author is not saying that DBT mindfulness doesn t work it s just that he has seen better outcomes with the type he teaches He learned the basics of it at IMS at Barre Massachusetts during various meditation retreats Modern psychology does not address the invisible spiritual worlds that interface with the physical world According to religious teachings these worlds really exist and forces from them can influence our thinking Reportedly an archangel rebelled against God and was booted out of heaven A third of the angels went down with him to earth They seek to have us act in such a way so that when we die they can claim our souls and torture us in hell The present work at least addresses this issue Likewise energy medicine is discussed briefly
