Education For Adaptation And Survival:

Education for Adaptation and Survival Thomas Michael Weiss, Eugene V. Moran, Eugene Cottle, 1975 *Philosophical and Sociological Foundations of Education (Major Course) Paper Code: EDNMAJ-202-4* KHRITISH SWARGIARY, 2025-05-22

The Philosophical and Sociological Foundations of Education has been conceived as a foundational text for students pursuing the B A Education Major course in their third semester at Bodoland University Kokrajhar. This book is designed to meet the requirements of the course EDNMAJ 202 4 with the primary aim of equipping learners with a comprehensive understanding of the philosophical and sociological underpinnings that shape educational theory and practice. As an author, my objective has been to create a resource that not only elucidates the theoretical frameworks of philosophy and sociology in education but also fosters critical thinking, logical reasoning, and an appreciation for the transformative role of education in society.

Education as a discipline is deeply intertwined with philosophical inquiry and sociological dynamics. The book is structured to guide students through the intricate relationship between these fields, exploring how philosophical principles inform educational aims and how sociological perspectives illuminate the role of education in fostering social cohesion and change. The four chapters of this text cover the essence of philosophy and its impact on education, major philosophical schools and their implications for educational practice, the scope of educational sociology, and the role of education in addressing social inequalities in the Indian context.

This book is the result of extensive research, reflection, and engagement with the evolving discourse in education. It is intended to serve as both a theoretical guide and a practical resource for students, educators, and anyone interested in understanding the broader societal implications of education. I am deeply grateful to the Department of Education at Bodoland University for their support and encouragement, as well as to my colleagues and students whose insights have enriched this work. It is my hope that this book will inspire readers to critically engage with the philosophical and sociological dimensions of education and contribute to the creation of a just and equitable society through informed educational practices.

The Wiley Handbook of Action Research in Education Craig A. Mertler, 2019-02-06

Comprehensive overview of the theoretical, conceptual, and applied practical presentations of action research as it is found and conducted solely in educational settings. The Wiley Handbook of Action Research in Education is the first book to offer theoretical, conceptual, and applied practical presentations of action research as it is found and conducted solely in educational settings. Covering primarily PK-12 educational settings, the book utilizes a cross-section of international authors and presentations to provide global perspectives on action research in education. Part I of The Wiley Handbook of Action Research in Education focuses on various foundational aspects and issues related to action research. Part II is centered on chapters that present theories and principles that help to guide the use of action research in educational contexts. Part III focuses on specific applications of educational action research in practice. Part IV provides an outlet for seven educational practitioners to share their experiences in conducting action research. Each of these authors also discusses

the importance and value that action research has had on him or her both professionally and personally Discuss action research in PK 12 as well as in higher education settings The first book to focus on the importance and application of action research exclusively in educational settings Offers world perspectives on action research in education Written by a team of international scholars The Wiley Handbook of Action Research in Education is an excellent book for advanced undergraduate students graduate students and scholars studying and or researching educational action research **Catalog of Educational Captioned Films for the Deaf** United States.
