Edge of Darkness Barry Thornton, 2000 Illustrated with Barry Thornton's own stunning landscape pictures each chapter is interlaced with technical detail and personal feelings **Edge of Darkness** Barry Thornton, 2001 Illustrated with his own stunning landscape pictures each chapter is filled with technical details and personal insights making this highly readable volume much more than a technical guide **The British National Bibliography** Arthur James Wells, 2001 Books In Print 2004-2005 Ed Bowker Staff, Staff Bowker, Ed, 2004 Books in Print Supplement, 2002 *Subject Guide to Books in Print*, 1991 Aspects of Expression Paul Gallagher, Joe Cornish, 2008 PHOTOGRAPHIC EQUIPMENT why seeing in monochrome is different from seeing in colour and what it is about monochrome that allows it to express such powerful emotions He discusses the ways in which monochrome photographers have used darkroom techniques to refine and enhance their images and the ways in which such techniques have been used to change the mood of a photograph and to increase its emotional impact Illustrated with Paul Gallagher's own superb black and white images most of which were produced using large format cameras and individually hand processed film this book is itself a testament to the continuing power and potential of monochrome *Elements* Barry Thornton, 1993 *Create and Be Recognized* John Turner, Deborah Klochko, Roger Cardinal, 2004-09-09 Create and Be Recognized is the first survey of a compelling always surprising art form outsider photography Presented here is the work of seventeen largely self taught artists who have used photography or photographic elements in their creations including such luminaries as Adolf Wolfler Howard Finster and Henry Darger as well as discoveries from little known equally dramatic artists As with most outsider art the work here is fuelled by singular passions marginalized mindsets and extreme circumstances falling outside mainstream picture making Employing collage affixing photos or reproductions to a background photocollage photographs cut and pasted together to form a new whole and tableaux works based on manipulation and staging the artists here present work that is by turns lyrical and frightening and always fascinating Published to coincide with a major touring exhibition of the same name originating at San Francisco's Yerba Buena Center for the Arts Create and Be Recognized documents an emerging and important facet of contemporary photography At the Edge of Sight Shawn Michelle Smith, 2013-11-04 The advent of photography revolutionized perception making visible what was once impossible to see with the human eye In At the Edge of Sight Shawn Michelle Smith engages these dynamics of seeing and not seeing focusing attention as much on absence as presence on the invisible as the visible Exploring the limits of photography and vision she asks What fails to register photographically and what remains beyond the frame What is hidden by design and what is obscured by cultural blindness Smith studies manifestations of photography's brush with the unseen in her own photographic work and across the wide ranging images of early American photographers including F Holland Day Eadweard Muybridge Andrew J Russell Chansonetta Stanley Emmons and Augustus Washington She concludes by showing how concerns raised in the nineteenth century remain pertinent today in the
