Brian Dunford, 2004-04-30 This book provides a summary of research to help in the attainment of higher yields of beneficial compounds naturally present in edible fats and oils that can be obtained through new refining techniques or modifications of conventional methods potentially leading to use of these products for disease prevention and treatment It also provides a summary of research on modifications of natural lipids The major emphasis is on vegetable sources of oils Oil and oilseed processing is very complex involving a number of unit operations Readers will find this book helpful in learning about the fundamental concepts and practical information on oil and oilseed processing and their relevance to human nutrition and health **Edible Oil Processing** Wolf Hamm, Richard J. Hamilton, Gijs Calliauw, 2013-08-05 Oils and fats are almost ubiquitous in food processing whether naturally occurring in foods or added as ingredients that bring functional benefits Whilst levels of fat intake must be controlled in order to avoid obesity and other health problems it remains the fact that fats along with proteins and carbohydrates are one of the three macronutrients and

therefore an essential part of a healthy diet The ability to process oils and fats to make them acceptable as part of our food supplies is a key component in our overall knowledge of them Without this ability the food that we consume would be totally different and much of the flexibility available to us as a result of the application of processing techniques would be lost Obviously we need to know how to process fatty oils but we also need to know how best to use them once they have been processed This second edition of Edible Oil Processing presents a valuable overview of the technology and applications behind the subject It covers the latest technologies which address new environmental and nutritional requirements as well as the current state of world edible oil markets This book is intended for food scientists and technologists who use oils and fats in food formulations as well as chemists and technologists working in edible oils and fats processing Chemat, 2017-07-12 Global oilseeds industry is expected to expand in the future but would also constitute a platform for a variety of other products from processing waste such as protein meals and aromatic compounds Edible Oils Extraction Processing and Applications intends to present up to date technologies that are currently used for the extraction and refining of Edible Oils while proposing potential applications for its derivatives This contribution pushes to consider market transformation driven by environmental concerns and customer's envy to bring quality attributes energy efficiency and waste disposal into the heart of innovation This work is aimed at professionals and academics including researchers engineers and managers engaged in food and green engineering disciplines and ambitions to stand as a reference for students and lecturers The readers will find a wealth of knowledge about the fundamentals of unit operations such as extraction and separation while presenting concepts of biorefinery for product and value creation from certain edible seeds Novelties includes novel approaches for green solvent development in extraction and examples of life cycle assessment of production systems for certain vegetable oils comprising product service and waste management systems Furthermore this book focuses attention to production processing and current applications of palm oil as an important commodity in Asia and addresses global market changes and important factors that influence its future prospects **Green Vegetable Oil Processing** Walter E. Farr, Andrew Proctor, 2013-12-04 Alternative green food processing technologies have gained much technical and industrial attention in recent years as a potential means of reducing costs and promoting consumer awareness of corporate environmental responsibility However utilizing green principles is now becoming an effective business approach to enhance vegetable oil processing profitability Two years have passed since the first edition of Green Vegetable Oil Processing was published The Revised First Edition includes much of the content of the first edition but incorporates updated data details images figures and captions This book addresses alternative green technologies at various stages of oilseed and vegetable oil processing This includes oil extraction technologies such as expeller aqueous and supercritical methods and green modifications of conventional unit operations such as degumming refining bleaching hydrogenation winterizing dewaxing fractionation and deodorization While most chapters describe soy oil processing the techniques described equally applicable

to oils and fats in general Documents the current state of green oil processing technologies available today Addresses alternative green technologies at various stages of oilseed processing Includes technologies already in commercial use and some that are still in developmental stages Edible Oil Processing from a Patent Perspective Albert J. Dijkstra, 2012-10-02 Patent literature has always been a mine of information but until recently it was difficult to access Now with the Internet access to all patent documents is almost instantaneous and free However interpreting the technical information provided by patent literature requires a certain skill This monograph aims to provide that skill by explaining patent jargon and providing background information on patenting Patents dealing with edible oil processing are used to explain various aspects of patenting To make the explanations less impersonal some have been larded with personal remarks and experiences Accordingly this monograph is intended for scientists and engineers dealing with edible oils and fats who want to extend their sources of technical information Hopefully it will inspire them to innovate help them to avoid duplication and provide them with some amusement Small-scale Palm Oil Processing in Africa Kwasi Poku, Food and Agriculture Organization of the United Nations, 2002-01-01 This publication provides information on the processing of palm oil fruits for the extraction of palm oil and palm kernel oil by small scale mills in Africa It is hoped that this will help promote the improvement of yield and quality of palm oil production and contribute to the modernisation of small scale palm oil factories in Africa Bioactive Phytochemicals from Vegetable Oil and Oilseed Processing **Guide to Vegetable Oil Processing** ,2008 **By-products** Mohamed Fawzy Ramadan Hassanien, 2023-03-21 This book comprehensively reviews the phytochemistry functional properties and health promoting effects of bioactive compounds found in oil processing by products and it also explores the food and non food applications of these by products Several oilseeds vegetables and fruits are cultivated for their oils and fats wherein the oil extraction industry generates a huge amount of waste meal or cake The valorisation of this waste would be very beneficial not only from the economic and environmental perspectives but also for the potential applications in food cosmetics and pharmaceutical industries in which phytochemicals derived from vegetable oil and oilseed processing by products play an important role in for instance extending the shelf life of several products and providing added value properties with their antioxidant and antimicrobial properties In this work expert contributors discuss about the added value of biowaste from common and non traditional vegetable oils and oilseeds processing as well as fruit oils processing and offer an extensive overview of the different bioactive compounds found in extracts from oil processing by products and their chemical composition The book also collects several examples in which oil processing by products are integrated into industrial activities such as food production livestock production and in pharmaceutical and cosmetics industries Professionals and scholars alike interested in the recycling of agro industrial wastes derived from vegetable oil and oilseed processing by products will find this book a handy reference tool **Enzymes in Oil Processing** Showkat Ahmad Bhawani, Anish Khan, Awang Ahmad Sallehin Awang Husaini, Mohd Razip Asaruddin, 2024-01-21 Enzymes in Oil Processing
