Murder Done to Death John Kennedy Melling,1996-04-02 An art form comes of age when it is imitated then parodied and finally repeated in pastiche Crime and detective fiction is now so well established in different formats that it lends itself easily to these literary forms After a brief history of the genre is an analysis of a large number of parody books and short stories with details of correspondence and interviews the writer has had with masters of the craft like Georges Simenon and Margaret Millar The next section covers those books written by teams of six or more crime writers The pastiche section deals with a number of books and short stories in depth crime stories for younger readers and the exploits of literary detectives and criminals Do It Yourself Sleuthing covers dossiers games and books of solvable short crime stories This leads naturally to all forms of parody and pastiche in films theater television and radio including stage and film musicals *Whitaker's Book*

Kneebone,2011-08-29 **Surgical Education** Theorising an Emerging Domain delineates surgical as opposed to medical education as a new and emerging field of academic enquiry This reflects profound changes in healthcare training and practice on an international basis As such this book introduces examines and explores the contribution of selected concepts and theories to surgical learning and practice The first four chapters consider core facets of surgical education such as simulation while subsequent chapters take a key idea often well known in another field and examine its relevance to surgical education Of course performing invasive procedures is no longer the exclusive preserve of traditional surgeons Boundaries between surgery and the interventional specialties radiology cardiology intensive care are becoming increasingly blurred especially as technology continues to expand Changing work patterns and explosive technological development mark this out as a major growth area New educational approaches e g the use of simulation are emerging And all clinical practice is a team activity where clinicians from many specialties medicine nursing allied professions come together with shared goals For all the above groups and their patients education teaching training learning and assessment is of crucial importance Yet the unique characteristics of surgical education have not previously been addressed from an educational perspective nor have its possibilities as a new research domain been mapped The domain needs to be theorised and its epistemological foundations

established There is thus both a need and a market for a definitive work in this area aimed at surgeons other clinicians non clinicians educators and others interested in this new domain **Cumulated Fiction Index** Mandy Hicken,1985
