Editing The Middle English Manuscript:

Opening Up Middle English Manuscripts Kathryn Kerby-Fulton, Maidie Hilmo, Linda Olson, 2024-05-15 Deeply informed and lavishly illustrated *Opening Up Middle English Manuscripts* is a comprehensive introduction to the modern study of Middle English manuscripts. It is intended for students and scholars who are familiar with some of the major Middle English literary works such as *The Canterbury Tales*, *Gawain and the Green Knight*, *Piers Plowman*, and the romances, mystical works, or cycle plays but who may not know much about the surviving manuscripts. The book approaches these texts in a way that takes into account the whole manuscript or codex: its textual and visual contents, physical state, readership, and cultural history. *Opening Up Middle English Manuscripts* also explores the function of illustrations in fashioning audience response to particular authors and their texts over the course of the fourteenth and fifteenth centuries. Kathryn Kerby-Fulton, Linda Olson, and Maidie Hilmo, scholars at the forefront of the modern study of Middle English manuscripts, focus on the writers most often taught in Middle English courses, including Geoffrey Chaucer, William Langland, the *Gawain* Poet, Thomas Hoccleve, Julian of Norwich, and Margery Kempe, highlighting the specific issues that shaped literary production in late medieval England. Among the topics they address are the rise of the English language, literacy, social conditions of authorship, early instances of the Alliterative Revival, women and book production, nuns, libraries, patronage, household books, religious and political trends, and attempts at revisionism and censorship. As of 2024, *Opening Up Middle English Manuscripts* is available as an ebook, ideal for instructors teaching the book in courses. The fully searchable PDF ebook version is available through most digital textbook platforms and library ebook aggregation platforms. Essays adopt the multi-faceted and nuanced approaches to manuscript studies and history of the book characteristic of Ian Doyle's work, taking up topics to which his research has drawn attention, extending his studies of particular manuscripts, scribes, and networks, and exploring his remarkable contributions to the field. Contributors are Ralph Hanna, Susan Powell, Julia Boffey, David Rundle, James Willoughby, Carol Meale, Martha Driver, William Marx, Veronica O'Mara, Richard Gameson, Kathleen Scott, Margaret Connolly, Richard Beadle, A. S. G. Edwards, Elizabeth Rainey, Pamela Robinson, Toshi Takamiya, Linne Mooney, and Derek Pearsall. **Medieval English Manuscripts and Literary Forms** Jessica Brantley, 2022-12-13 In *Medieval English Manuscripts and Literary Forms*, Jessica Brantley offers an innovative introduction to manuscript culture that uses the artifacts themselves to open some of the most vital theoretical questions in medieval literary studies. With nearly 200 illustrations, many of them in color, the book offers both a broad survey of the physical forms and cultural histories of manuscripts and a dozen case studies of particularly significant literary witnesses.

The Making of Middle English, 1765-1910 David Matthews, 1999 Before the 1760s with the major exception of Chaucer nearly all of Middle English literature lay undiscovered and ignored Because established scholars regarded later medieval literature as primitive and barbaric the study of this rich literary heritage was relegated to antiquarians and dilettantes In *The Making of Middle English 1765-1910* David Matthews chronicles the gradual rediscovery of this literature and the formation of Middle English as a scholarly pursuit Matthews details how the careers class positions and ambitions of only a few men gave shape and direction to the discipline Mostly from the lower middle class they worked in the church or in law and hoped to exploit medieval literature for financial success and social advancement

Where Middle English was concerned Matthews notes these scholars were self taught and their amateurism came at the price of inaccurately edited and often deliberately improved texts intended for a general public that sought appealing rather than authentic reading material This study emphasizes the material history of the discipline examining individual books and analyzing introductions notes glossaries promotional materials lists of subscribers and owners annotations to assess the changing methodological approaches of the scholars and the shifts in readership Matthews explores the influence of aristocratic patronage and the societies formed to further the editing and publication of texts And he examines the ideological uses of Middle English and the often contentious debates between these scholars and organizations about the definition of Englishness itself A thorough work of scholarship The Making of Middle English presents for the first time a detailed account of the formative phase of Middle English studies and provides new perspectives on the emergence of medieval studies canon formation the politics of editing and the history of the book

Textual Criticism and Middle English Texts Tim William Machan, 1994 Textual Critical studies of medieval English literature have primarily focused on practical matters such as transcription collation recension and the identification of scribal hands But the theory of editing medieval English works remains largely unexplored Tim William Machan addresses this void by setting out to articulate the textual and cultural factors that distinctively characterize Middle English works as Middle English and to reveal the role these factors play in editing and interpretation of these works In revealing how the creation of textual criticism affected the transmission of Middle English this book will be of interest and accessible to readers relatively new to both textual criticism and Middle English It will also be of vital importance to specialists in medieval studies Renaissance studies and textual criticism

The Feral Piers Rosanne P. Gasse, 2016-02-29

What do we mean when we talk about the text of *Piers Plowman* What is the concept of a literary text when that construct exists in so many variant and feral forms as is the case for the multiple modern editorial reconstructions and the more than fifty surviving manuscripts and early print editions of *Piers Plowman* How do the anonymous roles of author scribe and reader intersect to create the experience of the text How can we judge a pre-modern text's reception history if we do not know exactly what it was that the early reader was responding to This book takes a daring and innovative approach to answering such questions as these It is a micro study of one particular historic version of *Piers Plowman* its scribe and its fifteenth and sixteenth century readers British Library Cotton Caligula A XI a manuscript which combines the C A and B texts of the poem and which was likely copied out in the first quarter of the fifteenth century It reads the Cotton *Piers* not as an ossified relic whose value lies in what can be gleaned from it about modes of scribal production and C's textual relationship to other *Piers* manuscripts but as a living text meant to be experienced and enjoyed as a work of literature in its own right In gaining a better comprehension at the micro level of this particular historic version a better understanding of the whole concept of *Piers Plowman* itself emerges
