• *Frameworks for Lay Leadership* is designed to guide laypeople through a validated course of study in order to lead a variety of ministries in the Church of the Nazarene. This is particularly helpful in contexts where there are no ordained clergy to plant or lead new congregations or oversee existing ones. Upon completion of this course of study, under the guidance of an ordained Nazarene minister, a certificate of lay ministry may be issued by a local church board or a district advisory board.

Leadership Approaches to Negotiate Challenges in a Changing Education Landscape Leentjie van Jaarsveld, Kobus Mentz, Charl C. Wolhuter, 2020-12-31 The argumentative point of departure of this scholarly book is the common conviction of specialists in the field of education in South Africa that the national education system is not at a satisfactory level in both the academic and the public discourse Such allegations are made and frequently stronger adjectives than non satisfactory are used Results of international test series in which South Africa has participated such as the 2015 TIMSS tests confirm the negative verdicts found in the public and scholarly discourse This book aims to argue that although the lack of performance could be attributed to a multiplicity of factors one factor that can make a difference in the achievement levels obtained by learners in schools is leadership The book demonstrates that a particular problem of both the scholarly and the public discourse on education in South Africa is an overtone of defeatism or resignation blaming all ills in the education system and educational institutions on historical legacies and or contextual factors such as socio economic deprivation in the catchment areas of schools or poor resources and infrastructure This collected work was inspired by a recently published spate of articles on top performing schools including top performing schools in rural communities in which it was demonstrated that good leadership can overcome such contextual and other challenges The book unpacks the

issue of leadership in South African schools from a variety of perspectives thus contributing to the development of the scholarly discourse on Educational Leadership in South Africa The target audience of the book is scholars of Educational Leadership The research reported in the chapters draw on a wide range of methodologies including empirical survey research questionnaires and interviews critical literature surveys and the comparative method [The Rise of Chinese American Leaders in U.S. Higher Education: Stories and Roadmaps](#) Honggang Yang,Wenying Xu,2023-12-21 This book is a collection of stories and reflections that represent Chinese American leaders and depict their tortuous journeys in U S higher education that comes at a critical point in time Many books have been devoted to academic leadership but this volume uniquely focuses on subjects most relevant to Chinese Americans We live at a time that not only witnesses an increase in Chinese American leaders on U S campuses but also mounting incidents of discriminatory treatment of this group This book showcases 36 stories and reflections from past present and future leaders including the five previously published stories They represent leaders holding different ideological values in various academic fields positions stages of careers professional trajectories generations Chinese ethnic groups and geographical locations The Rise of Chinese American Leaders in U S Higher Education makes a valuable contribution to the body of literature that has assisted countless academic leaders in navigating their careers bringing to the forefront a distinct group of academic leaders who have been underrepresented
