Education And Ecstasy:

Education and Ecstasy George Leonard, 1987 Education and Ecstasy was originally written as a call for reform in America's school systems Published in the 60s and then revised in the 80s this book reveals the deep rooted structural problems in American schools problems which still plague the system Education Teaching *Education and Ecstasy* George Leonard, 1968 Education and Ecstasy George B. Leonard, 2000 **EDUCATION AND ECSTASY. BY GEORGE BURR LEONARD.** George B. Leonard, 1969 *Rediscovering the Spirit of Education After Scientific Management* Jim Neyland, 2010-01-01 Education is being eroded Otherwise put education is more and more being brought under the yoke of a mode of thought that reduces it to something mechanical narrowly characterized by codes predefined outcomes protocols and rules The cause it is argued is the growing dominance of a new fashion in education called scientific management Scientific management has become the new and unquestionable orthodoxy in education As a consequence it has become increasingly difficult to imagine let alone articulate an alternative This book explores the origins and fundamental assumptions of scientific management and suggests how the spirit of education might be rediscovered by turning instead to a more ethical socially interpersonal and full bodied orientation The approach taken avoids the difficulties usually associated with such ethically oriented treatments of education by drawing on recent findings in neurophysiology psychology primate and language studies The book is a Reader and is designed to both supplement and invigorate undergraduate and postgraduate courses in education and to appeal to general readers who have an interest in education **Whee! We, Wee All the Way Home** Matthew Fox, 1980-06 This practical book leads us into a spirituality of passion that leads to compassion coming to our senses in every meaning of the phrase Race Experts Elisabeth Lasch-Quinn, 2002-12-17 Controversial and strikingly original Race Experts looks at how we capsized racial progress in the quest for self esteem Now available in paperback it uncovers the hidden trajectory and terms of our thinking about race relations since the 1960s Since segregation's dismantling intense anxiety has surrounded interracial encounters and a movement has arisen to engineer social relations through the specification of elaborate codes of conduct Diversity Training in business multicultural education in schools and cross cultural psychotherapy have created a world of prescriptions Elisabeth Lasch Quinn carefully examines the teachings of these self appointed experts and offers a bold and searching analysis of the origins of their ideas in the human potential movement and the radical milieu of the 1960s Casting race primarily as an issue of etiquette or therapy rather than of justice or equality has had dire consequences for American life diverting attention from the deeper problems of poverty violence and continued inequality and discrimination In this sobering analysis Race Experts illuminates how far away we are from the issues that deserve our attention *Education and Ecstasy* by George B. Leonard, 1968 *Jean Baudrillard and Radical Education Theory* Kip Kline, Kristopher Holland, 2020-11-16 In Jean Baudrillard and Radical Education Theory Turning Right to Go Left the authors argue that Baudrillard has been underappreciated in philosophical and theoretical work in education

They introduce him here as an important figure in radical thought who has something to add to theoretical lines of inquiry in education The book does not offer an introduction to Baudrillard Rather his corpus is mined in order to describe how it functions as a counter to the code of education rational thought critical reason etc In effect they establish that Baudrillard advocates for a counter path to thinking that can shake us out of our ready made thoughts and realize the radical potential for change

Determinants of ecstasy use and harm reduction strategies: Informing evidence-based intervention development

Gjalt-Jorn Peters, 2008-10-24 This PhD thesis reports eight studies into the determinants of ecstasy use behaviours Although all prior quantitative studies into ecstasy use determinants have examined the generic behavioural category using ecstasy these studies may not be able to inform the development of interventions aiming to prevent ecstasy use or to promote cessation The studies reported in this thesis indicate that the key determinants of using ecstasy are not also the key determinants of trying out ecstasy and ceasing ecstasy use Furthermore ecstasy use cessation usually seems to be prompted by life style changes e g job work relationships losing interest in the dance scene rather than by fear of ecstasy's health effects This means that health promotion efforts would do better to adopt a harm reduction approach rather than to focus on abstinence The current thesis reports the studies on which these conclusions are based and the first study into the determinants of a harm reduction strategy

Esalen Jeffrey J. Kripal, 2011-09-07 Jeffrey Kripal here recounts the spectacular history of Esalen the institute that has long been a world leader in alternative and experiential education and stands today at the center of the human potential movement Forged in the literary and mythical leanings of the Beat Generation inspired in the lecture halls of Stanford by radical scholars of comparative religion the institute was the remarkable brainchild of Michael Murphy and Richard Price Set against the heady backdrop of California during the revolutionary 1960s Esalen recounts in fascinating detail how these two maverick thinkers sought to fuse the spiritual revelations of the East with the scientific revolutions of the West or to combine the very best elements of Zen Buddhism Western psychology and Indian yoga into a decidedly utopian vision that rejected the dogmas of conventional religion In their religion of no religion the natural world was just as crucial as the spiritual one science and faith not only commingled but became staunch allies and the enlightenment of the body could lead to the full realization of our development as human beings An impressive new book Kripal has written the definitive intellectual history of the ideas behind the institute San Francisco Chronicle Kripal examines Esalen's extraordinary history and evocatively describes the breech birth of Murphy and Price's brainchild His real achievement though is effortlessly synthesizing a dizzying array of dissonant phenomena Cold War espionage ecstatic religiosity incongruous pairings Darwinism Tantric sex and otherwise schizy ephemera psychedelic drugs spaceflight into a cogent satisfyingly complete narrative Atlantic Monthly Kripal has produced the first all encompassing history of Esalen its intellectual social personal literary and spiritual passages Kripal brings us up to date and takes us deep beneath historical surfaces in this definitive elegantly written book Playboy

Primary Understanding

Kieran Egan, 2012 Beginning with descriptions of the ways in which children make sense of their experience and the world such as fantasy stories and games Egan constructs his argument that constituting this foundational layer are sets of cultural sense making capacities reflected in oral cultures throughout the world Egan sees education as the acquisition of these sets of sense making capacities available in our culture and his goal is to conceptualize primary education in a way that overcomes the dichotomy between progressivism and traditionalism attending both the needs of the individual child and the accumulation of knowledge
