Basics of education ,1999-01-01      **Culture and Social Transformations** Tianyu Cao,Xueping Zhong,Liao Kebin,Ban Wang,2013-10-24 As China enters the second decade of the 21st century it faces tremendous challenges and crisis How did China arrive at this point of crisis How do we understand the nature of the challenges More than any existing study of reform era China this volume offers a theoretical discussion of the cultural and social roots of the reform It does so for the purpose of further exploring whether or not it is possible to imagine alternatives Contributors to this second volume of Culture and Social Transformations in Reform Era China address these questions by exploring some of the most contentiously debated topics including liberalism human rights rule of law the state capitalism and socialism      **Volume 1: Research Syntheses**

M. Kathleen Heid,Glendon W. Blume,2008-07-01 According to NCTM s Principles and Standards for School mathematics Technology is essential in teaching and learning of mathematics it influences the mathematics that is taught and it enhances students learning How does research inform this clarion call for technology in mathematics teaching and learning In response to the need to craft appropriate roles for technology in school mathematics new technological approaches have been applied to the teaching and learning of mathematics and these approaches have been examined by researchers world wide The first volume provides insight into what research suggests about the nature of mathematics learning in technological environments Included in this volume are syntheses of research on technology in the learning of rational number algebra elementary and secondary geometry mathematical modeling and calculus Additional chapters synthesize research on technology in the practice of teaching and on equity issues in the use of technology in mathematics instruction Instead of simply reporting achievement scores of students who use technology in their learning authors provide thoughtful analyses of bodies of research with the goal of understanding the ways in which technology affects what and how students learn Each of the chapters in this volume is written by a team of experts whose own research has provided important guidance to the field

**Resources in Education** ,2000-10      *Research in Education* ,1972      Philosophy of Education - Reference Book Prin. Dr. Sandhya Bhangle,2019-02-02 Uncover the essence of education with Philosophical Foundations by Dr Thomas Clark A comprehensive guide exploring the philosophical underpinnings shaping educational theories and practices      *The Logic of the Spirit in Human Thought and Experience* Dana R. Wright,Keith J. White,2014-09-18 In March 2012 a small consultation convened on the campus of Princeton Theological Seminary where James E Loder Jr had served for forty years as the Mary D Synnott Professor of the Philosophy of Christian Education Members from the Child Theology Movement had begun to read Loder s work and they wanted to go further So they invited former students of Loder s to meet with them for conversations about things that really mattered to them and to Loder human beings and especially children the church s witness to the gospel of Jesus Christ and discerning the work of Spiritus Creator in the postmodern world The conversations proved rich and rewarding and some would even say they took on a life of their own serious scholarship set to the music of the Spirit s

communion creating artistry forming new relationships inspiring new ideas and sustaining all of it amid much laughter joy and hope These essays taken from the papers delivered at the consultation are offered as a means of extending that conversation inspired by Loder's interdisciplinary practical theological science and his discernment of the logic of the Spirit They are offered with confidence that the same Spirit continues to work in all persons who hope for the Spirit's redemptive transformation of all creation beginning with children

**Teachers and Texts** Michael W. Apple, 2021-12-16 First published in 1987 this research provides insight on the political economy of schooling and includes an analysis of power as they operate both within and outside of schools in the construction of class and gender relations This is part of a series of volumes that have begun to enquire into the relationship between the curriculum and teaching that is found in our formal institutions of education and unequal power in society
