

SHARP EDGES

A close-up photograph of a hand holding a sharp, translucent crystal, likely a piece of ice or a mineral specimen, against a blurred background of similar crystals. The hand is positioned in the upper left, with fingers gripping the crystal. The crystal itself is elongated and has several sharp, flat facets that catch the light, creating bright highlights and deep shadows. The background is filled with other similar crystals, some of which are out of focus, creating a sense of depth. The overall color palette is cool, with various shades of blue, grey, and white.
