Tomusk,2004-04-23 This book is about higher education reforms in the post socialist states of Central and Eastern Europe and the former Soviet Union seen through the eyes of somebody who has spent the last decade analyzing these reforms as well as negotiating and supervising reform projects in countries from Serbia and Montenegro to Mongolia Analyzing the reforms in a broader political economic and social context and relating these to global higher education developments the book addresses the complexity of the processes and contradictions among the demands on higher education systems which in many instances impede positive changes *The Soviet Union Today* James Cracraft,2014-12-10 This newly revised and expanded second edition of *The Soviet Union Today* provides a comprehensive introduction to contemporary Soviet reality Written by thirty experts the book is divided into eight general sections history politics the armed forces the physical context the economy science and technology culture and society The individual chapters which are intended to respond to the questions most frequently asked about the Soviet Union are devoted to everything from the Lenin cult to the KGB from Soviet architecture to Soviet education from the status of women and ethnic minorities to the question of religion All of the chapters from the first edition have been updated and five new chapters on the Soviet cinema mass media foreign trade arms control and the legal system have been added An annotated list of further reading suggestions and a special Note for Travelers enhance this volume s usefulness Students teachers journalists prospective tourists and anyone interested in Soviet life will find this new edition of *The Soviet Union Today* an essential and stimulating guide to understanding the world s largest country *Politics, Modernisation and Educational Reform in Russia* David Johnson,2010-05-17 The chapters in this volume give an account of the process of modernisation and educational reform in Russia variously considering the cultural and political dilemmas provoked by democratisation the structural and policy challenges associated with the reform of higher and vocational education and the deep divisions exposed as socio cultural activity is brought into alignment with the new discourse of freedom and choice The volume stimulates an important debate about the methods that inform cross national and cross regional work on educational change This is particularly salient in a study of educational reform in Russia and begs the question whose way of thinking of constructing meaning and of experiencing the world is used to judge the weight and the direction of change Each chapter shows that a thorough understanding of the nature of change and the direction of reform is only achieved through the ability to decentre or take on

board the other worldview It argues therefore that it is worldview rather than culture or nation state that is the most valid unit of analysis This book pays tribute to K D Ushinsky 1824 70 the Russian pioneer of comparative education each chapter in it broadly in agreement with his conclusions that Public education does not solve the problems of life by itself it does not lead history rather it follows the historical development It is not the pedagogies or the teachers who create the future but the people themselves and their great men Education only follows this road and in combination with other public social factors helps the individual and the rising generation on its way **The Former Soviet Union in Transition** United States.
