average church goer while others are so keen to be engaging and relevant they fail to be rigorous in their scholarship. Regardless of the reasons the results are the same: failure to present the good news with a powerful credible voice. To address this tension between academia and the church, a group of Eastern European theologians came together in the spring of 2013 in Berekef, Hungary. This publication is a collection of 10 edited papers presented at that conference. While topics are addressed from a European context, the principles behind them are far reaching, providing important insight for the global church and academy alike. *Encyclopedia of Christian Education* George Thomas Kurian, Mark A. Lamport, 2015-05-07

Christianity regards teaching as one of the most foundational and critically sustaining ministries of the Church. As a result, Christian education remains one of the largest and oldest continuously functioning educational systems in the world, comprising both formal day schools and higher education institutions as well as informal church study groups and parachurch ministries in more than 140 countries. In *The Encyclopedia of Christian Education*, contributors explore the many facets of Christian education in terms of its impact on curriculum, literacy, teacher training, outcomes, and professional standards. This encyclopedia is the first reference work devoted exclusively to chronicling the unique history of Christian education across the globe, illustrating how Christian educators pioneered such educational institutions and reforms as universal literacy, home schooling, Sunday schools, women's education, graded schools, compulsory education of the deaf and blind, and kindergarten. With an editorial advisory board of more than 30 distinguished scholars and five consulting editors, *The Encyclopedia of Christian Education* contains more than 1,200 entries by 400 contributors from 75 countries. These volumes cover a vast range of topics from Christian education history spanning from the church's founding through the Middle Ages to the modern day, denominational and institutional profiles, intellectual traditions in Christian education, biblical and theological frameworks, curricula, missions, adolescent and higher education, theological training, and Christian pedagogy. Biographies of distinguished Christian educators. This work is ideal for scholars of both the history of Christianity and education as well as researchers and students of contemporary Christianity and modern religious education. Religious Faith and Teacher Knowledge in English Language Teaching Bradley Baurain, 2016-01-14

The field of TESOL (Teaching English to Speakers of Other Languages) stands at an active crossroads. Issues of language, culture, learning, identity, morality, and spirituality mix daily in classrooms around the world. What roles might teachers' personal religious beliefs play in their professional activities and contexts? Until recently, such questions had been largely excluded from academic conversations in TESOL. Yet the qualitative research at the core of this book, framed and presented within a teacher knowledge paradigm, demonstrates that personal faith and professional identities and practices can and do interact and interrelate in ways that are both meaningful and problematic. This study's Christian TESOL teacher participants, working overseas in Southeast Asia, perceived, explained, and interpreted a variety of such connections within their lived experience. As a result, the beliefs/practices nexus deserves to be further theorized, researched, and discussed. Religious beliefs and human spirituality as

foundational and enduring aspects of human thought and culture and thus of teaching and learning deserve a place at the TESOL table

H. Tie,Kevin Chen,2024-10-21 A perennial challenge for theological education is the integration of what is learned in the classroom with students church life and ministry Is there a connection How can greater connection be fostered Many seminaries earnestly wrestle with these questions Whereas some of the underlying issues are common to all seminaries others are influenced by the cultural context in which theological education church life and ministry take place In addition to cultural factors the history lifestage and current state of the church and of theological education are different in each context The integration of theology church and ministry is crucial to the effectiveness of a Chinese seminary The great need for theological education for Chinese Christian leaders has rightly been sounded and should continue to be but simultaneously seminaries must think seriously about how to promote quality theological education Beginning with a programmatic article by Dr David Dockery a leading proponent for effective integration this book represents the efforts and reflection of experienced scholar practitioners who work out a vision for integration in the context of a diaspora Chinese seminary in San Jose California      Art, Education, and Cultural Renewal Lambert Zuidervart,2017-05-05 What good is art What is the point of a university education Can philosophers contribute anything to social liberation Such questions both ancient and urgent are the pulse of reformational philosophy Inspired by the vision of the Dutch religious and political leader Abraham Kuyper reformational philosophy pursues social transformation
