including teacher education curriculum texts and teaching repertoires The contributors to this volume embrace a range of perspectives from a variety of disciplines examining religious agnostic skeptical and atheistic points of view Music Education and Religion is a valuable resource for all music teachers and scholars in related fields interrogating the sociocultural and epistemological underpinnings of music repertoires and global educational practices The book serves as a study volume for all those who are active in this field and provides both systematic reflections and useful empirical studies A further impressive feature is the regional and religious breadth of the content presented and examined Wolfgang W M ller Reading Religion

Women, Religion, and Emotions in Modern Germany and Beyond Lisa Fetheringill Zwicker, Martina Cucchiara, 2025 Analyzes the role of emotions in the religious lives of women from across Germany and Europe from the nineteenth century to the 1970s Scholarship on women and religion has focused primarily on the intersection between women s religious engagement and their emancipation This volume goes beyond that to examine the vital role religion has played in the private and public lives of German and European women Because emotions are central to the expression of religiosity it draws on approaches from the history of emotions to examine how women understood felt and practiced religion in their search for meaning Spanning from the nineteenth century to the 1970s the volume s essays show how religion helped women make sense of their lives It also illuminates the degree to which women used religion and its attendant emotional scripts to shape modern society and how religious discourses in turn shaped women s emotions and comportment in the public sphere The volume builds on recent research that shows that religion especially the religiosity of women remained a pressing public concern in modern Europe From anxieties over the religiosity of Bavarian servants to restrictive norms imposed on Jewish widows from the interfaith commitments of kindergarten teachers to the autobiographical narratives of aspiring Protestant deaconesses from the suffering of stigmatics in Germany and Belgium to Irish women s public narratives of their religiosity this book reveals how women s faith and attendant religious emotions have been central to their public and private lives

Engaged Pedagogy, Enraged Pedagogy: Reconciling Politics, Emotion, Religion, and Science for Critical Pedagogy T. Monchinski, 2011-07-23 Students teachers and schools are under attack The assault comes in the guise of accountability and choice cloaking itself in the scientifically proven with an over emphasis of data It combines a vilification of organized labor along with a promotion of the irrational while readily blurring the line between utopia and dystopia The attack abuses education as it disseminates self serving propaganda simultaneously covering up inconvenient truths like the United States government s long and storied relationships with Saddam Hussein and Osama bin Laden in the Wars on Terror It suppresses solidarity and compassion while it champions a divisive form of selfish individualism Engaged Pedagogy Enraged Pedagogy seeks to counter these attacks and expose the ideological impulses behind them Marshalling critical pedagogy and an ethic of care with the notions of justified anger and the intellectual warrior the book explores the non antagonistic dualisms between faith and science reason and emotion it deconstructs social texts ranging from 80s action films to dystopian literature as it uncovers the ideologies that structure and order our lives it explores and champions the democratic potential of dialogue mutuality and

authority while challenging left essentialism and identity politics The book also features an interview with Joe Kincheloe a seminal figure in the field of critical pedagogy

the significance of this issue has been reflected in renewed interest from the academic community much of this work has continued to be based around theoretical or pedagogical debates and stances rather than evidence based empirical research This book aims to address this gap by exploring the social and political role of religion in the context of the primary school Drawing on original ethnographic research with a child centred orientation comparisons are drawn between Community and Roman Catholic primary schools situated within a multi faith urban area in the UK In doing so the study explores a number of ways in which religion has the potential to contribute to everyday school life including through school ethos and values inter pupil relations community cohesion and social identity and difference At the centre of the analysis are two key sociological debates about the significance of religion in late modern societies The first is concerned with the place of religion in public life and the influence of secularisation and post secularism on the relationship between religion and schooling The second relates to the increasingly multi faith nature of many national populations and the implications for religious citizenship in educational settings Religion in the Primary School will be a useful resource for academics researchers and students as a key addition to existing knowledge in the disciplines of education sociology and human geography It will also be of value to both policy makers and educationalists interested in the role of religion in schools and the implications for the wider community and society in a range of national contexts *Educational Secularization within Europe and Beyond* Mette
