justice through education first as a classroom teacher and ultimately as the Director of the Institute of Education in London. The essays in this volume written by some of the most influential authors in the sociology of education and critical policy studies take Whitty's work as the starting point from which to examine key contemporary issues in education and the challenges to social justice that they present. Set within three themes of knowledge policy and practice in education, the chapters tackle the issues of defining and accessing legitimate knowledge, the changing nature of education policy under neoliberalism and globalization, and the reshaping of teacher workplaces and professionalism, as well as attempts to realize more emancipatory practice. Whitty's scholarship on what constitutes quality and impact in educational research is also explored. Together, the essays open a window on a life in the sociology of education, the scholarly community of which it was part, and the facets of education policy, practice, and research that they continue to reveal and challenge in pursuit of social justice. They celebrate Whitty as one of the foremost sociologists of education of his generation but also as a friend and colleague. And they highlight the continued relevance of his contribution to those seeking to promote fairer and more inclusive education systems. *Resources in Education*, 1998

**Introduction to Research Methods in Education** Keith F. Punch, Alis Oancea, 2014-11-10. Based on Keith Punch's bestselling *Introduction to Social Research Methods*, this book introduces the research process in a range of educational contexts. In this updated second edition, you'll find guidance on every stage of research, with chapters on developing research questions, doing a literature review, collecting data, analysing your findings, and writing it all up. With a new chapter on ethics and additional coverage of Internet research and mixing methods, the second edition contains everything you'll need if you're studying on a research methods course or doing a research project for yourself. *Introduction to Research Methods in Education* provides you with balanced coverage of the range of methods employed by educational researchers. Practical advice on collecting and analysing qualitative, quantitative, and mixed methods data. A range of examples from student projects to show how research is done in real-life educational settings. A companion website with additional resources for lecturers and students. Keith F. Punch is Emeritus Professor in the Graduate School of Education at The University of Western Australia. Alis Oancea is Professor of Philosophy of Education and Research Policy, as well as Director of Research at the University of Oxford Department of Education.

**Issues and Challenges in Science Education Research** Kim Chwee Daniel Tan, Mijung Kim, 2012-04-27. In contemporary society, science constitutes a significant part of human life in that it impacts on how people experience and understand the world and themselves. The rapid advances in science and technology, newly established societal and cultural norms and values, and changes in the climate and environment, as well as the depletion of natural resources, all greatly impact the lives of children and youths and hence their ways of learning, viewing the world, experiencing phenomena around them, and interacting with others. These changes challenge science educators to rethink the epistemology and pedagogy in science classrooms today, as the practice of science education needs to be proactive and relevant to students and prepare them for life in the present and

in the future Featuring contributions from highly experienced and celebrated science educators as well as research perspectives from Europe the USA Asia and Australia this book addresses theoretical and practical examples in science education that on the one hand plays a key role in our understanding of the world and yet paradoxically now acknowledges a growing number of uncertainties of knowledge about the world The material is in four sections that cover the learning and teaching of science from science literacy to multiple representations science teacher education the use of innovations and new technologies in science teaching and learning and science learning in informal settings including outdoor environmental learning activities Acknowledging the issues and challenges in science education this book hopes to generate collaborative discussions among scholars researchers and educators to develop critical and creative ways of science teaching to improve and enrich the lives of our children and youths
